1	Believe Governor Grisham is unbridled with power and is making uneducated policy decisions in the name of public health.	5/17/2020 7:35 PM
2	Totally overreacting!!!	5/17/2020 6:09 PM
3	Dept of health never followed up with me as someone who was in direct contact. They said they would call me for the next 14 days to track any symptoms...they never did. District ions are arbitrary and illogical. Pres conferences feel patronizing and insulting ...like she is speaking to us as if we are children!	5/17/2020 2:57 PM
4	We complied with President Trump's task force from the beginning. The governor was very late in responding.	5/17/2020 11:06 AM
5	As a doctor and scientist research shows the germ theory is outdated and has holes. It would have been much more effective to let everyone stay open and perhaps provide some Vitamin A and D for the population. Let the seniors and immunocompromised self isolate.	5/17/2020 9:06 AM
6	Tyranny	5/17/2020 1:40 AM
7	It's time to get back to normal. Keep restrictions recommended but not mandatory	5/16/2020 6:37 PM
8	I believe the Governor put too many restrictions on small business. Small businesses including mine were perfectly capable of social distancing measures sanitizing all areas of importance. Her actions caused many issues financial issues and cause for gaining debt with PPP and other assistance.	5/16/2020 11:09 AM
9	We obviously were not ready. One reason is because the "gov" hadn't received her orders yet as usual. Secondly, our state was no where near the "disaster" areas like NY, Califorkya, et al. If she truly knew what to do, she would have immediately aimed at protecting the most vulnerable, elderly, frail, ill. But no.....the magic mask was her Elixer.	5/16/2020 10:02 AM
10	Gov Michelle "Wuhan" Grisham is spreading nothing but fear across the state. When all the states around NM are opening up, she's going the opposite direction. The number of studies showing that wearing masks can have a negative affect on a person's health completely contradicts her mandate on 16 May that any time you're in a public place you must have a mask on. Governor Wuhan is all about power and she's relishing her ability to destroy our constitutional rights. We no longer have a governor; we have a queen who is ruling as a dictator with the state police acting as her KGB.	5/16/2020 8:49 AM
11	MLG seemed excited we finally had cases and was extreme in her response right away	5/16/2020 12:13 AM
12	Great under ridiculous feds	5/15/2020 7:53 PM
13	Early response was key to keep medical facilities available. It is a key to educating the public and encouraging individual responsibilities. Early testing was limited and remains a limiting factor for general public decision making. New Mexico Governor gets a C for application. Not enough thought or mindfulness as to understand ramifications to overall economy.	5/15/2020 6:14 PM
14	I believe the governor has been heavy handed and dictatorial. A call line to report violators of her directives? Really? Threats to people who don't agree with her (even mayors) and sending the State Police after them? Cell phone tracking? Shutting down gun shops? Welcome to Nazi Germany. No crisis supersedes the Constitution and our Bill of Rights and no Governor or Mayor has the right to do so. She should have taken an approach similar to Sweden. Tell the people what they can do to help, explain to them why it is important with honest, accurate and balanced information and then let them act as they feel is best without threats and scare tactics. Trust the citizens to do the right thing without threats and state wide dictatorial edicts. Let the local city and town leaders and people determine what is best for them. New Mexico is not New York city, Seattle, Chicago or Los Angeles. Edgewood, Moriatory and Santa Rosa are not Albuquerque. One size does not fit all. The state should have issued guide lines and recommendations - not edicts, with threats of punishment. This is America, not North Korea and the governor seems to have missed that. Why did she allow big box stores to remain open and close smaller specialty stores that sold the same types of goods? Why fully close restaurants and not even allow partial capacity when hundreds are allowed in the big box stores? There were way to many illogical inconsistencies in her policies.	5/15/2020 5:05 PM
15	I feel the virus was on its way to being out of control before response was directed. Placing restrictions "after-the-fact" did not help in the intended way, nor make any conditional effect	5/15/2020 4:57 PM

better. Many things got worse. I am pleased about the testing availability that came in larger volume and earlier than other states/locations. Though I also feel that availability of testing elevated our numbers earlier and caused more public panic.

16	It was unethical, unconstitutional, biased and politically charged to close small businesses and churches (and now require masks) when abortion clinics, big box and pot stores remained full service. It has been a power play and fear mongering and hypocritical at the very least	5/15/2020 4:25 PM
17	Doing a horrible job. All business and workers are essential. I believe it is completely unconstitutional with the cell phone tracking, personal restrictions and social distancing. Those that want to be tested fine but it keeps changing - first it works correctly and then up pops it isn't. All small business's should contact and together decide to open there doors all at once.	5/15/2020 2:57 PM
18	I think that since 80% of the cases in NM are concentrated in only 5 counties, the length of time to lower restrictions is a bit exaggerated. It is only perpetuating more panic.	5/15/2020 2:00 PM
19	I am very satisfied with aggressive action taken to shutdown businesses early, put restrictions in place, perform more testing per capita than approximately 40 other states, and use technology to track movements of the population.	5/15/2020 1:54 PM
20	ALL AREAS she did a horrible job!	5/15/2020 1:47 PM
21	Break outs in corner of state. Businesses will fail because of her politics.	5/15/2020 1:43 PM
22	We have seen several small businesses in our neighborhood shutter their windows for the last time-so sad This is not a deadly virus for the majority just as the flu- There is another agenda to take away our civil liberties for the safety of the few Our governor has created a dystopian society for the well being of the few	5/15/2020 1:23 PM
23	The governor is saying that she bases her decisions on science. If that was true, businesses would be open and people who are healthy would not be shamed into wearing masks.	5/15/2020 1:16 PM
24	This has been a gross over reach by our state government!	5/15/2020 1:11 PM
25	NM got ahead of the curve with testing, stay at home, and physical distancing.	5/15/2020 1:01 PM
26	The Gov is doing a good job of protecting our residents.	5/15/2020 12:55 PM
27	An unconstitutional attempt to destroy our economy for political gain!	5/15/2020 12:55 PM
28	it feels like it could have been a waste since the re-opening is so premature.	5/15/2020 12:55 PM
29	The governor did well in the beginning but 10 weeks into the quarantine it feels like a power play on her part.	5/15/2020 12:25 PM
30	I think the social distancing and masks are the best idea but feel for the businesses. Being retired the business situation and home schooling doesn't affect us as much (except for needing hair cuts!) but being a former teacher I can relate to some of the stressers. I do think restrictions on the counties with very few cases should be lifted sooner. I was glad she kept the northwest two counties locked down for now. Hopefully things will slow down there soon.	5/15/2020 10:35 AM
31	Our beloved Gov is doing a very poor job of combatting the virus and its impact on the communities of the State! She talks to us as if we were children and does not consider the very negative impact of the State's actions on small businesses. She also does not seem to recognize that "one size does not fit all".	5/15/2020 10:19 AM
32	Need testing in rural areas	5/15/2020 10:11 AM
33	Forcing everyone into the same opened locations (businesses) is not logical. Small business places have a normal smaller flow of customers which would help to slow the spread...which was the plan for us to stay at home and close business. Every small business is ESSENTIAL! We were all willing to not stress our hospitals and medical support staff but the numbers of patients never happened. Thank God! But now it is past time to reopen with logical. If someone is compromised with a preexisting condition, they should stay at home. Wearing a mask in public, per the "expert" Dr. Fauci now says no masks. "Right now people in America should not be walking around with a mask...only health care professionals". YET, we are mandated to wear a mask in New Mexico, starting tomorrow. To whom is our Governor listening?	5/15/2020 9:45 AM
34	Testing availability was very limited.	5/15/2020 8:49 AM
35	I feel business restrictions aren't too tight. She needs to follow her own plan for phase 1. We hit	5/15/2020 8:37 AM

the markers. Testing is in her court. We the people do not have control on how many tests they administer. I am not ok with cell phone tracking.

36	I really appreciated the response at first. It was quick, responsible, and strong. HOWEVER - as time has gone on and our states cases have been concentrated to two problem counties, I think the strength and intensity of the response has become overbearing. We're at the point where it's time to dial it back.	5/15/2020 8:31 AM
37	When you trample on our Civil Rights and ignore the Constitution that ALL of you 'public officials PROMISED,I have little or NO respect for ANY of you ! I took this same OATH and still stand by it TODAY,53 years later. ! The CDC,Fauchi and you used 'so called' models to live by,AND found out the 'model' wasn't even close to being right..Many citizens believe this pandemic was used as a 'warm up'.Just think how quickly you shut down an entire country in a few short days.AND crippled the BEST economy in the world.! Hopefully,most of you will leave our great countryand NEVER come back.	5/14/2020 10:37 PM
38	I think the whole corona scare is a sham !!!!	5/14/2020 9:55 PM
39	The current NM government is a joke you've overstepped your authority and you're making good people dislike officer's an dislike Government even more than they did.	5/14/2020 8:42 PM
40	Everyone was willing to sacrifice to make sure we had enough PPEs and ICU beds. The curve flattened and the restrictions continued. To bad politicians have to use this to push there agenda and forget about all the lives these restrictions are effecting	5/14/2020 8:31 PM
41	The early response was ok because we did not have a lot of information and needed to be cautious in our approach to this unknown virus.	5/14/2020 8:01 PM
42	We all need jobs.	5/14/2020 7:38 PM
43	I was satisfied that the state responded since we really didn't know what to expect in the early days of the virus.	5/14/2020 7:10 PM
44	Complete over reaction	5/14/2020 7:10 PM
45	Low grade for business shut down. Small business know how to social distance better that big box and even grocery stores. Would give a 1 but testing is good.	5/14/2020 6:58 PM
46	I believe it was an over-reaction by government. Shutting down small businesses was not the answer. People are smart enough to take precautions. Initially we did not have enough information but we do now. There is no reason to continue the current shutdown as long as reasonable precautions are taken. Businesses do not want to lose customers - they would take every precaution anyway to be sure their customers return.	5/14/2020 6:53 PM
47	Politically motivated response with no data basis. All numbers and science can be interpreted more than one way and the people who are saying or believing other things are being censored and not listened to. It is Destroying the states economy and killing small businesses. No logic on what can be opened and what can't.	5/14/2020 6:45 PM
48	Over reaction from our Governor	5/14/2020 6:43 PM
49	MLG does not care about average New Mexicans or small business owners she only cares about her contributors and Campaign donors.	5/14/2020 6:39 PM
50	While I blame China's unsanitary and filled with animal suffering wet meat markets for the Pandemic of 2020, I also feel that Governor Lujan Grisham's actions last year of taking away the National Guard allowed in too many illegal immigrants that are now complaining about not having a stimulus check. I certainly did not ask those illegal immigrants into the U.S., and I doubt that any Republican would either. Last summer around this time, the city of Albuquerque had so much crime that the New Mexico State Police was called in to assist APD with arrests. In the news, it was determined by contact tracing that an Asian Nail Salon spread the Coronavirus 19. In January of 2020, the State of New Mexico Legislature proposed a bill that despite an individual's immigration status that an illegal immigrant be granted a New Mexico State license for cosmetology or Massage Therapy. Over a month ago, Border agents apprehended more than 100 Chinese nationals trying to get into the U.S. illegally at the southern border to work. I believe that sanctuary cities and states can cause super spreaders which I worry about in Nursing Homes. I believe that E-Verify is necessary in places like Nursing Homes to protect the elderly that are more vulnerable at dying from the Coronavirus 19. If an illegal immigrant didn't follow immigration rules, then the illegal immigrant cannot be	5/14/2020 6:39 PM

NMBC Covid-19 Statewide Survey

rewarded for their bad behavior. It is not likely that an illegal immigrant trying to go back to Mexico to visit before the Fall of 2020 will use routes other than tunnels linked to drug cartels. I read about stories of another drug cartel tunnel being discovered. These illegal routes are dangerous and can cause super spreaders. We need to protect our southern borders with tighter control, and focus on completing the border wall. Governor Lujan Grisham did not protect the welfare of New Mexicans when she so callously and capriciously rejected the idea of the southern border needing protection from illegal immigrants. Every dollar needs to go to help a U.S. citizen. It is not ok to outsource U.S. jobs on our own U.S. land by immigrants. President Trump is correct in the need to focus on U.S. citizens getting employment and deporting the illegal immigrants out.

51	Just like the U.S. response is State-by-state, our State response should be allowed to be county by county. In Grant County, we have zero cases in the hospital, and have been stable at 15 cases (for a county with 30,000 people) for weeks.	5/14/2020 6:26 PM
52	Any business that can follow the same restrictions as the big box stores should be able to stay open	5/14/2020 6:24 PM
53	Cell phone tracking is over reach	5/14/2020 6:23 PM
54	Early action seemed prudent at the time. I wasn't necessarily supportive, but felt it was important to be a team player while so much was yet to be understood about the virus' severity.	5/14/2020 6:22 PM
55	Our leaders acted too quickly on flawed information and refused to acknowledge their mistake.	5/14/2020 6:18 PM
56	I think the "One size fits all" approach has done a lot of harm to business and personal lives. Granted maybe something had to be done but to just suddenly close everything is not a good way to do it.	5/14/2020 6:12 PM
57	The Governor has totally ignored the bottom half of the state and has kept us "in jail" for no reason. We are rural, have sunshine and warmth, do social distancing and are not the Navajos. We experienced 40% unemployed in 1982-83; we experienced another hit when the twin towers were hit in 2001 and there were layoffs at the mine; then again in 2008. I worked and helped find food, clothing, shelter for unemployed miners and then helped them get an education at a later time. I have more than enough experience with hard times and this was totally unnecessary.	5/14/2020 6:09 PM
58	This is State Rep Bill Rehm--we have asked and she will not communicate with us on any plans.	5/14/2020 5:58 PM
59	She is going to kill us with lock downs!!!!	5/14/2020 5:49 PM
60	MLG was and is being a typical Left Wing Radical/Marxist who wants the economy to crash, so the Communists can put in place their disastrous socialist agenda, which always leads to a authoritarian State, and we end up with equal poverty for all. The virus response was "a dream come true for the radical left."in their attempt at winning back power. It is all about an attempt to weaken Trump's base. GOOD LUCK WITH THAT!!!	5/14/2020 5:24 PM
61	The NM governor has overstepped her authority.	5/14/2020 5:24 PM
62	Too much in most areas; did not focus on the obvious areas; was not fair in practice and was discriminatory.	5/14/2020 5:19 PM
63	Personal restrictions and social distancing were warranted. Cell phone tracking of our every movement is a violation of our civil rights. While that data is available for commercial use, it is not intended for government surveillance purposes. The Gov. should have had to obtain a search warrant to gather that information all NM citizens. (No Judge would authorize such a broad warrant)	5/14/2020 5:03 PM
64	Too many businesses closing and restrictions causing irreparable damage	5/14/2020 5:02 PM
65	We closed down small businesses to let large businesses who would have survived shutdown better than the small businesses stay open. That sent everyone to fewer locations, making the social distancing nonexistent. Grocery store liquor departments were packed. Small town residents had to drive to Midland, Lubbock, El Paso, Albuquerque to look for things. We "flattened" the curve and then continued stay shutdown.	5/14/2020 4:57 PM
66	We will always have influenzas and viruses, and there is no way anyone can keep every one safe. There have been bad "flues" in the past several years with lots of deaths....(think H2N2,	5/14/2020 4:39 PM

NMBC Covid-19 Statewide Survey

H1N1, Ebola, etc) with no shutdowns. New York City is not comparable to NM.

