Q7

If elected, what would be your first priority as a School Board Member?

Improve board/board, and board/SI relations so more time and focus will be given to students success.

Q8

What place do you believe parental rights have in our school system?

I believe parents should be an integral part of their child's education. Parents have a right to know what their children are being taught and what they are participating in.

Q9

What would you do to improve student academic outcomes?

I will ensure the SI is following policy the board makes, and look for opportunities to change policy to promote better student success.

Q10

On what principles would you choose the curriculum for our district?

I believe fact should be taught. Let the students form their own opinions and beliefs. Students should be able to learn facts without the slant of a teacher's political bias.

Q11

What is your opinion on SB 397, the recent law passed regarding school health clinics to be accessible for all New Mexico students at school for universal health, dental, eye, and psychological care?

I think that it is great that students can receive healthcare. I believe the parents should have access to all minor's information. While I think it is great that students can receive healthcare, I believe parents have the responsibility to provide the healthcare for their children, not the schools or the state.

Q12

What is your opinion on parental notification for all student health concerns?

I believe parents should be notified for all student health concerns, with one possible exception being victims of abuse from a parent.

Q13

Why are you seeking to be a school board member, and what makes you the most qualified person to be elected?

I am seeking to be a board member because our schools need community involvement. As a parent of students and member of the community, I feel I can provide input that can change the school system for the better.

Q14

Have you ever been arrested for a felony or misdemeanor crime? If yes, please explain.

No.
