BUDGET AND TAXES

Q7. In recent years, New Mexico has experienced budget surpluses. How do you believe surplus funds should be prioritized? Rank the options in order of how you would like to see surplus money used.

Response	Rank / Rating
Use funds for backlogged infrastructure projects like road/bridge maintenance	2
Expansion of existing government programs	5
Creation of new government programs	4
Strengthening state reserves	3
Returning funds to taxpayers	1

Q8. What is your general approach to state and local taxes and fees?

Not only will I prioritize Lowering taxes for everybody, I have a plan, If elected, to eliminate state income tax for EVERYBODY involved in the medical field: including Doctors, Nurses, and support staff.

Q9. New Mexico's Gross Receipts Tax (GRT) applies to goods and many services. What is your position regarding GRT?

I believe the GRT is a better way for the Government to acquire revenue. We should lower or eliminate income taxes and use the GRT to generate income. The more money people have in their pocket, the more they will spend: thus generating government income through the GRT.