67	It is time to open NM and give individuals the CHOICE on whether to open their own business or individuals to go to patronize various business with their own common sense of wearing masks, social distancing, etc. Please stop killing our economy by keeping NM closed.	5/14/2020 4:38 PM
68	her socialistic policies sound like fascism. From a medical standpoint, unless one is in a high risk group, quarantines do more harm than good. The person's immune system is not bolstered by exposure to viruses and bacteria daily.	5/14/2020 4:30 PM
69	We are in a purposeful, political state-wide shutdown. It seems only 2 or 3 counties are the real problem areas yet the entire state is paying for those area's troubles. Not good management at all.	5/14/2020 4:21 PM
70	We're grateful that Mayor Dale Janway of Carlsbad has acted in a Common Sense / Faith-Based Manner, keeping the Citizens of Carlsbad, our Economic livelihood, and Employment, at the forefront of his concerns, but Governor Grisham has acted in the complete opposite - with Excessive Power, Control, and Political Bias leading her decision making process, giving no regard for our Constitutional Rights.	5/14/2020 4:18 PM
71	The Governtaor seems to have no clue at all as to what is happening. She has strangled most businesses to death and unfortunately allowed the infection and death rate in or Native American population to run amok	5/14/2020 4:16 PM
72	Kudos to the governor.	5/14/2020 4:16 PM
73	I think everyone but our sheriff and mayor are doing amazing.	5/14/2020 3:39 PM
74	Elected Officials and Emergency Personal have done a poor job in Eddy County	5/14/2020 3:03 PM
75	Train wreck. Ridiculous. Over reaching. Not using any common sense.	5/14/2020 2:57 PM
76	Essential people work everyday putting everyone in danger just to feed their families.	5/14/2020 2:56 PM
77	I believe NM had a good initial response to covid. Needed people to understand the seriousness of the situation. Testing was slow though but overall it wasn't NM fault on that issue.	5/14/2020 2:45 PM
78	It's very evident how unprofessionally everything is run. It's like there's a Monarch running New Mexico.	5/14/2020 11:01 AM
79	Nothing has made sense from the start. This includes what businesses are open or closed, what is essential and what is non-essential. Timelines. This is an economy destroyer and the governor is on a power trip.	5/14/2020 10:48 AM
80	Our governor has seriously overstepped!	5/14/2020 10:32 AM
81	All businesses are essential. All businesses have the ability to practice social distancing. Some people have medical issues and cannot wear a mask. The test is not reliable so I will not do it. Cell phone tracking is a violation of privacy.	5/14/2020 8:40 AM
82	They just care about lording over the people.	5/14/2020 12:19 AM
83	Not treating businesses fairly	5/13/2020 11:06 PM
84	Tracking cellphones has gone too far! COVID 19 is a scam of the elite. We were all sick in January 2020. It is my body, I am healthy and active, I WILL NOT TAKE MANDATORY TESTS and I REFUSE TO BE MICROCHIPPED OR VACCINATED. SAME WITH MY CHILDREN AND GRANDCHILDREN.	5/13/2020 7:13 PM
85	I do not support any enforced government "mitigation" of the corona virus.	5/13/2020 5:50 PM
86	The businesses are being impacted negatively	5/13/2020 5:22 PM
87	While I think it was important to implement some protocols, I also think some were draconian and borderline unconstitutional.	5/13/2020 4:36 PM
88	Provide antibody tests and find out how many people have already had it, especially near areas where illegals travel through or hide out.	5/13/2020 4:01 PM
89	I think it was good that we took action early. I do not think it was fair to keep the big box stores open which brings so much more exposure and close the small ones that were so much easier	5/13/2020 3:51 PM

NMBC Covid-19 Statewide Survey

	contained.	
90	The actions taken are not supported by any facts.	5/13/2020 3:41 PM
91	Instituted panic	5/13/2020 3:18 PM
92	Testing availability has been dismal. Business restrictions are horrendous when you consider the lack of PPE in big box stores like Smith's, Lowe's and Walgreens; and they shut down entire local family owned restaurants who care about their employees and clients; and who would do a better job at PPE.	5/13/2020 3:08 PM
93	A bunch of lifetime politicians in charge of New Mexico's Health system and Businesses.....enough to make the gods laugh.	5/13/2020 2:31 PM
94	Overreacted to the modeling and overreached their authority.	5/13/2020 1:36 PM
95	I think it was great that elected officials wanted to be proactive and protect people, but this was a huge overreach of power and invasion of personal freedom and privacy.	5/13/2020 1:10 PM
96	I felt that information about business closures was released within just hours of when the business was required to close which hardly gave them any time to prepare. I feel that most small businesses would have been able to provide the same safety protocols as the larger stores had they been given the opportunity. In fact, smaller businesses would have better been able to monitor and restrict the number of customers in their place of business. The business closures just created a situation where large numbers of shoppers all gathered in just a few stores such as Walmart and Lowes. I felt that the announcement that SJC, McKinley County and Cibola County were not included in the relaxing of restrictions was hidden at the end of the press release instead of being announced right at the beginning. I feel that instead of working with all businesses to help keep them open and operating in any way possible, the message was that the smaller, local businessman or woman was part of the problem and not given the opportunity to be a part of the solution.	5/12/2020 1:26 PM
97	Over reacted	5/12/2020 12:25 PM
98	Overkill. This governor has politicized this to the detriment of the people of the state.	5/12/2020 11:12 AM
99	There was a disproportionate response that resulted in the favoritism of big box stores over small businesses.	5/11/2020 11:48 AM
100	This is all BS she has no right to do what she is doing	5/10/2020 3:42 PM
101	The most vulnerable were not protected Rest homes	5/10/2020 8:34 AM
102	Not a new Mexico resident. How did this end up on Facebook	5/10/2020 2:40 AM
103	This is ludicrous.	5/9/2020 2:48 PM
104	What the hell are they doing!!! Do these present day brain dead politicians not realize that the working class pays for their salary and the careless devastating trick they have pulled. I am a vaccine damaged Vet. This can be classified as possible Biowar activity. Those responsible should be dealt with swiftly. Killing all of the businesses in the world absolutely won't help a thing. What happened to the Constitution? Do you even know what the Patriot Act is? What are serious professionals saying about it. See: Congressman Ron Paul Patriot Act. Judge Neapolitan Patriot Act. It will probably be Censored by the time you have time to research it.	5/9/2020 11:45 AM
105	Progressive/Marxist bullshit	5/9/2020 9:29 AM
106	This Covid is a Governor MLG planned scare tactic for political gain.	5/9/2020 8:54 AM
107	Too restrictive without reason or explanation. Too late in communicating a strategy.	5/8/2020 6:33 PM
108	Small businesses have a far greater need to be open than the big box stores. Open now with health safety restrictions, please!	5/8/2020 6:21 PM
109	I think many of these decisions put citizens at even greater risk of catching the virus.	5/8/2020 5:13 PM
110	I think everything started out well as precautions but then got out of hand very quickly as our elected officials seemed to get drunk on their power. I think the closures of businesses is highly discriminatory and tracking out cell phones is absolutely tyrannical! We are citizens, not subjects!	5/8/2020 1:35 PM

111	Not sure what happened with the Navajo nation	5/7/2020 5:00 PM
112	I think she has a socialist agenda	5/7/2020 2:43 PM
113	News from around the world was very scary at the time, they went with it, we went along for the ride.	5/7/2020 2:32 PM
114	We absolutely cannot "re-open" the state of New Mexico while COVID19 is still surging here. It would result in hundreds of additional deaths. I support the Governor's actions on this.	5/7/2020 2:47 AM
115	The numbers speak for them self. MLG has no leadership skills what so ever. She would however make a great tyrant ruler!	5/6/2020 10:41 PM
116	Shuttering businesses without reason and/or logic is a bane to our economy and does nothing to stop the spread of the virus. Any business with a drive-up window should be allowed to open.	5/6/2020 7:21 PM
117	The response was overblown from the beginning. There was no reason to issue the orders in the first place, much less have them continuing on indefinitely. Cell Phone tracking is insane and violates our constitutional rights!!! We don't live in a socialist state, well at least we didn't until March.	5/6/2020 6:51 PM
118	Very slow to react. Wishy Washy about what to close and not close. Closing small business that can control customer numbers and social distancing. Letting large business's stay open and not follow distancing guide lines or customer safety.	5/6/2020 6:51 PM
119	She is acting like a dictator	5/6/2020 6:27 PM
120	Didn't identify the hot spots in the state or manage them. She just takes orders from the DNC. Of course, media on her side and nowhere will anyone ask her for the hard answers to the hard questions!	5/6/2020 5:28 PM
121	The response needed to be more tailored and should not have penalized small businesses.	5/6/2020 9:48 AM
122	Intelligent people think out of the box and there are many ways to keep many shops/stores open. We all know the guidelines by now and want to and are adhering to them... so let us get back to living.	5/6/2020 8:55 AM
123	They are doing what they can to control it. The second wave is going to be worse. Maybe just open in up. It's going to have to be shut again.	5/6/2020 8:52 AM
124	It wasn't early, and preparations so that businesses could reopen where not part of her plan. I believe that her tracking cell phones is unconstitutional, and since she never compared current travel to prior travel, there is no baseline to make any conclusions.	5/6/2020 6:35 AM
125	Govoner is an idiot	5/5/2020 10:39 PM
126	At the beginning of this it was all fine to have everyone stay home to curb getting the virus.	5/5/2020 9:51 PM
127	Gov Grisham dances to one tune...: the ultra liberal left, and she needs to represent the will of moderate New Mexicans. Not ultra liberal and not ultra conservative, but a common sense moderate ideology and alignment with founding fathers, and Constitutional principles... period.	5/5/2020 9:10 PM
128	Perhaps it could've been earlier, but it seems in line with most of the country. Early response is good, but the lock down is lasting far too long for no good reason. Testing, social distancing are OK. But cell phone tracking is an invasion of privacy that appears to be unconstitutional, in my opinion. Face masks & gloves are questionable as to how much good they actually do in preventing the spread of this virus.	5/5/2020 8:55 PM
129	I do not like my civil rights infringed on by cell phone tracking.	5/5/2020 8:47 PM
130	Last time I checked in history, we quarantine the sick not the healthy. This whole ordeal has flattered our state to almost worthless. No economy except for big box stores, local and small businesses are calling it quits daily.	5/5/2020 7:59 PM
131	Early on, the Governor's approach seemed reasoned and appropriate. Increasingly, she seems to think the best course is to treat all counties as though they are in the northwest part of the state and to constantly "scold" New Mexicans for not doing as she as said they should. No indication she understands or cares about the economy.	5/5/2020 6:28 PM
132	Closing everything down makes no sense we only have 162 total deaths and the CORVID19 is not going away by staying home and closing all of the small businesses. Based on our	5/5/2020 5:25 PM

population for the State that is 0.00008%. Is there something that I'm missing. If this is about saving lives then why is it a 17 year old can go and have an abortion in her third trimester? How about saving that life.... Average life span in USA is 76.8 so anyone living longer than that is BLESSED.... God gave us an immune system to fight viruses I trust in GOD and I trust in practicing safe practices Social Distancing, Staying home when I'm sick, washing my hands, etc.....

133	In the beginning, I think MLG did a pretty good job.	5/5/2020 4:44 PM
134	Overly restrictive and too many "blanket" applications that do not accomplish the stated goals. I can buy liquor at Albertson's, but not at Kelly's? I can buy a shirt at Walmart, but not at a clothing store? I can have five people get together in a 10 X 10 foot room, but I can't have 10 people assemble in 1,000 square foot conference room? Very little common sense.	5/5/2020 2:50 PM
135	Pretty sloppy, and longer we go the worse it gets.	5/5/2020 2:34 PM
136	Businesses should have been allowed to stay open with reduced capacity, social distancing and masks just like the big box stores. Forcing everyone to go to a small number of businesses for their needs only served to concentrate people.	5/5/2020 2:33 PM
137	Initial reaction seemed prudent (in March) but carrying it on past 1 May seems less than insightful. Daily testing/infection numbers plateaued about two weeks ago but they have not gone down - so it remains a consideration. That said, the state reports that it has capacity for 5000 tests daily, but rarely comes anywhere hear that why?	5/5/2020 2:05 PM
138	We are ahead of the curve in dealing with the virus thanks to the governor.	5/5/2020 1:10 PM
139	She seemed to have jumped in appropriately with shut down. Was good perhaps because it was an unknown.	5/5/2020 1:10 PM
140	While many of the elements the gov implemented were needed to slow the spread. There was no reason why small business were not allowed to operate under the same guidelines as the big guys.	5/5/2020 12:57 PM
141	TOTALLY opposed to cell phone tracking. But that can't be confused with efforts to acquire sufficient tests and medical equipment; the two aren't related.	5/5/2020 11:26 AM
142	I'm disappointed that we shut down at all.	5/5/2020 11:14 AM
143	Extremely poorly thought through and executed. Mostly nonsense from our state officials.	5/5/2020 11:08 AM
144	We are being conned on a level unprecedented in American history	5/5/2020 11:02 AM
145	Instead of leading - providing information as it became available, and encoring people to live well, they immediately gave in to their pathetic need to be important by forcing everyone to do what those in power say. How can it be legal for mom, dad, ad 4 kids to eat dinner together, then illegal to walk around the block?	5/5/2020 10:22 AM
146	I believe the early response was appropriate given the lack of information at the time	5/5/2020 10:18 AM
147	I think they've been proactive and communicating often. I don't always like the news but I'm glad they put it out there.	5/5/2020 10:07 AM
148	Some foreign countries remain open with safety guidelines and only seniors told to stay home and they are doing as well as us with fewer deaths per 100 thousand.	5/5/2020 10:04 AM
149	Testing is available, but not advertised through NM Public Health Dept. Equal restrictions on personal/business cases should be the same throughout, not highlighting only big box stores. Social distancing OK. Cell phone tracking NOT.	5/5/2020 9:24 AM
150	The early stay at home orders probably helped to mitigate things in the early going until we could get a handle on transmission rates, etc. But to keep NM from failing economically, it's time the governor decide that we are adults and now know how to wash our hands, wear masks as appropriate, and keep distances. I do believe herd immunity will never arrive if people are continually sequestered at home.	5/5/2020 9:21 AM
151	very controlling!!!	5/5/2020 9:11 AM
152	I believe that the cell phone tracking in not a true representation of movement. It does not take into consideration the rural nature of our state. there is no way to differentiate between necessary and unnecessary travel. My family in rural NM must travel just under an hour to get	5/5/2020 9:07 AM

to a grocery store. Testing availability was not enough, however I am more concerned about the lack of contact tracing done. Also, I keep hearing and seeing people waiting 7 or more days for their results. This is way to long of a window. coworkers are left in limbo and never contacted by DOH. I even called and self reported after being notified a coworker tested positive by a supervisor. The office was shut down, but DOH just said to self isolate and call back if I had any symptoms.

153	I believe that the initial response was somewhat appropriate, based on the data received. I 100% disagree with cell phone tracking and do believe that small businesses should have NEVER been closed.	5/5/2020 8:46 AM
154	Businesses should have never been closed. They should have been able to operate under the same rules as the the others.	5/5/2020 8:44 AM
155	When the virus first arrived in NM, the response was questionable, in my opinion. I couldn't see the benefit to closing all businesses except the big box stores. There was no reason to do that when all businesses could have restricted the number of people who were together at one time. I was horrified when I heard of cell phone tracking! I do think the availability of testing was a good thing, but now that they are also tracking, it worries me. Now that the new data are here, I believe individuals must choose how to take care of themselves. We need to be back in business. Vulnerable people can stay home and be protected by family/friends. Healthy people need to get on with life, using whatever care they feel necessary.	5/5/2020 8:37 AM
156	Social distancing is a joke. Let's get back to living.	5/5/2020 8:36 AM
157	The awareness of the virus has now been seen and heard by everyone unless you live under a rock. Let nature take its course and let us been responsible for ourselves. If saving lives were so important — then shut down Planned Parenthood - you really aren't being consistent.	5/5/2020 8:32 AM
158	Quick action by the Governor was excellent, but we were told "don't buy masks...leave them for front line employees". Now, those of us who stupidly listened to that advice can't get them and reopening mandates wearing masks. Furthermore, sewing stores were closed so we can't even make them. The idea that abortions are "essential" but a surgery I had scheduled (which was cancelled one day before the event), and sewing stores are non-essential are things I find ludicrous. So there should be less political bias in the covid19 response. If social distancing is allowed in Big Box stores, it should be allowed across the board. If smaller concerns find the restrictions economically unsupportable, then it should be their option to close or revert to curb service, not to be ordered to close by the government. In short, the government should not be picking winners and losers, especially when some of the decisions are clearly politically biased.	5/5/2020 8:28 AM
159	We should ALWAYS have been prepared for anything. Any emergency services should be up to date and able to get on an emergency as soon as it looks like it is going to happen	5/5/2020 8:20 AM
160	Excessive in metropolitan areas, grossly insufficient for the Navajo population	5/5/2020 8:16 AM
161	This is incredibly tough - for everyone - especially businesses. But the Gov. has put people's health and well-being above everything else, and we will be able to come out of this stronger because of it.	5/5/2020 8:14 AM
162	No one person should have this much authority over the governed. The process is way too political. NM's Governor's response to the issues of State has been one out of fear and not out of leadership. Their models were wrong.	5/5/2020 8:14 AM
163	We willfully submitted to this order as if it were law. We will now see further erosion of our Constitutional rights, for this illness which has a 99% recovery rate.	5/5/2020 8:11 AM
164	She uses a mallet when a scalpel was needed. Article yesterday by Bennett and Liebsohn that schools should not have been closed. An invitation for tyranny has been taken up by governor. She fined a woman in Grants \$60,000.	5/5/2020 8:11 AM
165	MLG is following the most extreme anti-freedom advice of all the 50 governors in this country	5/5/2020 8:09 AM
166	Way over reaction. Should have been targeted. South Dakota's approach the right one.	5/5/2020 8:06 AM
167	This had directly impacted small business owners. The large businesses have thrived.	5/5/2020 8:03 AM
168	The governor has been callous in determining who can be open for business and who can't. She has given the business to the big box stores and devastated small businesses. It makes no sense. Small business is the backbone of our country. New Mexicans are willing to cooperate	5/5/2020 8:00 AM

with social distancing, good hygiene practices, and smart decisions. The economic crisis will have repercussions long after the virus. As soon as we knew the basics about this virus, rules should have been amended to avoid this self inflicted economic crisis. Sunshine and being outdoors should have been promoted instead of staying indoors.

