ELECTION INTEGRITY, SUPPORT PROGRAMS, AND CANDIDACY

Q16. How should New Mexico approach cooperation with federal authorities on law enforcement and public policy matters?

The state should generally cooperate with federal authorities This is a complex issue and needs to be balanced with our state's sovereignty and our state's contract with our federal laws.

Q17. What is your position on requiring identification to vote in New Mexico elections?

Support requiring identification to vote, This is to register and to present ID at time of voting.

Q18. What is your general position on government-funded income support programs, such as guaranteed basic income?

Oppose implementing guaranteed basic income programs I support financial assistance as long as it is not used as a permanent fund for those that are capable to work. This needs to be continually audited and kept accountable.

The district has been under Democrat leadership and I would like to flip the seat back under Republican leadership. I also would like to bring more balance leadership to our legislature so more of our population in NM have representation.
