4 years (10 years in the same house, but redistricted into 44 four years ago)

aliformn@gmail.com

Q6

Phone number:

5055218285

Q7

Have you, or a business you have been associated with, ever been the subject of a tax lien or a bankruptcy proceeding?

Yes (please explain):

Yes, in the early 2000's I had a tax lien, which was paid in full. I don't recall what it was for. I filed for bankruptcy in 1991 due to divorce.

Q8

Have you ever been arrested, charged, or convicted of a misdemeanor or felony crime in New Mexico or any other state?

No

Q9

What will be your #1 priority and what is your plan of action to address it, if elected?

I have been talking with the citizens of my district and their concerns are crime, education, taxes, and healthcare, among other issues. When I talk to businesses, I have discovered that the Paid Family Medical Leave Act is a great concern to them. I will work hard on all of the issues, but this bill seems to keep recurring. It will decimate small businesses and hinder the productivity of mid- to large size businesses. I will do what I can to stop this bill.

Q10

Recently, New Mexico has enjoyed record budget surpluses in the \$3.5 billion range. What do you feel is the best use of surplus funds? (Please select and explain your top priority for surplus funds.)

Added to our reserves for the future.,

Other or comments::

This state keeps throwing good money after bad. Transparency in the budget is important so that taxpayers know how their money is being spent. We need to add to our reserves for the future, because we cannot expect that oil and gas will always be around due to the mandates and policies of this administration. We cannot trust that "clean energy" will be profitable for our state. New Mexico is a wealthy state that the government has made poor because of the recently passed laws and policies instituted.

Q11

Do you support or oppose the use of the Gross Receipts Tax system currently in effect?

Oppose (Please explain.),

Other or comments::

However, some small towns and villages in our state do depend on GRT, so it is a give and take. We need a better system to help those smaller cities, towns, and villages.

Q12

Do you support or oppose the current bail system our courts are using?

Oppose (Please explain.),

Other or comments::

There really is no bail system. We have to stop the catch and release.

Q13

Crime has reached an all-time high in New Mexico. What do you think the state legislature could do to address crime?

Address mental health treatment,

Pass legislation, similar to federal laws, with significant mandatory sentencing requirements for certain crimes and repeat offenders.

,

Address addictions and other lifestyles that impact criminal behavior.

,

Other or comments::

Everything is connected and we need to address all of these issues which impact our communities.

Q14

New Mexico has passed laws that govern employer-employee relations such as increased minimum wage and paid time off among others. There have also been discussions about Paid Family Medical Leave Act (PFMLA), a living wage, and shortened work weeks. If elected, what position will you take on additional regulation of businesses on issues like those mentioned?

I will not support additional government regulations on employer-employee relations.

Q15

New Mexico's state tax revenue is largely funded by oil and gas producers who operate under some of the most stringent environmental regulations in the country. Do you support or oppose continued oil and gas production in NM?

Support.

Q16

Do you feel that environmental regulations need to be increased or expanded from their current levels regarding New Mexico's land, air, and water?

No; the environmental regulations we currently have in place work well for our state.

,

Other or comments::

We have too many regulations and we need to address this issue. With all of the regulations in place, is there anyone who understands the impact and outcomes on the state? The problem is the current administration is not looking at the big picture.

Q17

What is your position on mandatory requirements for state-funded incentives that include pay-back measures if the requirements are not met?

Other or comments::

I need more information on this issue.

Q18

Support.

Do you support or oppose changing the constitution and/or laws to require legislative approval for any emergency declaration/order lasting more than 60 days?

Q19

I support abiding to the state Constitution as written.

What is your position on abiding by the state constitution?

Q20

Is there anything else you would like to share about your candidacy or your desire to serve the people of your district?

America is set up as a republic for a reason. We need to let the voice of the people in our districts be heard. I am listening and I hear the people in my district. They have concerns that I will take to the Roundhouse. Please visit my website at www.aliformm.com and help me serve my district.