169	I think our states response in the first two weeks was good.	5/5/2020 7:57 AM
170	A one size did not fit all, poor leadership displayed when the tough decisions were abrogated to the easy shut everything down. Once it became clearer who was going to be the at risk population and the goal of not overrunning the hospitals, restrictions should then have been amended, not long after.	5/5/2020 7:52 AM
171	In the early stages, nobody knew exactly what they were dealing with, so erring on the side of caution was OK.	5/5/2020 7:50 AM
172	Should open by county and/or municipality. Some are ready to go now for commerce.	5/5/2020 7:48 AM
173	I feel MLG did a fair job at beginning of this pandemic. As disaster went on MLG let her power go to her head. I do not see any difference today on NM than I saw 15 days ago. State HAS NOT opened up for business. I feel MLG is currently doing a bad job getting NM back to work.	5/5/2020 7:44 AM
174	The violations of our freedom are flagrant and uncalled for.	5/5/2020 7:32 AM
175	In the beginning I could see we didn't know what we were dealing with. But, Sierra County had no cases until last week. Now it is time to open our state for business, with caution and common sense!	5/5/2020 7:30 AM
176	I think the cell phone tracking is a little extreme.	5/5/2020 7:25 AM
177	Making testing available is great. Everything closed down much too quickly though.	5/5/2020 7:24 AM
178	To much and our numbers continued to rise. Obviously social distancing is not working	5/5/2020 7:21 AM
179	Testing was a disaster. One size fits all responses reflected a thoughtless reaction rather than a considered response.	5/5/2020 7:02 AM
180	We closed the state early which helped. Testing was more available than in other states but testing for antibodies would help us to open. There are large portions of the state with low number of cases that flattened the curve 2 weeks ago. Those areas should be allowed to open before the more affected areas of the state. It doesn't make sense to hold the economy back throughout the areas that have slow growth of cases. This approach is too conservative. The Governor is very focused on safety but not focusing on the economy.	5/5/2020 7:02 AM
181	Scientists were fairly certain early on, this virus is most dangerous to the elderly and those who are immunocompromised. Restrictions should have addressed those populations. Knowing cells phones were tracked to determine if we were doing what we had been told to do infuriates me.	5/5/2020 6:57 AM
182	Garden Centers Solon's and Manicurists could open with Social Distancing ...If Dog Groomers are open	5/5/2020 6:51 AM
183	The Governor left us hanging for two whole months with absolutely no income or assistance. This shutdown will be the reason that she does not get reelected.	5/5/2020 6:43 AM
184	Testing sucks.....the rest is fairly spot on	5/5/2020 6:39 AM
185	They are promoting fear and dependence on Government for safety.	5/5/2020 6:29 AM
186	Open now	5/5/2020 6:29 AM
187	Clearly this was about politics and not keeping people safe. States that have not closed down have faired better.	5/5/2020 6:24 AM
188	When we compare NM to say New York City our handling of this situation is way over blown. This has been made very political.	5/5/2020 6:11 AM
189	All businesses should be essential	5/5/2020 5:18 AM
190	I think everything was done right. Early intervention was key to success. However, I do feel it was done too soon. Not because it didn't need to be done but because the people didn't see it needed to be done. Had we, sadly, waited until there were more cases then my fellow citizens	5/5/2020 4:34 AM

may have understood the gravity of the situation we are in. I think lockdown orders should have been trickled down based on cases per town not every one at once. I am a Republican, voted for Trump and not MLG. I will continue to vote for Trump and not MLG but I do commend her on handling this situation. I'm just sorry my fellow citizens are not capable of seeing through their MLG derangement syndrome so they can put their "rights" aside and think about their fellow citizens/loved ones who's lives are in jeopardy. From what I gather the protesting has more to do with defying a governor they didn't vote for than anything else. Quite sad.

191	Should have based restrictions on the particular area depending on the number of cases in that area	5/5/2020 2:46 AM
192	Response is unprecedented and has been without satisfactory medical foundation, completely illogical, imbalanced, unconstitutional, financially destructive, educationally destructive, medically destructive to those denied medical care for other/non- COVID chronic medical conditions, psychologically destructive to untold thousands who lost their jobs and businesses. Testing is ridiculous; test negative this morning, get exposed/infected this afternoon.	5/4/2020 10:07 PM
193	My opinion doesn't matter	5/4/2020 10:06 PM
194	The governor overreacted.	5/4/2020 9:33 PM

196	Social distancing is ok but rest is unconstitutional	5/4/2020 9:19 PM
197	Our Constitutional rights have been violated	5/4/2020 9:15 PM
198	Very little if any testing in rural areas.	5/4/2020 8:04 PM
199	This woman would even be a Nazi's worst nightmare!	5/4/2020 7:38 PM
200	I do not agree with the cell phone tracking nor do I feel that closing any business was necessary. I believe it was an over reach of the government.	5/4/2020 2:44 PM
201	The lack of fairness bothers me. Stores like WalMart and Costco can sell furniture and clothing, but furniture and clothing stores must remain closed. Stores like Lowes allow customers to wander freely in the gardening section, but local nurseries must only provide curbside service. It seems the Governor is picking winners and losers. That is wrong.	5/4/2020 2:40 PM
202	The cure is much worse than the disease.Small businesses are being driven out of business.	5/4/2020 2:07 PM
203	This appears to be a draconian move that the Governor using to prove she is in charge. Not at all approving of her measures.	5/4/2020 1:40 PM
204	Cell phone tracking is an invasion of privacy	5/4/2020 11:53 AM
205	It's very simple and common Sense tells you you need to wear a mask and wear gloves and everything should be okay but a lot of people just don't listen to common sense of wearing their masks and wearing gloves	5/4/2020 11:51 AM
206	Zero help from the state for small businesses. Haven't been able to get unemployment either.	5/4/2020 11:45 AM
207	I feel politicians have let their power go to their heads. Our GOVERNOR hasn't given any thought to the GREEN CARD HOLDERS that cross the border daily and work all over southern NEW MEXICO and yet with these people crossing, our virus numbers have remained lower than most areas in the state. We see more people without masks and distancing than we do with people following the guide lines and yet our numbers remain low. OUR HOSPITAL HAS FEW PATIENTS AND YET OUR PRIMARY CARE DOCTORS CAN NOT SEE US.....THIS IS IDIOTIC POLITICS...WE HAVE BUSINESSES THAT ARE NOW FOR SALE BECAUSE THE OWNERS ARE ALREADY BROKE AND OUR MALL HAS TO BE HURTING THE NEW BUSINESSES THAT ARE NOW THERE AND OUR POLITICIANS DON'T CARE....WE FEEL THESE POLITICIANS WANT TO SEE OUR STATE FAIL WHILE SUPPORTING THE DEMOCRAT SOCIALIST AGENDA. OUR GOVERNOR CARES MORE FOR THE ILLEGALS AND THEIR CARE THAN THE CITIZENS OF OUR STATE AND REMEMBER WE ARE A SANCTUARY STATE. "MOST" OF THE PEOPLE WE HAVE WITH THE VIRUS ARE ON THE RESERVATIONS AND WE ARE PAYING THE PRICE FOR HER NEGLECT IN ISOLATING THESE PEOPLE AND LETTING THE REST OF THE STATE GO TO WORK. I WILL NEVER VOTE FOR ANOTHER DEMOCRAT AND ONCE THE TAXES START HITTING THE CITIZENS BECAUSE OF THIS NONSENSE MANY OF US MAY HAVE TO LEAVE THE STATE WE LOVE.....ALL BECAUSE OF SOCIALIST POLITICS.	5/4/2020 10:56 AM

208	I appreciate the aggressive actions to stop the spread of the virus but it's gone on for too long and the economy is suffering.	5/4/2020 10:29 AM
209	Southern nm should not had been shut down	5/4/2020 9:40 AM
210	NM was quick to respond and address the virus. That much was good. What is bad is that they had no idea what they were doing if their goal was to create social distance. Closing rest stops, state parks, small business proved to be harmful to the economy and did nothing for protection of the people. People went shopping for the purpose of an outing because the recreational spaces were closed. NM politicians created caos in a crisis.	5/4/2020 9:35 AM
211	I think it was an adequate response considering we didn't know what this virus was capable of doing. I believe maybe an over reaction.	5/4/2020 9:02 AM
212	The Democrat/News network jumped on this bad news like a chicken on a June bug. Did not have the facts, and the politations are the cause of all these problems that we are having with China. They are the ones that let all of our manufacturing to go to China. We fought Communism all over the world, and the Politations just followed the money and let them come into our back door.	5/4/2020 9:00 AM
213	Given the circumstances at the time, it seemed like the right thing to do.	5/4/2020 8:45 AM
214	I don't think the lockdown should have happened. Our liberties were infringed on and we didn't get a chance to have herd immunity. That will make people still able to get virus later and peoples lives are being destroyed.	5/4/2020 6:12 AM
215	Early guidelines were more restrictive than fed guidance.	5/4/2020 5:28 AM
216	Testing availability was fine, but they claimed "science" was behind their decisions when very little was known about the virus. The response was out of proportion to the danger. They infringed primarily on the first amendment and eventually on the second by closing stores that sold firearms.	5/3/2020 10:22 PM
217	Bad data, poor execution, people in government with nefarious and ulterior motives have ultimately and collectively ruined this country, small businesses and the economy.	5/3/2020 9:22 PM
218	I agree precautions should have announced. I totally disagree with shutting down the states economy over a new strain of the flue. H1N1 didn't get this kind of results.	5/3/2020 8:34 PM
219	Too much Big Brother tactics	5/3/2020 8:25 PM
220	I saw a reason to do what our Governor did but I did not like it	5/3/2020 7:58 PM
221	Need more testing for Covid-19 antibody through a blood test for every New Mexican over the age of 60. This way we will know who has had the virus!	5/3/2020 7:40 PM
222	Over reaction on a grand scale! More people have died from the flue than Coronavirus but she acted like we were hit with nuclear weapons.	5/3/2020 5:50 PM
223	I am not okay with the cell phone tracking and I think the governor is a bit too heavy handed	5/3/2020 5:30 PM
224	virus not as bad as it was made sound , over reaction to it.	5/3/2020 4:25 PM
225	Yikes! This has been a mess from the beginning. Closing outdoor activities like golf courses and tennis courts! Really! I don't participate but it is under the rule of 5 or fewer, and it is outdoors so I believe it to be a healthy activity. This stay at home order for healthy people is not the way science and medicine would view it.	5/3/2020 4:11 PM
226	They have cut in on everyone's personal rights, far overreaching their authority. Also, With the current unemployment system its near impossible to get your unemployment done and receive a check or deposit. But they seem to be more interested in how many people and businesses they can harass. I am not satisfied.	5/3/2020 3:49 PM
227	Every living thing on this planet is exposed to harmful and deadly things. Both state and federal officials have restricted the people of the right to make a living. Too add to that they have passed legislation that approves billions of dollars in aide, \$1000.00 dollars in unemployment a week! Really? I bet 40 percent of Americans got a raise with unemployment. We have added tremendous amount of debt for the next generation which is sinful!	5/3/2020 3:48 PM

NMBC Covid-19 Statewide Survey

229	The bonafide idiots that run the NM administration have yet to realize that the shutting down of the state economy will kill MANY more people than this phony flu virus, called COVID19. These disgusting and morally horrid individuals (all Democrats) are interested in nothing more than keeping the economy tanking, so that Trump will not be re-elected in November. They couldn't care less about the condition of the New Mexico people.	5/3/2020 2:47 PM
230	Businesses were needlessly closed. I do not agree with cell phone tracking.	5/3/2020 2:41 PM
231	Luhan has gone TOO FAR!!!	5/3/2020 2:34 PM
232	Why quarantine healthy people?	5/3/2020 2:15 PM
233	It was not thought out well. Small businesses and restaurants were punished as Lowes, Costco, Grocery stores, etc. were allowed to operate with no restrictions. Instead of imposing safe distancing, masks and occupancy restrictions on ALL businesses, you have penalized citizens of their right to support their families.	5/3/2020 2:09 PM
234	Granted that the test access and availability just wasn't there I still feel that we should have been active in setting up sites that were ready when test were availabil.	5/3/2020 2:05 PM
235	Testing in Roswell is only available if you exhibit signs of having the virus. I think cell phone tracking is an invasion of privacy. Think it is ludicrous that large box stores can be open selling the same items small independent business sell, yet small businesses are forced to close. Small independent business owners are much more likely to consider and protect their customers. The governor's decisions since she began her term would seem to run counter to everything that is in the best interest of New Mexicans.	5/3/2020 1:47 PM
236	Think it was a bit overreacted, and Some government hoarding involved. Think reservations should have been shut down earlier.	5/3/2020 1:46 PM

240	I do not want our government tracking me	5/3/2020 12:36 PM
241	I'm not satisfied at all. The lack of leadership was shocking and disappointing. Quick to shut down some businesses while leaving others open. Wal-Mart and some others were open while other store that sold the same items were closed. Auto-carwash closed! Why? No one was needed to run it! Sorry to say it was stupid!	5/3/2020 12:31 PM
242	Surveillance, tracking ,stay at home orders and business closures are unconstitutional.	5/3/2020 12:23 PM
243	We never have heard anything from anyone except from George Munoz here at the end when Gallup was put on lockdown, other than that we never hear from anyone else. Furthermore there should be "NO TRACKING" of cell phones anywhere in the USA or even around the World!! That's no different than China having all the cameras and tracking all the population in their Country.	5/3/2020 12:03 PM
244	There are several stores that are closed but I see no reason for a clothing store where there's very few people in the store at any time and even a tattoo parlor where there's very few in one time the barbershop so I feel that some of this isolation is sort of selective a lot of because it's could be made like even restaurants with half of the tables girls more than a 6 foot distance I saw it a pizza parlor where are they only allowed so many in the store at one time	5/3/2020 12:01 PM
245	Cell phone tracking should require Opt in (not opt out). The purpose for shut down was to ensure hospitals were not overtaxed. today 10% or less of available Covid19 bed are utilized. Data collection is poor, no perspective on the situation. Tracking doesn't include cumulative ICU patients or how many deaths actually occur in hospital. The data collection is the only way to make smart decisions. This is greatest failure of Governors team. You don't cherry pick the data you collect all stats possible and build models based on the data real time. They could have hired IBM and gotten a better result in record time.	5/3/2020 11:48 AM
246	Our governor acted quickly and decisively and with her actions, New Mexico is one of the least impacted states in the country!	5/3/2020 11:47 AM
247	The fear mongering is unacceptable. State "officials" said straight out on a townhall conference call that there is no cure for Covid19 and it's highly fatal. Not true. More people have died in the	5/3/2020 11:46 AM

state of New Mexico from vehicle incidents than from the Covid19 virus to date. Not liking the 60-day free trial of socialism and communism.

248	The whole pandemic has been politicized to try to ruin the Trump economy and for the left to have the opportunity to try out their big govt plans for the future. Many pandemics have been as bad or worse with no shutdown needed. It has to end now.	5/3/2020 11:37 AM
249	It should have started with mandating social distancing with small businesses and allowing them to get ready for this long shut down. In other words only by appointment, spacing in salons, restaurants, instead of immediate shut down. Some of These businesses will never reopen and our NM governor doesn't give a damn. I still do not see the difference from a tire store and a salon. One customer at a time. But hey why waste a crisis that benefit politicians to control a state for political benefit!	5/3/2020 11:31 AM

255	Way too restrictive. Cell phone tracking? Seriously? Way too authoritative and way too unconstitutional!	5/3/2020 11:23 AM
256	In the beginning the response was good. As time has gone on I'm very dissatisfied with how the Governor is handling things.	5/3/2020 11:08 AM
257	No leadership, no assessment of real threat or by specific areas. Didn't call legislators in to special session to provide oversight. Only fear and panicking communicated.	5/3/2020 11:04 AM
258	Walking out in acres of empty space (which golf courses are) seems like a no-brainer allowed activity - did she think only rich right wingers play golf? This decision seems based more on political perception, not reality or common sense.	5/3/2020 11:01 AM
259	In an effort toward full disclosure, my one stint (2015-16) as a session editor at the Roundhouse showed me the fascistic tendencies of Gov. Grisham. // That the box stores but not the mom-and-pops were allowed to remain open is disconcerting, and the damage done to our fantastic family-owned rural hospital, Holy Cross, might never be reversed. It will usher in an impersonal corporation, with the lowest of standards in every regard, that will strip the hospital of everything good and right about it.	5/3/2020 10:58 AM
260	Areas in the state not greatly affected should have different guidelines small businesses could've remained open with the same guidelines that were In placed for box stores. I dont think there was a accurate counting of actual virus death.	5/3/2020 10:57 AM
261	The Governor has exhibited the one-size-fits-all mentality that is typical of politicians and bureaucrats. There is no common sense to this approach, it violates the constitutional rights and freedoms of New Mexicans, and unnecessarily destroys livelihoods (and lives). Unbiased communication of science-based risk to the public is essential. Recommended behavioral guidelines are OK. Fear-mongering is not. The Governor's mandates and threats of punishment are tyrannical. And it should be noted that decisions regarding what is "essential" and what is "non-essential" have been made by people whose incomes and livelihoods are unaffected by these decisions, without regard for the economic devastation being wreaked on others. The Governor has shown a complete lack of respect for the general public being able to make risk-informed decisions about their own health and welfare.	5/3/2020 10:52 AM

264	We are a rural state with relatively few cases and deaths. Summer heat is coming and federal health officials have said that temperature, humidity and antiseptics kill the virus within minutes. Absolutely no need to close down all that they did and then extend the shutdown til the middle of May. Absolute power grab.	5/3/2020 10:36 AM
265	Haven't had access to any of the publicized cell phone tracking yet. I am a mail carrier - it would be good to know of any hot spots near me, on my route and in the post office.	5/3/2020 10:28 AM
266	Civil rights can not be suspended during a crisis of any type. Our response to the virus is worse for the population than the virus itself. Our officials have reacted ridiculously and shamefully.	5/3/2020 10:27 AM
267	Marshall Law w/o declaring it.	5/3/2020 10:24 AM
268	This has all been an overreaction. Granted, we didn't know anything at the beginning of all of this, but now that we do, it's high time to open the state.	5/3/2020 10:20 AM
269	I think the whole country shutting down was too far of a measure. I wish we had been able to see what would've happened without all the restrictions. I don't think it would've been worse. Right now I think we should be getting back to business as normal	5/3/2020 10:17 AM
270	Overreach	5/3/2020 10:14 AM
271	Too eager to let us know "her authority". Too stringent. Now we were told that we ILL get absentee ballots. I want to go to the polls. We can socially distance for groceries but not to vote or to go to small and local businesses? Wrong	5/3/2020 10:12 AM
272	I've heard hardly anything about testing here in Farmington NM. I see updates on my yahoo weather. Am confused with some of the closings- ie. State parks and camping when distancing is such an easy thing to do. A major concern is how many people I'm seeing w/o masks wandering around stores in groups of 2,3 or even more! Stores should require masks and remind patrons to distance - customers shouldn't be the ones to have to ask others to stay back! Makes us uncomfortable!	5/3/2020 10:01 AM
273	I have not received my test yet. Can't find a place	5/3/2020 9:57 AM

