**Q7**

If elected, what would be your first priority as a School Board Member?

If elected as a School Board Member, my first priority would be to foster transparency and parental involvement in the decision-making processes. I believe that parents are essential in their children's education, and their concerns and input should be respected and valued more than anything else.

I would work towards creating a more open and accessible school board that actively engages with parents, teachers, and the community. This would include regular updates on curriculum choices, policies, and educational goals. By prioritizing the voice of parents and ensuring they have a genuine say in shaping their children's educational journey, we can build a stronger, more collaborative educational system that benefits all our students.

---

**Q8**

What place do you believe parental rights have in our school system?

I believe that parental rights are critical to our school system. The rights of parents must be respected and protected. Parents are the primary advocates for their children's education and well-being. They should have a genuine voice in shaping their children's educational journey. This includes the right to be informed and engaged in what their children are learning, decisions about school policies, and the overall direction of our educational system.

As a School Board Member, I am committed to upholding and promoting parental rights in our school system. I will advocate for transparency, open communication, and curriculum reviews to ensure that parents are well-informed and empowered to play an active role in their children's education.

---

**Q9**

What would you do to improve student academic outcomes?

Improving student academic outcomes is a top priority for me. To achieve this, I would focus on several key areas:

**Curriculum Enhancement:** Regularly reviewing and updating our curriculum to ensure alignment with rigorous standards and the incorporation of effective teaching methods.

**Teacher Support:** Providing our educators with the necessary support, resources, and professional development opportunities to help them excel in the classroom.

**Parental Engagement:** Actively involving parents in their children's education, encouraging increased parental involvement and communication.

**Trade and Vocational Programs:** Ensuring trade-focused classes and vocational programs are available to provide students with practical skills and broader career opportunities.

By addressing these areas and collaborating with educators, parents, and the community, we can drive meaningful improvements in student academic outcomes, ensuring our students receive a high-quality education.

---

**Q10**

On what principles would you choose the curriculum for our district?

In choosing the curriculum for our district, I would prioritize several key principles:

**Academic Excellence:** Our curriculum should emphasize the foundations of traditional education, including strong academic fundamentals in math, science, and the humanities, to equip our students with a solid educational base.

**Traditional Values:** While promoting diversity, our curriculum should also uphold traditional values, respecting the cultural and moral values of our community.

**Parental Rights:** Parents should have a central role in curriculum decisions, ensuring that educational materials align with their values and beliefs, while also respecting individual family choices.

**Critical Thinking and Real-World Skills:** Curriculum choices should emphasize critical thinking and practical skills that prepare students for success in the real world.

**Constitutional Principles:** Our curriculum should uphold the principles of the U.S. Constitution, emphasizing the importance of individual liberties, freedom of speech, and patriotism.

**Ongoing Review:** Regular curriculum review and updates will ensure that we continue to provide a balanced, effective education that reflects our community's values and principles.

By adhering to these principles, we can choose a curriculum that aligns with the values and priorities of local families, ensuring our students receive an academically rigorous and values-driven education.

**Q11**

What is your opinion on SB 397, the recent law passed regarding school health clinics to be accessible for all New Mexico students at school for universal health, dental, eye, and psychological care?

I believe that decisions about healthcare access should primarily rest with parents and guardians. While the idea of providing comprehensive healthcare services in schools has merits, it's essential to balance it with parental rights and individual family choices. I support local decision-making that considers the values and preferences of our community, ensuring that any healthcare services in schools respect parental rights and family autonomy.

---

**Q12**

What is your opinion on parental notification for all student health concerns?

I believe that parental notification for all student health concerns is a fundamental aspect of respecting parental rights and involving parents in their children's well-being. Parents should be promptly informed about any health-related issues that affect their children. Open communication with parents not only respects their rights but also allows them to provide necessary support and make informed decisions regarding their child's care.

---

**Q13**

Why are you seeking to be a school board member, and what makes you the most qualified person to be elected?

I am seeking to be a school board member because I am deeply committed to the well-being and success of our students.

My qualifications for this role include:

**Leadership:** I have a proven track record of leadership, both in my community and as the facilitator of a local program for youth, nurturing young girls' self-esteem and leadership skills.

**Transparency:** My focus on transparency and parental involvement aligns with my vision for the school board, emphasizing my dedication to keeping the community informed and engaged in the direction of local education.

**Community Engagement:** My community involvement, volunteer work, and service in my neighborhood demonstrate my deep connection to and understanding of the needs and concerns of local residents.

**Parental Perspective:** As a mother of two grammar school-aged children, I bring a valuable parental perspective to the school board, understanding the challenges and concerns of families within the district.

**Fiscal Responsibility:** My experience as a small business owner and HOA treasurer reflects my experience with fiscal responsibility, which can be beneficial in managing the school board's budget and resources effectively.

**Educational Advocacy:** My work as the facilitator of a local youth program, focusing on nurturing self-esteem and leadership skills among young girls, highlights my commitment to the growth and development of youth within the district.

**Community Values:** Being raised in the East Mountains, I understand the values and unique qualities of our community. This understanding enables me to better represent and serve our community's interests on the school board.

These qualifications collectively make me the most qualified candidate for the role of a school board member. I am eager to dedicate my skills, experience, and passion to serving our community and enhancing the educational experience for all students.