282	Open it all up. Quit cherry picking	5/1/2020 4:51 PM
283	The testing availability lag was due to the federal response to get tests out there. It's not clear that the test kits can be processed at this point. The shelter-in place was/is a good idea. The rate of infection in NM is very low, compared to other states where the orders were not given, or given late. A large percentage of work can be done remotely. Companies just need to be willing to do so. The one group that has been hit he hardest is the Navajo nation. I'm not sure why, other than cultural practices. But they need support. I am very happy the Governor's policy that both testing and medical care is free to those who need it. It removes a financial burden that would have prevented sick people from obtaining medical care.	5/1/2020 1:51 PM

284	While I understand the initial concern, I do not think it was handled appropriately. I happen to support the way Governor Nomi and Sweden have responded to Corona. Providing accurate information to the public while allowing them to make individual decisions for their own personal safety seems more logically to me.	5/1/2020 11:27 AM
285	1.. When the first case got off the plane at ABQ, the GOV should have published a VAPOR TRAIL. With that, we would know where they went and self quarantined. 2. Liquor stores, kennels, landscape business should never have been closed.. 3. We knew from the beginning who the at risk were - folks with underlying conditions. Her focus should have been them. And folks 65 plus. Senior care facilities should have been placed on lock-down.and patients treated as if they had the plaque. No visitors. If this were done, we would not have out breaks at these facilities. 4. And as soon as we saw the impact on the Native community, resources should have been focused there.	5/1/2020 11:22 AM
286	Glad that action was taken quickly, but believe a plan to restore business was slow to come.	5/1/2020 8:17 AM
287	Response was good but now time to open business before more go into bankruptcy.	5/1/2020 12:00 AM
288	I think that the restrictions are catastrophic	4/30/2020 8:40 PM
289	Testing was virtually unavailable until this week. Social distancing is fine, but now small businesses are going under and people are starving. We need to REOPEN SOON and trust individuals to take care of their own health.	4/30/2020 3:59 PM
290	I understood to a degree for a period of time, but now all this has gone too far. Our hospitalization rate and death rate is below any of the most conservative forecasts. We are doing major damage to our economy, and i feel for every day we are stopped from restarting small business, we will see many more failures, and even longer term damage to our State.	4/30/2020 3:40 PM
291	I understand what actions are necessary to limit the spread of this virus. Limitations on what businesses can remain open while closing others is asinine. Closing state parks where people can't get out into nature is as well.	4/30/2020 3:13 PM
292	Should not be tracking or doing anything but offering guidelines	4/30/2020 2:43 PM
293	I was supportive of early intervention but not once select businesses were closed	4/30/2020 2:33 PM
294	The elected officials have once again shown how ignorant they are in regards to health, real prevention, the human immune system, and how normal "peasants" could deal with preventing the spread of the C-19 virus. Big box stores that contribute gazillions of dollars are open but small businesses doing good for their individual communities are forced to close. What part of communist control don't folks understand. I thought Richardson was the worst governor but MLG the wicked witch of the west has him beat hands down.	4/30/2020 2:20 PM
295	I think that the restrictions could be modified for the counties that have no one with the coronavirus and the one with very few cases. Businesses could be open and guidelines provided to be followed, wearing masks, 6 feet apart, reduce number of people in stores, etc. Study the results after 2or 3 weeks then see what happens. Also surgeries etc.	4/30/2020 2:18 PM
296	The decisions were not based on any scientific evidence. If Walmart, Lowe's, grocery stores, and hospitals are operating, everyone can operate!	4/30/2020 12:55 PM
297	This has all been so politicized in this state.....and in many other states as well. Tests are just now available? Our hospitals are NOT busting at the seams with patients....instead they're furloughing tons of employees for months with NO pay.....because the hospitals have such low patient loads. The numbers of COVID positive people are high in the counties that have a lot of tribal lands....and why? Many of these people live with numerous family members in small dwellings.....so they CAN'T social distance, so passing any sort of a virus among the household is inevitable. Let's get the testing, medical staff(maybe some of the furloughed staff), & generally medical care out to these areas. Hospitals, urgent care, getting medications can be hours away from these locations...& not easy to get to as in more urban areas.	4/30/2020 12:37 PM
298	The shutdown orders were probably needed from a medical standpoint but have now gone on too long from an economic standpoint. Some businesses will have difficulty re-opening or may not re-open at all, and some jobs could be lost as a consequence. Less people working and less businesses open means less contribution to our Social Security and Pension funds which means that many retired persons could also eventually be affected. Obviously, state and local governments will also suffer financially. This could lead to economic chaos. At this point, it's	4/30/2020 12:15 PM

long past time that the governor show some real concern with this aspect of things rather than just lip service. To date, she seems only concerned with the medical aspect and perhaps with her ability to control things and persons. If this goes on too long the consequences will be dire.

299	Herd immunity was not addressed.	4/30/2020 11:59 AM
300	Over reaction like most places, due to the false models used in predicting the pandemic. I do think some measures did help, maybe.	4/30/2020 11:53 AM
301	I am at risk, because I have diabetes. I think the action was necessary.	4/30/2020 10:53 AM
302	A complete dictator power grab. This virus is overblown and no worse than anything we have had before. If people are afraid with all the media hype causing panic and pandemonium, they should shelter themselves NOT by orders.	4/30/2020 7:58 AM
303	It was a knee-jerk reaction and not thought out. there was no reason to "quarantine" those with little risk of severe infection just to ruin the economy. Totally against the cell phone tracking. Many that are susceptible don't have or use cell phones. Have seen no studies on the effectiveness of wearing masks or social distancing. The old fashioned common sense rules of illness would have been sufficient.	4/30/2020 6:58 AM
304	There really seems to be no plan from Michelle. The President left it up to her leadership and so far I'm not impressed and the Mayor's, except for the Mayor of Grants all suck. What are they doing? I haven't heard from mine yet.	4/30/2020 6:52 AM
305	Open it up!!	4/29/2020 9:58 PM
306	Quick response. We shouldn't be tracked by cell phone. Restrictions have gone be way to far!	4/29/2020 9:35 PM
307	Taking golf away was completely unnecessary, it's way safer than going to Walmart.	4/29/2020 7:47 PM
308	eddy county is following CDC guidelines as evidence by low number of positive tests. Small businesses have fewer patrons daily than big stores and are capable of social distancing. Test are available for people who need to be tested. Cell phone tracking is invasion of privacy!	4/29/2020 7:22 PM
309	More testing is needed	4/29/2020 4:05 PM
310	The restrictions should have not been "blanket" for the entire state. With some actual thought, they could have been per county, city, town, etc., but for the whole state is just is too easy.	4/29/2020 3:54 PM
311	The governor did the right thing to slow the growth rate and mitigate overwhelming the health system. We are battling a new and enemy and it is aggressive. It is better to error on the safe side than to think you are smarter than the virus. So far we are doing well but these are initial steps	4/29/2020 3:42 PM
312	To restrictive snd we are all hostage to the Naviajo failures.	4/29/2020 3:35 PM
313	I think our initial response was appropriate and timely. I don't think people would have been receptive to the Stay-At-Home order earlier. I think it has saved infections and lives. That being said, I would have appreciated a more relaxed order for most localized businesses that have been severely impacted by the order. I feel many businesses declared Non-Essential could have and could be operating in a responsible manner, like many of the national retailers for example. Arguably, there are also some businesses declared as Essential that are not any more essential than others. The economic impact to our community is too substantial to not consider relaxing some restrictions on businesses currently ordered to close.	4/29/2020 3:32 PM
314	Much of the information, context of information, presentation of information and preparation for presentation has been poor. Additionally, the first and only forum by health care providers, PHS, Lovelace, UNMH and State of NM was 4 weeks ago. Has nothing changed? Greatest concerns have been voiced over and over and the sad attempt to speak to "those dying" rings hollow compared to the statistical reality. In 6 weeks many things have changed, except the plan to effectively deal with this matter. Restriction, has been blatantly portrayed as the "only way" to flatten the curve. If so, why were the Native Americans not quicker to shutter their casinos? Preventing outside contamination? As for tracking etc.; this is 1984 at its finest.	4/29/2020 3:30 PM
315	Over reached..	4/29/2020 3:15 PM
316	Closing small businesses is a big mistake. They are the backbone of New Mexico. It is not fair the Big Box stores get to continue operating and then take the money out of state. Small stores can take all the necessary precautions needed. It is interesting the mayor of Grants is a	4/29/2020 3:09 PM

NMBC Covid-19 Statewide Survey

Democrat and he is not agreeing with the Governor AT ALL!! Our constitutional rights are being violated and power-hungry political heads have taken control.

317	Ridiculous imprisonment of New Mexico citizens in their own homes. Destroying small businesses. Wrong on every level. Some will never recover, but comrade gruesome doesn't care	4/29/2020 3:05 PM
318	Initially it may have been a good idea, but at this time I think it is causing more harm than help. I think it is time to begin opening up businesses, with precautions such as social distancing and wearing masks.	4/29/2020 2:47 PM
319	If one can go to Wal-Mart, Albertsons, Smiths, Home Depot, many other business' should be open and there is no reason for parks and golf courses to be closed. All New Mexicans are aware of what is going on and how to stay safe.	4/29/2020 2:41 PM
320	Testing availability OK. Approximately 3% of the state population has been tested and increasing daily. The "Stay at Home" mandate was the right thing to do. However, the definition of essential businesses should be modified. Big box stores allowed to sell merchandise that many small businesses also sell is not right. Cell phone tracking is a difficult issue. Tracking contacts with an individual that tested positive is important in determining who else may be affected. Cell phone tracking is one way to determine contacts without having personnel tracking at a manpower cost and increased exposure to the virus.	4/29/2020 2:36 PM
321	Initially it made sense to implement the restrictions.	4/29/2020 2:29 PM
322	I think the Governor took the appropriate steps to prevent the 'spread" in the initial stages. However, cell phone tracking is over the top and is an invasion of privacy. And some small businesses should have remained open if they were able to install safety measures.	4/29/2020 2:23 PM
323	Cell phone tracking is bull. It's easy for folks in Albuquerque or the bigger cities to not travel far to get their needs met. However where I live I've have to travel at least twelve miles to shop. And hope that there will be enough of what we need. With limitations on so many things, we have to make extra trips to keep food in the fridge.	4/29/2020 2:05 PM
324	Good reactions at this time, we seem to have all of the tools to meet the demands. In the beginning there was some confusion creating a slower than needed startup. The testing will be ongoing	4/29/2020 1:57 PM
325	My civil rights matter more to me than anything else. We could have averted this entire disaster had we addressed the problem areas of the state. I live in a zip code with no cases. Yet I'm being punished as if I lived in McKinley County.	4/29/2020 1:37 PM
326	They did a decent job of getting everything shut down, but have kept it way too long because of an increase ONLY in Navajo country!	4/29/2020 12:57 PM
327	We have forgotten the primary reason for social distancing which was to prevent overwhelming the hospitals. Successful. Now it is about control and zero risk of virus. That will never happen. We need to build our Hurd immunity. We the people can be trusted with being good citizens with reasonable restrictions. The lock down is not reasonable and will cause a second spike because of lack of exposure	4/29/2020 12:41 PM
328	There was no planning, no citizen or business input. Just nazi control. Does the governor even have that authority? Was there a city council meeting? Was there a county commission meeting. It was knee jerk reaction...never let a crisis go to waste to force socialism on the citizens, violating civil liberties.	4/29/2020 12:37 PM
329	I believe my civil liberties have been violated with respect to accessing what was deemed non-essential businesses. Many of these businesses could have been accessed with appropriate social distancing and PPE requirements.	4/29/2020 12:36 PM
330	I am a vehicle dealer and my business has been shut down by the governor for 5 weeks. Completely closed. Cannot do business.	4/29/2020 12:22 PM
331	Small businesses should be able to function under the same guidelines as the box stores. Golf tennis and Parks should be open for business under certain guidelines	4/29/2020 12:13 PM
332	To stringent stay at home for small populated state.	4/29/2020 12:11 PM
333	I don't believe stay at home orders are making a difference. It is causing a lot of unintended consequences that are more harmful and have a long lasting effect.	4/29/2020 11:31 AM

334	As a cancer survivor I am due for a follow up screening which has been cancelled. Why? My health is not important for this to MLG. This is totally not right for those who have battled other health issues only to be tossed aside. I guarantee you, that if this was MLG or the other "elites" there would be no postponement for them!!!	4/29/2020 11:25 AM
335	The restrictions that were set in place are detrimental for business and community.	4/29/2020 11:19 AM
336	Walmart, Smith's and other big stores are open; BUT, constitutionally protected churches and gyms that happen to have the MOST PHYSICALLY FIT people in our population, are closed? If I want to get pot, then I'm OK. A cancer screening? Not so much. PLEASE, let's get some sanity back in our state. Cut the BS politics!!!	4/29/2020 11:10 AM
337	Early shut down was good. But designations should be "safe" and "unsafe", not "essential" and "non-essential". Parks should be open.	4/29/2020 10:41 AM
338	Unlike other states (FL); this governor did not apparently understand how to manage the state like a good governor would. All early information indicated that old folks would be vulnerable. So instead of worrying about needless items she should have completely established health teams to actually go in and disinfect and provide a comprehensive policy/practices for all of the homes. That alone would have stunted the spread. As far as the tribes, who knows about them? They should have been actively been working with the feds to cobble some solutions BEFORE it invaded and got out of control. By far, the native health issue is about the whole story in NM, so this state needs to be opened. For CERTAIN, many counties with no infections or very few should be opened completely! She is a disgrace!	4/29/2020 10:39 AM
339	How many of our constitutional rights are being trampled on by this governor? Yes, the early call on social distancing and stay-at-home orders worked to an extent, but most people are fairly intelligent. If you tell someone that they can't come into your business until someone leaves, they stand in line. I've stood in lines at Sam's, Walmart and Smiths. A small business owner can certainly enforce the restrictions just like a large business. I am personally being affected by all these closures because a surgery that I was to have to determine if there is cancer was cancelled "until the governor opens things up." And for a different medical problem, the GI person I was seeing was suddenly transferred to hospital duty and my case fell through the cracks until I was able to get a Patient Care Advocate involved. And I heard from our renter that she had a surgery postponed that was to deal with miscarriage problems. All the while, the hospitals are at least half empty.	4/29/2020 10:37 AM
340	I feel based on our numbers here in New Mexico as a whole some areas should be open and others areas restricted. Our number don't justify one size fits all here.	4/29/2020 10:21 AM
341	I felt the cell phone tracking provided an inaccurate result, especially in SE New Mexico, where a considerable amount of people were/still are considered essential personnel. Some of those people, traveling to and from their work sites, probably have two cell phones. One personal and one work. This information was not factored into the final equation.	4/29/2020 10:12 AM
342	Overkill.	4/29/2020 10:06 AM
343	Not real excited about cell phone tracking. I feel like it violates personal freedom and could be used in different invasive ways in the future.	4/29/2020 10:01 AM
344	I worry about reckless behavior from some individuals and groups. Selfishness can be a major threat to others who may become infected as a result of their behavior.	4/29/2020 9:14 AM
345	This has become a Police State, not America	4/29/2020 8:53 AM
346	She is saving lives. Demonstrating care for people over money.	4/29/2020 8:53 AM
347	This is killing our small businesses. Loans and required PPE are unbudgeted expenses for businesses. Loans don't generate GRTs to keep government funded, commerce does. An unanticipated flip side will be that businesses are now learning just how small a staff they can operate with, and that may later translate into fewer jobs.	4/29/2020 8:48 AM
348	The response didn't & still doesn't follow NIMS & the governor jumped the gun with her overreach.	4/29/2020 8:40 AM
349	Early on there were so many unknowns it was difficult to determine a perfect course of action. The one taken seemed appropriate.	4/29/2020 8:40 AM

needs be called "physical distance" When u call personal - people take it PERSONALLY. This is about CROWD Immunity not so much personal immunity. All 4casts for # sick people - way over blown. Tracking. W~H~A~T Tracking???? what a joke. NMHealth won't tell ANYONE the physical locations for hot spots so people can stay away. Not enough PPE for docs; techs; 1st responders; nurses. People in NM have little confidence in Gov & her staff. Afterall, look at NM budget that was based on a dream in Jan of 2020 oil prices. Look what happened last week - Oil went to -\$30 Barrel. NM Budget is TOAST.

351	Given our low death rate, it is ridiculous to continue the shut down!	4/29/2020 8:31 AM
352	I certainly hope the government isn't using cell phone tracking! Initial responses OK, but as data came in that this flu is no more dangerous than Swine, SAR, etc., the Crises "movement" took on a life of its own. Media didn't help with 24/7 stats on cases and deaths. There was/is no balance with previous decades of similar stats to put "crises" in perspective. Getting tired of being pandered to, and talked down to as if we are children.	4/29/2020 8:26 AM
353	The whole flu was a scam. They ore calling all kinds of deaths from the flu when they are from other diseases.	4/29/2020 8:18 AM
354	The Governor and her administration - Dr. Scrase, Secretary Kunkel and the Superintendent of Insurance have done an superlative job. Our infection and death rates are comparatively low BECAUSE we have taken strong measures. To fail to acknowledge that we are in a good position, all things considered, is shortsighted. While reopening is important, I am heartened by the establishment of a diverse committee of business leaders to provide input.	4/29/2020 8:10 AM
355	A clear attempt to control people. Not an American virtue.	4/29/2020 8:07 AM
356	Too much overreach on business. Small business discrimination .	4/29/2020 7:47 AM
357	NM has fared much better than a lot of other states and countries and it's because of the governor's swift, although hard actions. Just today Dr. Fauci announced on CNN that if these measures don't continue we will be in for a very rough fall and winter when the second wave hits. I know this is tough on everyone - my business included - but we have to do it.	4/29/2020 7:46 AM
358	My one neighbor had her flower business closed while the big box stores were delivering flowers. A young nursing student next door was furloughed. My other neighbor is not able to play tennis on city courts. Our son is not able to play (recreational) soccer nor go the the gym. With social distancing and other precautionary measures esp. in SE NM we should bee able to open all of the above services. Cell phone tracking is plain wrong!	4/29/2020 7:44 AM
359	This has been a major knee-jerk reaction to a way overblown crisis.	4/29/2020 7:36 AM
360	South Dakota Gov. Kristi Noem is the model. The cure is worse than the disease.	4/29/2020 7:31 AM
361	Our officials messed it all up.	4/29/2020 7:23 AM
362	Way, way over done	4/29/2020 6:59 AM
363	Allowing big box stores to stay open and funneling masses of people to only those stores was irresponsible of Governor Grisham. Small businesses could have done a better and more effective job of managing the number of people in their stores! Bad decision Governor Grisham!	4/29/2020 6:50 AM
364	Phone tracking was a bit too much! Our freedoms don't end where your fear begins. Open NM	4/29/2020 6:47 AM
365	We should be fully open for business, letting each business practice safe protocols designed for each unique business by the businesses themselves. The numbers are proving that this was not nearly as bad as was thought when we first started shutting down this economy. Now that we have the correct data, we need to get fully ope ASAP!	4/29/2020 6:46 AM
366	Your question is too vague and puts too many issues together that need to be addressed individually. That is what the media does and I am very disappointed to see it from you.	4/29/2020 6:46 AM
367	NM did a good job during early part of this pandemic. I did NOT know my cell phone was "tracked". I do NOT like idea government is looking over my shoulder.	4/29/2020 6:41 AM
368	I like the social distancing and masks. Disagree completely on essential and non essential businesses. No sense of fairness	4/29/2020 6:36 AM
369	I think the governor should have shut down all travel in and out of the state except commerce. If she confined everyone to the state there would have been less Cases with out having to shut	4/29/2020 6:17 AM

373	Herd immunity seems to have worked well in Sweden and other states	4/29/2020 6:09 AM
374	Local businesses suffered and are suffering, it is time re open them. There are drunk people all over Farmington, spreading illness, and not a thing is done. Is it because it does not fit the politically correct mantra to take on the Navajo street people? The reservation should be quarantined. The greatest growth in Covid 19 cases are in counties that border the reservation. It is time the state target the reservations with information on the spread. Cover your mouth, and don't spit! Spiting is a cultural issue, and needs to be addressed. It spreads disease, and many people do not know this, or do not care. There are many Native People who are hard working good people. They are unfairly scrutinized because local government, and tribal government won't deal with street people. Move them out of the city.	4/29/2020 5:26 AM
375	The legislature should have been involved with the decision making process and plans to managing the shut down of the states economy. The Governor should have facilitated their involvement from the start and failure to do so has left New Mexicans drifting with no plan to reopen the state, many with no income and no idea when they might have one again; no way to continue the education of their children; no health care services if they don't have Coronavirus, and no way out. Workforce Solutions can't pay unemployment claims, when the states around us are managing to do so. The Department of Health doesn't know how to manage or apparently interpret the public health data and models for the purposes of policy making. This represents a failure of government to manage a crisis without a safety net or checks and balances. NM is in freefall.	4/29/2020 12:57 AM

382	Its all political propaganda	4/28/2020 11:00 PM
383	I appreciated the state's rapid handle on social distancing to slow the spread and flatten the curve. I didn't appreciate cell phone tracking without my knowledge or consent. I also feel like tests were in extremely short supply and here in Southern NM, they were taking up to 7-10 days to result.	4/28/2020 10:58 PM
384	It had been ok and I was ok with everything, but now I am not. We, in the southern part of the state must reopen and with at least 50% occupancy. We must. We can so easily social distance (greater than 6 foot separation) with a 50% format. Then back to 100%. There will be civil disobedience if we have to keep restaurants closed or doing carry out (effectively closed, losing money) much longer.	4/28/2020 10:53 PM
385	Still don't see testing/contact tracing in place.	4/28/2020 10:50 PM

392	I think the initial response was appropriate. However the extended restrictions have not been explained very well.	4/28/2020 9:54 PM
393	The governor has no authority to quarantine healthy people in their homes or close businesses without their consent.	4/28/2020 9:52 PM
394	Too many restrictions on small businesses while big box stores continue to be open. Small business can provide the same services and meet the governors criteria.	4/28/2020 9:48 PM
395	Very satisfied with shutdown, but testing was very limited to more populated areas. Rural areas had no testing areas so counts may have been off.	4/28/2020 9:47 PM
396	The measures taken violated the citizens constitutional rights.	4/28/2020 9:40 PM
397	Yes they responded but not fast enough	4/28/2020 9:40 PM
398	I don't agree with the pick and choose which businesses are essential. It allows the big box stores to sell products that can be sold by local businesses and they can actually control social distancing better than the big stores.	4/28/2020 9:39 PM
399	It appears big box and large stores get preferences....mom and pop neglected and abused	4/28/2020 9:36 PM
400	Cell phone tracking is a violation of our rights	4/28/2020 9:35 PM
401	I would call it an extreme overreaction. And think cell phone tracking is a horrific privacy violation.	4/28/2020 9:33 PM
402	Too one size fits all. Not enough testing	4/28/2020 9:30 PM
403	I'm very satisfied with the guidance for using PPES and social distancing. BUT VERY CONCERNED about our government tracking our every move by cell phones. This isn't a communist country and the government has no right to do this unless they've gotten a Warrent on every cell phone user. If the law enforcement agencies have to get a warrent, then so should the government.	4/28/2020 9:30 PM
404	House arrest comes to mind! Dictator in chief MLG.	4/28/2020 9:27 PM

407	Gun and ammo stores were even listed as essential businesses on the federal level - yet they were closed. Cell phone tracking legal citizens is wrong on so many levels. Many mom and pop stores don't have more than 5 customers inside at any given time.	4/28/2020 9:13 PM
408	We NEED to open!!!	4/28/2020 9:10 PM
409	It has been too extreme for such a rural state.	4/28/2020 9:08 PM
410	This situation has been blow out of proportion. The statistics DO NOT warrant this kind of shutdown, lockdown, quarantine response.	4/28/2020 9:06 PM
411	Let them feed their families too	4/28/2020 9:05 PM
412	Unconstitutional and completely unnecessary	4/28/2020 9:04 PM
413	Fake statistics & models that have never been fully disclosed. Severe overreaction to possible threat. Hospitals are laying off workers. Businesses are closing forever. Victims are in lockdown with abusers. Mental health issues are rising. No constituent has a voice. The governor is the supreme authority' and everyone else should just follow along.	4/28/2020 8:54 PM

4	April 15th. Our county has been terrific about complying with the standards set forth from the President. Our county has not had the problem with the Virus like many in the USA. And many in NM.	5/17/2020 11:06 AM
5	I do not think we should ever implement "stay at home" restrictions.	5/17/2020 10:59 AM
6	I think this is a power play with her she is using Gallup as a factor for Albuquerque and eastern part of NM. we should have business' stay open with restrictions in place .	5/17/2020 10:46 AM
7	Should not have been.	5/17/2020 10:07 AM
8	Never should have been in effect, the hospitals are not overwhelmed, no one can truly hide from a virus, and this may create a second wave.	5/17/2020 9:06 AM
9	Till we have more control over the virus and not just because "We are tired of having to stay at home"	5/17/2020 7:21 AM

11	We should be allowed right now.	5/16/2020 11:09 AM
12	I think we're past a reasonable time. Everybody is out shopping and some are ignoring, etc. WTF!! The tribal issues were because they ignore regular matters and issues of the country and do what they want. I fully support saving and utilizing Native American culture but it's way past time to declare yourself a sovereign nation and then still get paid by us. Join the team folks!	5/16/2020 10:02 AM

14	They should be abolished immediately. Look at NYC. The recent spike in new Covid cases is coming from those people who followed the stay-at-home, wear a mask rule, to the extreme. Again, the studies show that your immune system cannot maintain/sustain itself when a person is homebound and/or always wearing a mask. Our queen wants us to stay locked in so she can continue to rule with an iron fist.	5/16/2020 8:49 AM
15	We dont have that many cases, 77% last I heard are all in the northern corner. We already flattened the curve, our hospitals are empty AND despite the way she talks to us we are adults we can figure out how to stay safe and run our businesses safely!	5/16/2020 12:13 AM
16	SE NM has little to no infections	5/15/2020 10:26 PM
17	We need to use scientific data points to make the determination and be willing to be flexible on the date. We all know once we open up the state there will be a surge. We need to agree on what is an acceptable level of surge and be willing to adjust appropriately.	5/15/2020 9:50 PM
18	What do you want me to say	5/15/2020 7:53 PM

22	Not at all!	5/15/2020 5:42 PM
23	We peaked April 7. McKinley County should not.	5/15/2020 5:34 PM
24	As soon as it was evident COVID-19 was not the super deadly virus the national health "experts" claimed it would be (around mid to late April), they should have got things going back to normal. Never in the history of America has the government forced people who are healthy to go in to quarantine and closed their businesses. Not even with the 1917 pandemic, the 1957 flu pandemic (that killed over 1.1 million world wide and 116,000 Americans), or all other years since which average 600,000 flu related deaths world wide, has this ever been done. This whole thing stinks of politics and our governor and state health leaders are fully complicit and	5/15/2020 5:05 PM

responsible for every business destroyed and the people effected that have had their lives turned upside down this "lock down" has created.

25	My county, McKinley, and town, Gallup, will have restrictions in place much longer, per local and state government. What I think does not matter to those making the decisions, it seems. Our hospitals are not full of people on ventilators, our ICU spaces have not been maxed out. In our town, an accessory site has been established at a local high school. To my knowledge, it has not been used by one Covid-19 patient. Yet, we remain on lock down/lockout while the rest of the state prepares to open.	5/15/2020 4:57 PM
26	They should have NEVER been put in place. Look at Florida and South Dakota as examples.	5/15/2020 4:25 PM

33	This sould have all ended no later than May 15th.	5/15/2020 1:11 PM
34	I have yet to develop seeing into the future. This. Decision should be data driven depending on how the numbers go in various areas of the state.	5/15/2020 1:01 PM

37	As long as it takes for the numbers to stabilize or decrease	5/15/2020 12:52 PM
38	I don't think anyone should have been closed because the big boxes were open. Why only small retailers ordered to close.	5/15/2020 12:42 PM
39	The restrictions should be lifted especially for hospitals, restaurants, salons, etc. We can trust the population (mostly) to behave safely.	5/15/2020 12:25 PM
40	They should have never been put in place. They should have followed Rick DeSantis governor of Florida's common sense response.	5/15/2020 11:03 AM
41	We should have never fully closed. Perhaps distancing measures could have been still been taken. But the majority should be able to do as they wish or self isolate as they want with services being provided to those at risk to ensure safety	5/15/2020 10:59 AM
42	REMOVE IT NOW... Nearly everything we've been told about models, rates of infection, deaths, and recoveries was inaccurate. We were told there would be hundreds of thousands dead. New York has reported 19,543 fatalities. We've been told that the true death rate is 7.4% in New York. The death rate in New York State isn't 7.4%, it is actually .75%. We were told that this was worse than the flu, which has still recorded more deaths to date in this past flu season. Even though the CDC instructed medical personnel to start counting influenza, heart disease, pulmonary, respiratory, drug overdose, and possibly even car crash deaths as COVID-19 deaths. But none of these "truths" turned out to be so. In particular, Georgia and Florida are open, which were projected to see a sharp rise in new cases, have not experienced major new outbreaks in the past week. The average number of new daily cases in Florida declined by 14% over the past week, and Georgia's average new daily cases dropped by 12% during the same time period, according to analysis.	5/15/2020 9:45 AM
43	Should not go past May 15th.	5/15/2020 8:49 AM
44	We never should have had a stay at home order. We are free people, we do not need the government telling us what to do.	5/15/2020 8:39 AM

49	The state's numbers are well below most states. If it wasn't for McKinley county we would looking even better	5/14/2020 8:31 PM
50	It needs to be lifted now.	5/14/2020 8:08 PM
51	I am filling this out on May 14th and I think stay at home restrictions should be lifted immediately. We have "flattened the curve." This virus is not something anyone wants to get, but the solution can potentially cause more problems than the virus itself. Many, many people are out of work.	5/14/2020 8:01 PM
52	Jobs safer than unemployment line.	5/14/2020 7:38 PM
53	Walmart are open and everything else is closed made no sense	5/14/2020 7:10 PM
54	The lockdown should be ended now. There is no need to wear masks everywhere - only where contact with large groups may occur. The statistical game needs to stop. The goal was to have sufficient hospital capacity - this is never mentioned. Sure, as there is more testing more virus positive cases will be found but this should not be a basis for shutting business down. Elective surgeries need to be allowed. New Mexico may never recover from the damage done by this shutdown. Raising taxes and raiding the permanent funds is not the answer.	5/14/2020 6:53 PM
55	We flattened the curve by the end of April and that was the deal. Not until it is gone or a vaccine is available. I'll take my chances!	5/14/2020 6:45 PM
56	I believe that there are certain businesses like Massage Therapy that do not make sense to go back because of direct contact with the skin. I believe that the data needs to be utilized to make appropriate determinations. I do not agree with the loss of freedom that small business owners felt as a result of the pandemic of 2020. I believe that small businesses need to have guidance on how to reopen safely. Like temperature checks and anti-body tests, etc... I think it is important to get our economy up and running again safely while encouraging vulnerable people to stay home until a vaccine is made available. I also encourage vulnerable people to use precautions while they go outside to enjoy a day of summer, fall, winter, spring. I believe because the Coronavirus 19 impacts people who have health issues that the New Mexico state needs to encourage people on healthy eating. I also believe that the New Mexico State government needs to respect the Native American people by hiring Native Americans to help out with the elders who are Native American. After reading how Doctors without Borders is now on the Indian Reservation, I would like to see a Native American trained in sociology, or psychology helping the Native American elders with the psychological experience of having a person other than Native American helping them. I believe if up to me, then I would hire Native American Doctors and Nurses to go to help out the elders living on Native American reservations. It is a transition that needs to be guided better to have the best possible outcome for the Native Americans that are elderly.	5/14/2020 6:39 PM
57	An extension for the hard hit areas is still warranted.	5/14/2020 6:29 PM
58	Again, county by county. We understand some counties may not be in a place that they can reopen, such as McKinley. Other counties in New Mexico have had zero cases since the beginning	5/14/2020 6:26 PM
59	We need to get back to life. Herd immunity is being restricted.	5/14/2020 6:23 PM
60	We were initially bombarded with the slogan "Two weeks to stop the spread". This was ostensibly to ensure that medical capacity was not exceeded. This goal has been achieved yet the goalpost keeps moving. Without a fixed standard (that indeed remains fixed) the NM government can cite any number of reasons for not reopening. At a certain point, trade offs (i.e. short term death increases vs. long term economic health) must be seriously considered.	5/14/2020 6:22 PM
61	They should be stopped immediately.	5/14/2020 6:09 PM
62	They never should have been implemented.	5/14/2020 5:58 PM
63	If you can allow big box stores to open with limited customers why not mom and pop stores. After all we are sending NM dollars out of state to their state of business registration. So from the beginning. See my Facebook post.	5/14/2020 5:58 PM

117	It is all a scam. Masks are absolutely only for programing and a social exercise. In a bio war you are dead with a flimsy mask and staying at home. 123	It depends on further outcomes of positive cases, death rate, and rate of doubling.	5/8/2020 3:53 PM
124	I don't believe there should be a state wide "stay at home order" because each county and city differs from the next. Why should a county with less than 5 cases be shut down? It makes no sense to me, and the way that the governor's office is picking and choosing is very discriminatory. I also have faith in our small businesses to do the right thing and take measures to protect their employees and customers. Now, big corporations are raking in customers and money while our small businesses are dying. I believe that small businesses have more control	5/8/2020 1:35 PM

137	Stop them now! They are unconstitutional.	5/6/2020 6:51 PM
138	People are not staying at home and there isn't anyway to in force that. The Governor is acting like the person that was in control of Germany during WWII. She is infringing on peoples Constitutional Rights and sending the State Police out like the gestapo to shut small business's down.	5/6/2020 6:51 PM
139	Should never have been put in place unconstitutional	5/6/2020 6:27 PM
140	Not at all.	5/6/2020 5:28 PM
141	We should have started reopening May 1 after the President's 30 Days to Stop the Spread. There are many sectors that should have been reopened (or never closed) and some counties with little or no problem should have few or no restrictions.	5/6/2020 9:48 AM
142	May 15th sounds fine.	5/6/2020 8:55 AM
143	Should have ended after a couple of weeks to allow business and individuals to make any necessary arrangements to prepare.	5/6/2020 6:35 AM
144	Quit violating my civil rights	5/5/2020 10:39 PM
145	Our state should be open now. It has gotten totally out of hand. If people don't want to go out they can stay home. Our state needs to be opened up to survive this for all our businesses. Do not infringe on our rights. Its all about power.	5/5/2020 9:51 PM
146	The state should never have been locked down. There should have been a concerted effort to take whatever measures were necessary to prevent the people who are high risk from getting this virus, much like what was done in Florida. Those who are young & healthy should not have been punished by being forced to stay home from school and not able to engage in other activities they enjoy. Many of these activities are done outdoors, which should be beneficial for staying healthy rather than staying at home. In addition, problems with depression, anxiety, alcoholism, drug addiction, and even suicide have been exacerbated by the lock downs everywhere. And all that for a virus that is potentially fatal for only 1-2% of the population? This is insanity!	5/5/2020 8:55 PM
147	All businesses should have stayed open using the same guidelines as the grocery stores, etc. This has hurt the economy of New Mexico and jobs were lost.	5/5/2020 8:47 PM
148	We should be like the states surrounding	5/5/2020 8:43 PM

149	Should be done.	5/5/2020 7:59 PM
150	We should have opened small businesses earlier and lifted restrictions.	5/5/2020 6:12 PM
151	Everything should be open now	5/5/2020 4:50 PM
152	No arbitrary date! "The virus makes the timeline" (Anthony Fauci, M.D.). Our Governor should monitor cases, capacity, and all public-health indices in order to meet recommended federal government guidelines prior to loosening restrictions, and even then, selectively and intelligently. Public emotion should not pressure her.	5/5/2020 3:51 PM
153	Until we get herd immunity this virus will continue to affect us. What are we going to do next year.....close down again??? No one seems to worry this much about the deaths from influenza or abortion!	5/5/2020 3:27 PM
154	I think she is just throwing her power around. As governor she has no power to make laws and throw out fines to people! She is playing prosecutor, judge and jury!	5/5/2020 3:16 PM
155	Look at the streets. The longer these restrictions stay in place, the more they will be ignored. The first couple of weeks were understandable. A month was pushing it. Now we have reached the point that too many people are losing respect for the rule of law.	5/5/2020 2:50 PM
156	The curve should flatten enough by then for at least some of NM to go back to work	5/5/2020 2:34 PM
157	May 1st was a good day to lighten up, with restrictions. Heavy handed reactions in Grants were unnecessary. Closer of Gallup, in response to mayoral request seems like a true pandemic response but the details of how it is monitored and what is being done to improve testing is lacking.	5/5/2020 2:05 PM
158	Until adequate testing has been done.	5/5/2020 1:10 PM
159	They should have been relaxed long before now. Instead of one size fits all stay at home there was no reason why the most vulnerable and susceptible were not singled out for staying at home.	5/5/2020 12:57 PM
160	It all depends on how we are coping with any increases in infections. May 15 is certainly the earliest. It could go on for a few weeks or even a few months, depending on results. We just need to be fluid and monitor results. Choosing a specific date and sticking to it regardless of circumstances is irresponsible and unscientific.	5/5/2020 12:04 PM
161	I haven't looked into it enough to know. It should be tied to number of tests/number of positive cases. Sufficient contact tracing should take the place of blanket stay-at-home orders.	5/5/2020 11:26 AM
162	As long as it take to get the numbers down.	5/5/2020 11:26 AM
163	This is not the proper role if Government. We are responsible for taking care of our own health.	5/5/2020 11:14 AM
164	It should be each persons responsibility to assess the risks, their tolerance for risks, and their health. Then act responsible.	5/5/2020 11:08 AM
165	I will agree to what ever our Governor decides what is best for our health.	5/5/2020 10:29 AM
166	should have already ended.	5/5/2020 10:22 AM
167	The situation in my county is bad and I will wait until the authorities think it's safe.	5/5/2020 10:07 AM
168	Should not be stay at home restrictions just keep safe distance and use face mask.	5/5/2020 10:04 AM
169	We need to be back at work now with restrictions still on vulnerable populations like nursing homes. Florida's plan seems reasonable. Governor needs a plan. This never-ending moving end date is ridiculous.	5/5/2020 9:45 AM
170	Ideally May 1st. I am a senior and cautious in any case. Nursing homes should be stricter since there simply are too many deaths there.	5/5/2020 9:24 AM
171	There never should have been any such order.	5/5/2020 9:23 AM
172	Anything beyond May 1st is simply the governor trying to tell us that she is in control. It has nothing to do with public safety.	5/5/2020 9:21 AM
173	Eliminated now!!!	5/5/2020 9:16 AM

174	Should have been done already	5/5/2020 9:13 AM
175	with the decline in cases and flatting the curve, May 1 with soft open would have been GREAT!!!	5/5/2020 9:11 AM
176	I believe that she is on the right track with a phased in reopening. My office is preparing to reopen with rotating schedules and some mid level staff will continue to telework for up to a couple more months. Our goal is to have a functioning office, but limit the person to person contact as much as possible. I will not be one of those people running out to the stores. I have not set foot inside a store since March 18th and I don't want all of my personal sacrifices (missed family events, canceled vacation) to be for naught.	5/5/2020 9:07 AM
177	I disagree with the stay at home order. I feel it's a violation of our constitutional rights.	5/5/2020 9:06 AM
178	Stay at home instructions should be lifted immediately. The data does not justify the harshness of the shutdown. Further restrictions, such as the closing off of Gallup, is resulting in pushing people further distances to find food and supplies. Along with that, the longer these restrictions stay in place, we will see more people lose their livelihood and thus become dependent on an already financially burdened state.	5/5/2020 8:46 AM
179	Stay at home has proven to be more damaging. People's immune systems are being compromised by staying out of the sun and being locked in.	5/5/2020 8:44 AM
180	until virus cases flatten out for 2 weeks	5/5/2020 8:39 AM
181	Most cases are in the NW part of the state. A "one size fits all" approach is not good for the state. Small businesses need to be given the right to open and respected to use common sense as to their own restrictions.	5/5/2020 8:38 AM
182	She should never have extended it for the whole state. Many parts of the state are remote and could be opened with individuals using their own precautions.	5/5/2020 8:37 AM
183	I don't think staying home has helped at all. Life goes on...leave us alone.	5/5/2020 8:36 AM
184	For healthy people..... Never	5/5/2020 8:36 AM
185	End it now. Counties that don't even have cases are hurting from this shut down. We are responsible to keep ourselves healthy... not MLG!	5/5/2020 8:32 AM
186	See comment above The should end now with occupancy, social distancing, and mask requirements.	5/5/2020 8:28 AM
187	I don't agree with the stay at home instruction for anyone who is not health averse.	5/5/2020 8:26 AM
188	Businesses should never been shut down. Quarantine is for the vulnerable and sick. Sensible business practices should have been put in place and let people decide if they want to shelter or go out. This us America.	5/5/2020 8:22 AM
189	Should have already been over	5/5/2020 8:21 AM
190	There should have never been a closure of businesses. Especially when other stores have been allowed to remain open. What is the point to condense people down to a few stores?	5/5/2020 8:21 AM
191	We have ben give plenty of time to learn what to put into practice in enabling us to function properly.	5/5/2020 8:20 AM
192	If the death rate drops, I think it could be lifted in parts of the state on 5-16. But if not it will need to stay in place longer.	5/5/2020 8:14 AM
193	Should have never been in place. People who are venerable should have taken precautions. There are counties in our state that should have kept schools open.	5/5/2020 8:14 AM
194	They should be lifted immediately!	5/5/2020 8:11 AM
195	We needed only quarantine for the old and those with morbidities. Stay at home for broad population was unnecessary.	5/5/2020 8:11 AM
196	As long is necessary to flatten or downtrend the curve.	5/5/2020 8:06 AM

199	I think we should already be open and further along. Texas and Colorado are open ... and they're NOT staying home in their own states. I relatively close to the Colorado/OK/TX borders in Northeast NM and they have been traveling through here in droves, meanwhile we stay home watching from our windows as they drive to destination spots like Angel Fire, Taos & Red River.	5/5/2020 7:57 AM
200	The stay at home instructions should be lifted now.	5/5/2020 7:48 AM
201	I don't think the instruction should have been made. It's unconstitutional.	5/5/2020 7:43 AM
202	One size fits all is not an intelligent approach. In areas with few if any cases the restrictions should be lifted immediately.	5/5/2020 7:42 AM
203	None...should have never been in place.	5/5/2020 7:36 AM
204	Should be open now!	5/5/2020 7:30 AM

207	Assuming the order had truly been for the purposes MLG stated, the order should not have gone past the end of April...maybe sooner. Soon models say we hit our peak April 6th.	5/5/2020 6:57 AM
208	May 1 would have been the date however with out requiring masks and gloves it is almost a waste. Everyone should take this seriously when entering a building. Protect yourself and others with a little common sense	5/5/2020 6:55 AM

217	Certain areas of this state need more attention, San Juan & McKinley Counties, than others. This is NOT a one size fits all situation.	5/5/2020 6:11 AM
218	Should never have been a statewide directive. Should have been by county. Stay at home orders are needed in some places and absolutely ridiculous in others.	5/5/2020 6:11 AM
219	Should never had a stay at home order	5/5/2020 6:11 AM
220	Shouldn't have been in place to start with!	5/5/2020 5:36 AM

229	I see small and large businesses responding in positive ways to counteract the potential spread of coronavirus. I also feel that we have many ways of avoiding transmission of the virus (masks, social distancing, etc), that stay at home instructions should probably be for the high risk groups.	5/4/2020 9:27 PM

NMBC Covid-19 Statewide Survey

252	I think that it shouldn't be extended anymore. Open the state up.	5/4/2020 9:51 AM
253	Never should of been shut down in southeastern nm	5/4/2020 9:40 AM
254	We quit stay at home practice towards the end of last month. People in my neighborhood have bbq gathering. I went out to a house party this weekend. I've been working for cash or trade and the Govonor can kiss my	5/4/2020 9:35 AM
255	This is too long now that we are more familiar with COVID 19.	5/4/2020 9:02 AM
256	After the first two weeks, I think they should have looked at the whole state and realized that different regions were being affected in different ways. Instead of considering those differences, our governor treated everyone as though we were still the same.	5/4/2020 8:45 AM
257	Most of state (geographically) could have opened up mid-April as problem areas are localized in just a few locations.	5/4/2020 5:28 AM
258	I think it worked to adjust our thinking now we should open up with sensible guidelines.	5/3/2020 11:36 PM
259	Should be determined on a county by county basis, not a blanket policy for the entire state.	5/3/2020 10:54 PM
260	None. Stop now. Allow people who know their own needs better than the elites in government to decide when, where and how they should go about their business and lives.	5/3/2020 10:22 PM
261	Should've been lifted last month.	5/3/2020 9:22 PM
262	NO STAY AT HOME. PEOPLE CAN BE CAREFUL BUT NOT BE RESTRICTED TO STAYING HOME. WHAT'S WRONG WITH GOING TO THE STATE PARKS AND LAKES, YOU AREN'T AROUND OTHER PEOPLE. A BEAUTY SALON ONLY HAS 5 OR 6 PEOPLE AT ONE TIME IN MOST PLACES. WHY HAVE ONLY THE LARGE CORP. TYPE BUSINESSES OPEN BUT NOT THE SMALL BUSINESS THAT NEED THE INCOME?	5/3/2020 8:38 PM
263	Start opening a few businesses each week. People need to work and earn the money to pay the rent.	5/3/2020 8:25 PM
264	I find this difficult to know. As of today (Sunday 5/3/2020) there are 3,850 cases. From what I can tell there is no flattening of the curve. Our Constitutional rights have clearly been infringed and yet most conservatives are smart enough to not want to harm their fellow citizens.	5/3/2020 7:58 PM
265	I think that the governor needs to look at different counties and not a specific date. Why are the state parks not open for camping. Makes little sense. If the big companies that are allowed to be open and can do the right thing, why can't some small business be treated the same if they want to open?	5/3/2020 7:40 PM
266	I'm ignoring it.	5/3/2020 5:50 PM
267	Should NEVER have been in place, I disagree with the idea of staying away from others, we need to be exposed to develop immunity	5/3/2020 5:35 PM
268	a week or two less for southern N.M. (CD2)	5/3/2020 5:02 PM
269	None! It is a bad flu nothing else. Though people have died and suffered. This happens yearly check the flu stats for 2017-2018. Yes I know it is a "new" virus but it hasn't done nearly what was predicted. We flattened the curve, the hospitals were not overrun the dead and dying are not stacked up like cordwood! Get over it. The data was WRONG!	5/3/2020 4:11 PM
270	I think she should have started opening businesses in April. Again, I am not satisfied.	5/3/2020 3:49 PM
271	End it now!	5/3/2020 3:48 PM
272	This dictatorial, anti-Constitutional diktat should never have been issued at all. The Democrat conspiracy in this country want the US to become a socialist dictatorship - under their smelly leadership.	5/3/2020 2:47 PM
273	They should be over.	5/3/2020 2:15 PM
274	No orders should be in place on restricting them to their homes. Think about this...50% of COVID deaths had been attributed to the Native Americans (REZ) and 40% from nursing homes. There has been 140 deaths to date, which leave only 14 deaths among the remaining 2M people living in NM. Now, the chances of every other New Mexican who is not Native	5/3/2020 2:09 PM

NMBC Covid-19 Statewide Survey

American and who does not reside in a nursing home of dying from COVID is 1 in 147,000 (.0007%).

275	This step should not have ever been initiated. We have never been subject to this type of quarantine in past epidemics and we are being controlled by fear and thge dems thirst for power.	5/3/2020 2:05 PM
276	The at risk population should quarantine themselves. Businesses should not have been closed	5/3/2020 2:02 PM
277	Should be science based and should allow folks to return to work as soon as practicable.	5/3/2020 1:59 PM
278	I think there should not have been a stay at home instruction in the first place. I believe all businesses should have been required to limit to perhaps 20-25% of their normal people in store, people should have been encouraged to wear masks, at risk people should have been encouraged to stay home and limit contact. This is not a one size fits all situation and the limitations and directives should have taken that into consideration. As it is, the entire state has been forced to abide by rules perhaps more pertinent to 3 northern counties.	5/3/2020 1:47 PM
279	We are all adults, and speaking for myself, and my family, we started social distancing in February due to the flu extremes. We got the curves down now and everyone knows what is going and how to handle their own situations. We have folks going to big box store to overflow, and Walmarts and such and curve has flattened, but more rules and regs are being put in. Cities like Gallop where the numbers are going up, shut them down, don't punish the whole state.	5/3/2020 1:46 PM
280	Never should have been instituted statewide. distancing and masking is enough.	5/3/2020 12:51 PM
281	Easter Sunday	5/3/2020 12:48 PM
282	The flattening of the curve was supposed to alleviate the demand on health care resources and we are past that. All we get from the Governor's office is more restrictions and dooms day projections.	5/3/2020 12:41 PM
283	No common sense. The leadership seems to be more interested in shutting down the economy and keeping it down as long as possible so we can't recover before November election. It's not about concern for your health. It's about making Trump's recovery fail.	5/3/2020 12:31 PM
284	There should be no stay at home orders and no business restrictions.	5/3/2020 12:23 PM
285	Never should have been an "order", should have been a recommendation.	5/3/2020 12:17 PM
286	I believe it should ve extended due to the rising cases in our State, especially in McKinley County where the cases are at 1,116 and the deaths are at 20. We have the Navajo Reservation here and especially when the 1st of the month comes our population grows from 20,000 to around 75,000? The cases are mostly among the Native American people because of the way they live in groups and the transient people around town drinking from the same bottles.	5/3/2020 12:03 PM
287	Set until the infection have reduce significant. It is sort of like smoking restrictions a lot of people think they have the right but I also have the right not to be infected or debris other peoples the smoke	5/3/2020 12:01 PM
288	I'm not convinced that any of this way necessary. So much real information kept from us. And the devastation done to lives!!!	5/3/2020 11:59 AM
289	I think it has already been in place too long.	5/3/2020 11:56 AM
290	Until the medical professionals recommend easing the restrictions! Not when the politicians and certainly not the businessmen think restrictions should be lifted!	5/3/2020 11:47 AM
291	Reopen the state!	5/3/2020 11:31 AM
292	End immediately.	5/3/2020 11:30 AM
293	OPEN NOW All businesses are ESSENTIAL.	5/3/2020 11:29 AM
294	We are all adults here. Tell us what we need to know (truthfully) so we can make our own decisions.	5/3/2020 11:28 AM
295	Should have never happened; it was a political ploy to scare the citizens of NM!	5/3/2020 11:28 AM

NMBC Covid-19 Statewide Survey

296	People who are immune compromised should stay home. The rest should go back to work immediately.	5/3/2020 11:24 AM
297	The Governor is a power-mad far-leftist who thinks she can consolidate her power using this virus to control everything stupid New Mexicans do, everywhere they go, everything they say and even what they think. If someone is afraid of the virus - let THEM wear a mask and gloves! If someone wants to isolate at home, fine, let them but don't make ME cower in fear in my own home. If someone wants to be tracked every single minute of every single day - great. Just not me! Let the fools stay safe, but not the rest of us who have jobs to go to or businesses that need saving. Open up the State! Let people go back to work. Let restaurants open. Save whatever is left of New Mexico's sad, sorry economy.	5/3/2020 11:23 AM
298	Open more every 2 weeks. Data shows it takes 2 weeks to see symptoms. Keep social distancing until there a vaccine or 80% of population have been tested.	5/3/2020 11:06 AM
299	Should have ended in mid-April for most with focus on trouble spots and helping them. Governor only projects fear and panicking. Doesn't have a plan, over extending her power.	5/3/2020 11:04 AM
300	May 1st... AG Barr said Lockdown is Over... Get a Clue... !	5/3/2020 10:47 AM
301	April 15, 2020	5/3/2020 10:36 AM
302	Stay at home restrictions should be applied intelligently rather than with a broad paintbrush. A few of our communities are at greater risk than others. They might benefit from extended restrictions, whereas other communities pose little risk and could be opened up now.	5/3/2020 10:28 AM
303	Open immediately!	5/3/2020 10:27 AM
304	Depending on cases per capita. Some counties need to open while others need to isolate	5/3/2020 10:25 AM
305	It should have been eliminated in April.	5/3/2020 10:24 AM
306	April 15th, 2020.	5/3/2020 10:20 AM
307	Thank heavens, they were just instructions and there was no law. I felt it was going that direction but I'm glad it didn't	5/3/2020 10:17 AM
308	Not warranted	5/3/2020 10:14 AM
309	2 weeks then check progress of virus. Open mid March	5/3/2020 10:12 AM
310	As I said above open area should open up - others need to be looked at and supervised to accommodate distances, masks etc.	5/3/2020 10:01 AM
311	Open small businesses with Sam restrictions as his stores.	5/3/2020 9:59 AM
312	Suggesting and encouraging Limited outings in trouble is understandable forcible and fining individuals is unacceptable	5/3/2020 9:38 AM
313	NEVER! - It amounts to martial law which should be treasonous with capital punishment for declaring or supporting any such measure/action.	5/2/2020 10:50 AM
314	Should never have been in place at all	5/2/2020 10:37 AM
315	I am not sure a stay at home order is legal. A stay at home request is for parts of the state not hit hard by the virus should be lifted.	5/2/2020 9:22 AM
316	They should NEVER have been put in place. NO elected official has the power or authority to enact such reckless and needless thing.	5/2/2020 4:52 AM
317	Should never have happened	5/1/2020 4:51 PM
318	May 30th at a minimum, maybe longer. It's not just our state, but the surrounding states. Google "Spanish flu 1918 Denver" for the dangers of rescinding the stay-at-home too soon.	5/1/2020 1:51 PM
319	My personal thought was that those who actually tested positive for COVID should have been quarantined once diagnosed.	5/1/2020 11:27 AM
320	Gone April 15th.	5/1/2020 11:16 AM
321	we should have opened	5/1/2020 7:47 AM

NMBC Covid-19 Statewide Survey

322	It should have already been lifted. Follow CDC guidelines and get back to work. There's hundreds of different ways to get sick. Staying at home will decrease the immune system and there could be other problems as a result of staying at home.	4/30/2020 3:13 PM
323	April 15th was too long.	4/30/2020 2:43 PM
324	Open NM to business!	4/30/2020 2:20 PM
325	We are adults. We know how to take care of ourselves. I also believe that this order infringes on my Constitutional rights.	4/30/2020 12:55 PM
326	We should open now, no later than 5/1 or tomorrow. The data shows the intensity of this virus is not all that bad and does not justify these draconian measures directed by the Governor. The chance of dying from this virus is like .0009%. You have a greater chance of dying on your way home from work in an accident. We have more people that are going to die in the fall because they have not developed immunity that we be obtain when we are outside doing our daily business. Maybe that's the plan. Communities like the Navajo Nation, can implement their own self isolation and close their borders.This Governor is I feel intentionally destroying this state.	4/30/2020 11:53 AM
327	Since our state is so big and underpopulated in many areas, I think some counties in the state could open now with social distancing in mind, masks and gloves.	4/30/2020 11:18 AM
328	Until more people are tested with up to date forms of testing so asymptomatic people are taking proper methods of preventing further spread of the virus.	4/30/2020 11:10 AM
329	No instruction, no citations, no threats to the freedom of American citizens.	4/30/2020 7:58 AM
330	March 16th.	4/30/2020 7:07 AM
331	April 30th	4/30/2020 7:06 AM
332	Never should have been in place at all. No evidence to support it. In fact, it appears that evidence supports NOT staying at home.	4/30/2020 6:58 AM
333	Open May 1st. This Coronavirus shut-down is bullshit. We need herd immunity. 98% of people will recover. The elderly, infirm and immune compromised should stay home, but the rest of us can go back to work, and we do have medicine, off label or not, that helps people get well. Off label or not, who gives a rip, it works. Furthermore 60,000 people die every year from the flu and nobody gives a shit about that.	4/30/2020 6:52 AM
334	Location, location, location.	4/29/2020 11:41 PM
335	It's already gone on for to long	4/29/2020 9:35 PM
336	Shouldn't have been offered at all.	4/29/2020 8:12 PM
337	April 1-15th	4/29/2020 7:47 PM
338	No specific date. The virus does not have a calendar. Keep looking at the numbers, and when the Secretary of Health and medical experts say, "When", then it will be when.	4/29/2020 5:27 PM
339	Never should have been issued to start with!	4/29/2020 4:44 PM
340	Whatever the scientific and medical professionals recommend	4/29/2020 4:05 PM
341	May 30 latest	4/29/2020 3:56 PM
342	Another two weeks may be critical for the many businesses that are now on the edge.	4/29/2020 3:54 PM
343	This will be dictated by the COVID-19 virus, and it has not established a timeline. To those who claim to be smarter than the experts — be careful what you wish for	4/29/2020 3:42 PM
344	May 15th ... with exception to allow responsible commerce and operation as noted above.	4/29/2020 3:32 PM
345	Is an arbitrary date, pulled out based on direction from somewhere else.	4/29/2020 3:30 PM
346	Should be back already in a modified form. 20% this week 40% next etc	4/29/2020 3:23 PM
347	It is time to end this nonsense. People need to get back to socializing and being outside. The virus is killed by UV rays and staying inside is not a good idea. The hospitals need to cater to people who have medical emergencies/problems that are not being addressed. They are the	4/29/2020 3:09 PM

NMBC Covid-19 Statewide Survey

ones who maybe dying. And the longer the stay isolated continues, the more problems that are created with no money, depression, suicide, etc.

348	Should have never been done in the first place.	4/29/2020 3:05 PM
349	The sooner the better. People that live pay check to pay check are running out of food and need to get back to work ASAP. They aren't living in the Governor's Mansion.	4/29/2020 2:41 PM
350	May 15th is a reasonable date. However, the governor should evaluate the data and give an indication of whether it is prudent to end the "stay at home" on 15 May or extend it well before the 15th. Doing so will eliminate a surprise=se decision on the 15th.	4/29/2020 2:36 PM
351	I do not want to go out prematurely. Data from 7 states was recently published that showed they had a 50% higher number of deaths than a year ago, meaning that COVID is probably far more dangerous than we think, because of course the number of deaths due to traffic accidents and violence would much less for the quarantined period, and they still had a huge increase.	4/29/2020 2:19 PM
352	Should have been lifted already.	4/29/2020 2:05 PM
353	Shouldve never happened, advised people to wear masks for personal safety n wash hands often	4/29/2020 1:42 PM
354	I think the May 15th order is OK but I do think she should be relaxing the order for some activities that lend themselves to social distancing like golf. There are many people out there that would feel a lot better if they could get out on the golf course and get some needed human interaction and some healthy exercise.	4/29/2020 12:55 PM
355	Stop immediately!!!	4/29/2020 12:42 PM
356	Shouldn't have it at all	4/29/2020 12:37 PM
357	Frankly it is ridiculous that State Government has not been public with any plan to reopen the State, especially with the current statistics which indicate on most days 80% of new positive tests are in McKinley and San Juan counties. The Governor should have a plan to open with isolation requirements for these two counties.	4/29/2020 12:36 PM
358	But not for everything. Examples are golf courses and state parks being closed.	4/29/2020 12:00 PM
359	Once the curve is down.	4/29/2020 11:56 AM
360	A stay at home ordinance should not have been put in place.	4/29/2020 11:19 AM
361	Should have never been placed too arbituroy	4/29/2020 10:58 AM
362	I disagree that we even should have been "staying at home" at all. Please show me the EXACT science that proves the theory out. That edict of hers should be lifted across the state NOW! My theory is that she now wants to screw up the primaries in early June since she was shot down on the mail-in fraud voting idea! So, I figure she will shoot for May 30th to hurt as many people possible to feed her narcissistic personality disorder. So don't forget, it is ALL about her! She wants to be a "big deal" in the democratic party. They didn't even think much of her when she shouted down President Trump in the halls of Congress. Instead, she just looked like the pathetic "know nothing" person she is.	4/29/2020 10:39 AM
363	No later than May 1, preferrably earlier.	4/29/2020 10:37 AM
364	Please Open our businesses now. As a small business owner we are drowning!	4/29/2020 10:23 AM
365	I don't see that many areas need to be under the stay at home order. In hot spot areas I agree in some limits but others don't need it right now.	4/29/2020 10:21 AM
366	As long as it takes, until we know there is a definite decline in the reporting of positive cases.	4/29/2020 10:12 AM
367	May 15 is currently reasonable. That gives us time to reevaluate the situation. If cases continue to rise at current rate, we should extend it longer.	4/29/2020 10:11 AM
368	Other states are relaxing their restrictions, but I suppose that's up to the health experts.	4/29/2020 10:01 AM
369	These 'orders' from a puppet governor need to end TODAY. Let those who want to stay at home, stay; those who want/need to get back to work and to life go about their own business. Stop treating NM citizens like toddlers who need constant supervision.	4/29/2020 10:01 AM
370	I worry about reckless behavior from some individuals and groups. Selfishness can be a major	4/29/2020 9:14 AM

NMBC Covid-19 Statewide Survey

threat to others who may become infected as a result of their behavior.

371	Until science says it will result in the least number of deaths	4/29/2020 8:53 AM
372	There's no reason to stay home unless a person is sick. I haven't stayed at home this entire time & dare anyone to try & make me. The stay at home edict should have never happened.	4/29/2020 8:40 AM
373	May 1st is adequate. There are many small businesses that need to get restarted if they are going to make it. If they follow social distancing I see no problem worse than keeping them shut down and losing everything including their livelihood. Most small businesses have far fewer people per square foot in them on any given day than the "Big Box" stores selling the same products.	4/29/2020 8:40 AM
374	Open New Mexico NOW!	4/29/2020 8:36 AM
375	til # people infected down and keeps going down... Til there is contact tracing. This is not a date to just pull out of the air; this is a date based on real numbers of real people and the real impact on the state. Physical distance needs stay. When i go in newly re-opened business ~ i want KNOW those employees been tested. I want to KNOW place is clean and staff does disinfecting on-going thru the day. And since so many are a-symptomatic - this is difficult. NMHealth needs work with chemist and biologist up at LANL to work this out.	4/29/2020 8:32 AM
376	The original deadline was sufficient. I have a bad feeling she will continue to move the goal post without reducing mandates. It's becoming like an analogy of Lucy yanking the football away from Charlie Brown every time he gets close to it.	4/29/2020 8:26 AM
377	It should be terminated immediately, with guidance to keep up the social distancing, especially those that the data shows are at risk, due to the fact that, while the ultimate mortality rate might be similar to the flu, the pulmonary aspect of the disease progresses silently resulting in often too late admittance to hospital.	4/29/2020 8:20 AM
378	Should have never had such an invasive stay at home order.	4/29/2020 8:18 AM
379	End yesterday. Should never have been. The places that did not shut down had no worse amount of deaths.	4/29/2020 8:18 AM
380	May 15th unless further restrictions are put in place for the health and safety of New Mexicans.	4/29/2020 8:16 AM
381	May 15, with the potential for review if the curve does not continue to flatten. I do not, nor does my company, support aggressive reopening measures. Safety is the better long term strategy.	4/29/2020 8:10 AM
382	Shouldn't have ever been implemented given the information available.	4/29/2020 8:07 AM
383	Never. If the above precautions are taking place, the areas in the state that are not as hard hit as the NW/Albuquerque/Sants Fe/Las Cruces areas are, PLEASE let SE NM open up!	4/29/2020 7:44 AM
384	Stay at home should have been voluntary in the first place. Educate people on the risks and then let them make their own decision. Businesses should have not been forced to shut down and the government should not get in the business of picking winners and losers.	4/29/2020 7:36 AM
385	Should never have been in place!	4/29/2020 7:31 AM
386	She is a terrorist and high on her job.	4/29/2020 7:23 AM
387	We need county specific measures.	4/29/2020 7:10 AM
388	Open immediately.	4/29/2020 7:09 AM
389	Stay at home order should have never happened at all.	4/29/2020 7:07 AM
390	She has not signed the EO to extend till May 15. She only verbally stated it in her press conference. It doesnt legally exist until she signs the EO with the extension date specifically listed	4/29/2020 6:50 AM
391	FULLY OPEN IMMEDIATELY!	4/29/2020 6:46 AM
392	This is another dumb question. We need to re- open safely. The virus is not black and white and there are too many unknowns about it except that it is very dangerous and even deadly to people who are in the best of health. Don't be dumb,	4/29/2020 6:46 AM
393	It should have been lifted already. Our positive tests compared to our population doesn't warrant a shutdown to this magnitude.	4/29/2020 6:22 AM

NMBC Covid-19 Statewide Survey

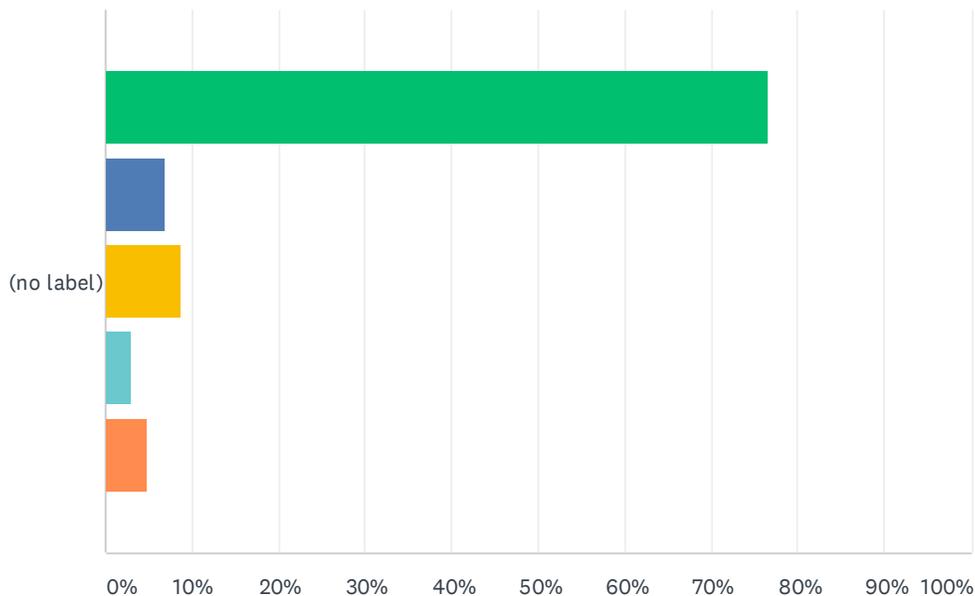

394	I think there should have not been a stay at home order. I think the governor should have shut down all travel in and out of the state except commerce. If she confined everyone to the state there would have been less Cases with out having to shut down the economy. I also think that based upon the severity of the virus, or lack of severity, the government should have let the virus run its course.	4/29/2020 6:17 AM
395	It is highly questionable as a response to this so called 'epidemic'. Remove government officials from office who have acted so irresponsibly.	4/29/2020 6:13 AM
396	Should not have been done .	4/29/2020 6:11 AM
397	Now we know that our state has been affected in a limited way and one that can be contained without the whole state being locked up and our economy being destroyed. This should be dealt with county by county.	4/29/2020 6:10 AM
398	As long as necessary.	4/29/2020 5:51 AM
399	Some counties/cities are experiencing very little virus problems. They should open up yesterday. This is political	4/29/2020 5:42 AM
400	Individuals who want to stay at home can stay home. Businesses should require a mask in their business, and provide hand washing stations outside their business. If we did this we could re open all businesses. Covid 19 is with us, and not going anywhere. We must learn too adjust, and go on with our lives. It is ridiculous to have golf courses closed (I don't golf). out doors is probably the safest place if you do social distancing. Also, State parks, lakes, campgrounds, along with Federal parks and forest need to re open. Open RV travel parks with 50-70 % occupancy with appropriate precautions. America needs to be able to travel again. A no shirt no shoes NO MASK policy would go along way. This should Not be a government order, is should come from local business, and be backed by local government. Continue to advise against large gatherings. Shut down feeding programs for street people. This is a Covid breeding ground.	4/29/2020 5:26 AM

1	The New Mexico leadership wants to remain in power and that is only possible if the majority of New Mexicans rely on Santa Fe and D.C. for their income.	5/17/2020 7:35 PM
2	Do t care about are small businesses	5/17/2020 6:09 PM
3	There are different needs for different people.	5/17/2020 11:06 AM
4	Many small businesses will not come back	5/17/2020 9:06 AM
5	Abuse of power!	5/17/2020 1:40 AM
6	So many people will not make it!	5/16/2020 6:37 PM
7	Not consistent across the board. Small businesses have NO Rights, the Large businesses like Costco and Sam's Club just get to keep right on operating as usual with a few adjustments to customers at one time. Makes no sense to me.	5/16/2020 10:02 AM
8	Gov Wuhan's policies are not about taking care of the people; they are all about politics. She's allowing the big box stores to stay open while crushing the small businesses. Look at the money trail. It's disgusting how she's ruining the lives of so many NM people and businesses.	5/16/2020 8:49 AM
9	The choices of whats essential make NO sense, the singling out of churches from the beginning is ridiculous! No church but 200 in Lowes?!!	5/16/2020 12:13 AM
10	Income comes before expenses in all organizations. Planning and developing a stable income has to be a priority before expenditures. New Mexico has always rated low in developing a dynamic economy.	5/15/2020 6:14 PM
11	If masks really work...open every establishment 100%.	5/15/2020 5:42 PM
12	Elected officials?? That is only MLG. Is she consulting any legislatures?	5/15/2020 5:34 PM
13	The policies for businesses and business owners were too draconian, extreme and unequal and have done irreparable harm to hundreds of small businesses and their employees. I'm afraid it may be years (if ever) for us to fully recover. We'll have to see what the business closure / bankruptcy / unemployment rates are in the months to come. Policies regarding drive up testing for people were good. I think the medical community did well. Too little has been said for the fear driven extreams many people are still doing. I see people wearing masks in their cars and when walking alone out side. It's not only stupid, but harmful and even dangerous, but I don't hear our governor saying anything about that. Instead, she increases the mask requirement.	5/15/2020 5:05 PM
14	The damages to the economy and small businesses in particular, has been devastating. I pray NM can recover. Fines, restrictions and non-essential orders are too hard on small businesses to do the basics like feed their families and maintain employees.	5/15/2020 4:57 PM
15	They are crushing small businesses and the morale of communities for a power grab. Isn't it interesting that we're shut down so campaigning for the primary is limited!	5/15/2020 4:25 PM
16	Perhaps their goal is to exterminate small businesses?	5/15/2020 4:08 PM
17	The state has done a poor job in responding. They do not realize that it takes planning on re-opening a business. It doesn't help to give an opening date and than change a date. For example -restuarants ordering food and getting employess up to speed.	5/15/2020 2:57 PM
18	Orders need to be specific and fair across the board. If clothing stores are closed, then big box stores should be prohibited from selling clothes. If liquor stores are closed, then big box and convenience stores should be prohibited from selling alcoholic beverages. If clinics are to be closed, then specify that with precise language and be fair across the board: medical primary and specialty clinics, optometry clinics, chiropractic clinics, physical and occupational therapy clinics all on the same page. No political exceptions for any one special group. And specifying that abortions are essential healthcare is an opportunistic exception made for a special interest group that has no place being mentioned in public health orders. The Governor should be ashamed for accommodating abortionists during this crisis.	5/15/2020 1:54 PM
19	Businesses will fail. And self employed have been screwed from unemployment.	5/15/2020 1:43 PM
20	Business should be allowed to open on a limited bases with safety precautions in mind.	5/15/2020 1:17 PM

Guidelines must be met, established by each particular type of business

21	The damage done to small businesses will prove to be non repairable at its current level. Even with some of the funds available from the SBA.	5/15/2020 1:11 PM
22	There should have been a comprehensive plan that stopped all commerce with the exception of *true* essential services like Food & Healthcare only... outside companies still wanted their money because it was not a true shutdown and there was no rule protecting our businesses	5/15/2020 12:55 PM
23	Based on the current research wearing masks does very little to prevent spread of corona. I really don't agree with mandating that everyone has to wear masks in every public situation. I do appreciate taking the virus seriously.	5/15/2020 12:52 PM
24	Many small businesses are suffering. The small businesses is what keeps NM economy going!	5/15/2020 12:52 PM
25	its a horrible shot in the dark that is killing our economy.	5/15/2020 10:59 AM
26	It is difficult at best to find employees to hire. The typical response, "we will start working again mid - end of July when we receive less on unemployment." That has been the reply from multiple people we have tried to hire. This is our busy season and we have need of more employees. As a small business in New Mexico we have just started to recover, in the previous few years, from the 2008 financial crisis and the Great Recession. If New Mexico does not quickly open all small business, now, it will be a much longer recovery period this time!	5/15/2020 9:45 AM
27	Counties with very few Covid-19 cases should have the ability to open. Ridiculous for big box stores to be able to sell clothing, plants and other landscaping supplies and liquor while small businesses selling the same goods have to be closed.	5/15/2020 8:49 AM
28	People need to get back to work. We can't afford to continue like this any longer. We now know what we need to do to keep ourselves and others safe.	5/14/2020 11:16 PM
29	Horribly	5/14/2020 9:55 PM
30	You are killing small business, you should be thrown in jail, i hope everyone shows up in santa fe to protest against you	5/14/2020 8:42 PM
31	Testing everyone is a joke. Test the people who come into contact with high risk population.	5/14/2020 8:31 PM
32	There is absolutely no reason small businesses and restaurants need to be closed if big box stores are open! This is ridiculous! The Governor is willing to completely devastate our state financially and ruin lives and has obviously not done a cost/benefit analysis on this. She is not being open about her plans and meeting behind closed doors. She speak condescendingly to New Mexicans as if we are toddlers.	5/14/2020 8:01 PM
33	It's time to reopen with restrictions	5/14/2020 7:10 PM
34	Funny how she and all her staff have not taken a pay cut or have refused to be paid while our state is locked down. Her Constant were in this together statement is a joke. That a complete lie.	5/14/2020 6:58 PM
35	Stop issuing commands that say only certain percentages can open - it's ridiculous. Why 25%? Why only 10% for churches? Why favor big box stores over small business?	5/14/2020 6:53 PM
36	Supporting big box and chain businesses and destroying small businesses. Small business can control social distancing much better	5/14/2020 6:45 PM
37	Killed our economy	5/14/2020 6:43 PM
38	Small businesses are dying and she doesn't care	5/14/2020 6:39 PM
39	New Mexico business owners are feeling like there behind the 8 ball when it comes to financing the State's budget. I believe that the New Mexico State Legislature needs to get back to work to undo all the frivolous and wasteful spending like free college tuition. I believe that State government employees need to take a %20 cut in pay to help offset the cost of the 2020 pandemic. I am impressed with the Federal Government's Care Act that provided money to the State of New Mexico to provide unemployment Disaster relief to the self employed. Without the Federal Care money, the State of New Mexico would not have had that kind of money to give to the self-employed. I believe that in the future, our New Mexico State budget needs to have even more money in reserve. Currently, there is a lot of money in reserve thanks to the previous Administration of Governor Martinez with her careful spending. I also spoke to several	5/14/2020 6:39 PM

people that were currently in the DD waiver program for children with disabilities. They were apprehensive of expanding out services to those on the waiting list because of the following: Suppose there are 4 people sharing a pie with two slices each. A new policy allows there to be 10 people to share a pie because the pie is now made bigger than before. However, there is shortage of ingredients so that the next pie is smaller than the first pie when 4 people got 2 slices each. Now, there are 10 people having to share a very small pie. It is not fair to those that have to do with much less in raising their children that are developmentally challenged. Expanding out services is much debatable because money in next year's budget might not be as great. With the pandemic of 2020, I worry about basic needs of people who are U.S. citizens. Fortunately, I do not have children, but I do hear lots of stories from people, as my own personal achievement in studying sociology.

40	Business and jobs are dying! The May 15th date was originally supposed to be the start of opening. On MAY 13 the rug is pulled. We as a people had been adhering to the rules. Masks, distance, staying home.... it's like the finish line was moved. And now I don't trust the next date. MLG will find an excuse to move the line again.	5/14/2020 6:23 PM
41	I am only giving a 2 not a 1 because I think we are doing a good job of making testing available for people. Very disappointed with how slow of a pace we are going with opening businesses. I'm not saying open 100% capacity or anything but we need to at least give all types of businesses same capacity openings. Why can movie theaters not open up at a smaller capacity? Why are retailers 25% yet houses of worship 10%?	5/14/2020 6:12 PM
42	We have already experienced business final closings and layoffs. We will have more and the Governor doesn't even pay attention to our plight.	5/14/2020 6:09 PM
43	She won't give any future notices to business that they may be able to open back up.	5/14/2020 6:00 PM
44	Please reword your questions as the legislators have sent letters, emails and personal phone calls requesting legislative involvement in the process.	5/14/2020 5:58 PM
45	Slow opening in controlled areas should be happening.	5/14/2020 5:30 PM
46	Every state, city and county across the United States that the Left Wing controls has been ruined and bankrupt. Everything they touch is a disaster.	5/14/2020 5:24 PM
47	I'm satisfied with how Eddy county sheriff's department and City Council is listening to it's constituents and advocating for our economy.	5/14/2020 5:04 PM
48	I would give the Gov. an F. in this category. Most of the state never had a Coronavirus crisis. Most counties in the Eastern and Southern part of NM had very few cases. Yet, their business had to remain closed. That makes not sense. For the entire state: Why have big box store been able to remain open while local small business have had to stay closed. The small stores could abide by the same social distancing rules. That makes no sense. The handling of the Pawn Shop owners in Grants NM was extreme use of force and heavy-handed. Probably a rational leader would have started with a person-to-person phone call!	5/14/2020 5:03 PM
49	She is killing small business in NM. Why is she and she alone allowed to determine essential businesses. And most non essential businesses products are being sold in the big boxes and grocery stores she allowed to stay open. But remember her quote when she started the mess "I have the authority to do this".....said numerous times in her announcement.	5/14/2020 4:39 PM
50	Small business owners have been pushed out, the supply chains are being completely removed. Explain the science and reasoning of how standing in any major store is safer than going to an open air farmers market? And yet those local growers have been removed while larger retailers flourish	5/14/2020 4:33 PM
51	Big box stores open, small business shut down, doesn't make sense.	5/14/2020 4:23 PM

55	Our governor has done a phenomenal job. I commend her for trying to keep everyone safe.	5/14/2020 3:48 PM
56	On a conference call w/ governor she asked how can we "help" and then said "We are partners". We are not partners. We have no partnership with her what so ever. Other than we are law abiding citizens and we all live in the same state. Her actions suggest she could be careless on the impact on New Mexican businesses, the New Mexicans employed, or the New Mexican economy. Her help offers, are LOANS. Which will further sink businesses and cause even more damage on the Land of Enchantment.	5/14/2020 3:21 PM
57	see #1	5/14/2020 2:57 PM
58	Horrible in my opinion! Keeping big box stores open but not letting small businesses follow the same protocol especially if they had groceries, alcohol, home goods etc. made little sense. Now keeping restaurants & bars closed without a reopening date is only causing small businesses to close. Not all businesses can do carry out because it's not cost effective for that business.	5/14/2020 2:45 PM
59	People need to work business generates business.	5/14/2020 11:01 AM
60	The state legislators are good at lip service. Where is the action?	5/14/2020 8:40 AM
61	I don't trust anything they if big business are open so should the small business.	5/14/2020 12:19 AM
62	Not treating businesses equally	5/13/2020 11:06 PM
63	Governor Lujan Grisham refuses to work with the New Mexican citizens, Legislators, City Mayors, or anyone in the state outside of her small hand picked group.	5/13/2020 7:13 PM
64	We are the worst state in many many areas and the elected officials are not doing anything to improve us.	5/13/2020 6:18 PM
65	Once again, the restrictions were draconian in nature and unfair to many, many businesses and industries. "It's fine to go to Walmart, but not the corner store. Or Lowes, but not Ace Hardware"? This was an attack on small business and seemed calculated and planned.	5/13/2020 4:36 PM
66	Its not the states responsibility to mother the citizens.	5/13/2020 3:41 PM
67	businesses are dying with no relief in sight	5/13/2020 3:18 PM
68	More people will be killed from the effects of the shut down than by the virus. Watch the suicide rate and domestic relation murders.	5/13/2020 1:36 PM
69	Should outside store support staff work and stay in store for hours at a time? Like advertising companies that handle product advertisement in coupons inside grocery stores	5/13/2020 1:06 PM
70	The elected officials have had zero say. It has been ran like a dictatorship.	5/13/2020 12:57 PM
71	Open up the state already	5/13/2020 12:37 PM
72	Naming businesses, and in turn people, as non-essential has done irreparable damage to our business owners and our economy. Small businesses were always more prepared to handle social distancing requirements and they are closed. All the while, the big box store parking lots look like it's Black Friday!	5/12/2020 1:46 PM
73	Again, I feel the message has been that small business and business owners are part of the problem and not the solution. Seeing the parking lots of the larger businesses overflowing or watching as consumers drive to Durango, Colorado to shop and play golf has been very difficult to watch. I have been bothered by the idea of fines and citations for business owners who are just trying to keep some source of revenue coming in providing jobs and income for their employees. Also, when the orders about Essential vs Non-essential businesses were first introduced, it was very confusing and I received numerous calls at the Chamber of Commerce to help clarify the information and provide direction. People wondered if they needed special papers to be able to prove that they worked or owned an "essential business". The information line provided by the State was helpful to a point but I feel the whole issue could have been avoided if every business had been allowed to remain open and the focus had been on safety and hygiene protocols instead of forcing businesses to close for an unknown period of time.	5/12/2020 1:26 PM
74	Shutting all business has been a disaster for this economy!	5/12/2020 12:25 PM
75	There is very little attention being paid to the ability of small businesses to operate with the same health protocols of the big box stores - resulting in gross unfairness and much economic harm.	5/11/2020 11:48 AM

77	Not a new Mexico resident. When you have to close down everything again.	5/10/2020 2:40 AM
78	So angry that the big box stores are able to stay open when small business's are shut down. Having to shop at the Dollar Tree where the cashiers are wearing required face masks under their nose's is an insult to a closed small business that is more attentive to provide their customers with better protection than this. Walmart workers and Costco workers wearing their required face masks ineffectively do not protect their customers better than a small business. Yet, the small business owner is considered non essential. The States policies may sound good, but they are out of touch with reality.	5/9/2020 3:08 PM

89	I don't think it was necessary to close almost all small businesses. For example: nurseries, optometrist offices, eyewear, accountants etc.. All of these businesses as well as many more could have controlled the environment better than the big box stores.	5/7/2020 5:00 PM

91	Choosing business that make large champagne contributions and allowing them to stay open. While closing all small businesses.	5/6/2020 10:41 PM
92	Government overreach at its worst. Trampling personal liberties and freedoms is an affront to everything the Founding Fathers and every military veteran ever fought for. Apparently, we have at least 2 generations that learned nothing from or about WWII in school and have never read the Constitution or the Bill of Rights.	5/6/2020 6:51 PM

98	Given that the numbers for New Mexico are not statistically different than the states that didn't shut down, it appears that the majority of damage to the state is from the government.	5/6/2020 6:35 AM

99	Our businesses are suffering and if we don't open soon it will be much worse than this virus. I was appalled when she closed the city of Gallup! Isn't this America!	5/5/2020 9:51 PM
100	This is already a state that is not friendly to businesses, and shutting them down completely has had devastating consequences for many of them. Those who are young enough and healthy enough to work have to leave New Mexico for more business-friendly states. That takes an even bigger toll on our economy...	5/5/2020 8:55 PM
101	Disgustingly Bad	5/5/2020 8:43 PM
102	There is no common sense being used at all and the Governor is choosing winners and losers.	5/5/2020 8:37 PM
103	They are destroying lives.	5/5/2020 6:12 PM
104	BIG Business is still in BUSINESS have any of their employees died? Lowe's, Home Depot, what about all of our government employees are they still being paid? How about our Hospitals and Paramedics, of the 162 deaths how many of those were health professionals? I'm grateful for our nurses, paramedics, doctors and people on the front lines risking their lives treating the infected how many have died? What about when we send out our soldiers and they risk their lives for our freedom what about them why is that OK?	5/5/2020 5:25 PM
105	I think the elected officials have excelled within the country on testing and early shutdown. This is not to say we aren't in dire circumstances as a business community. But the Governor is clearly striving to make proper decisions to save lives while supporting small business until we know more about this virus, have better ways to selectively prevent and contain its spread, and have a vaccine. We must keep in mind that she is dealing with an entire state with a wide range of community health and economic prosperity.	5/5/2020 3:51 PM
106	The fact that the small businesses are shut down BUT you and 500 others can go to walmart, Lowe's and home depot is the dumbest thing ever! If you can only shop for essentials then all of Walmart except the food should have been roped off.	5/5/2020 3:27 PM
107	Seems she is favoring big business who probably are padding her pockets.	5/5/2020 3:16 PM
108	As a small business owner with only three employees, I could have easily met the goals of social distancing and sanitation without shutting down the business.	5/5/2020 2:50 PM
109	They are needlessly picking winners and losers. This was not necessary. The current restrictions on limited capacity, take out, curbside, social distancing and mask use would have sufficed.	5/5/2020 2:33 PM
110	The logic of who gets closed and who gets to remain open are big city centered, but lack the logical solution of trying to keep people away from each other. State gets a '2' on that. Heavy handed and inequitable reactions to business across the state is enlightening ... car washes, churches, liquor stores ...	5/5/2020 2:05 PM
111	Very upset! It makes no sense to allow hundreds of people into places like Home Depot and Walmart at one time and yet not allow a small art gallery or women's upscale boutique to open when they never have more than 5 people at a time. What about the the banks, salons, wineries, breweries etc etc???? I am confident the small business owners can do a better job of controlling the social distancing rules and using PPE. Employees at Home Depot are running around without PPE and not following the 6' distancing. We were business owners for 30+ years so I know how important for these business owners to get back to running their business they way they should be. What is the justice in this? Everyone says MLG is only concerned about money lining her pocket and is a control freak. I can't help but agree.	5/5/2020 12:08 PM
112	The plan hasn't been made clear enough, and I've been doing a lot of googling so I feel like if it's out there for the public, it's not out there enough. Having more info would make people less afraid. I also think liquor stores and mom & pop shops should be allowed to operate with the same restrictions as Walmart or a grocery store.	5/5/2020 11:26 AM
113	Strange, question 3 asks about policies toward businesses, and the scale asks for the response to businesses. I do not believe the state has responded to businesses because businesses are not responding to the state and the health needs of the people.	5/5/2020 11:26 AM
114	Too frustrated to respond appropriately here.	5/5/2020 11:14 AM

are we sending home health care personnel that could be treating non-virus patients? I our governor actually an idiot?

116	I think there should be more focus on the economy but they've been doing ok.	5/5/2020 10:07 AM
117	Small businesses and rural hospitals esp. are suffering since the big ones are allowed to deliver the same services at the same time. Unequal treatment! I can understand shutting big events down.	5/5/2020 9:24 AM
118	How many small businesses are going to close forever because of this? We've already seen to more major restaurants close - the Cooperage and Sandiagos.	5/5/2020 9:21 AM
119	Small Business is being hit hard and Large Box stores are given a advantage	5/5/2020 9:11 AM
120	Businesses (or people) should not be forced into dependence on the state. That should be the last thing they want. The selection of what was essential was arbitrary and did not make sense. I will enter a small business long before a crowded box store. Did you see those lines and the number of people inside???? That was not helping.	5/5/2020 9:07 AM
121	Small businesses should not have been forced to shut down. The owners and operators of these small businesses are more capable of following guidelines and keeping their patrons safe than big box stores like Walmart and Target.	5/5/2020 9:06 AM
122	The only businesses that are doing OK are the big stores. So many small businesses are suffering needlessly and being hammered by fines and edicts.	5/5/2020 8:37 AM
123	To shut down businesses was a mistake. People need to work. No work=no pay=no food=no home, etc. The bills keep coming.	5/5/2020 8:36 AM
124	Businesses are suffering greatly. Some may not even reopen. MLG is a complete failure. Her economy may never recover.	5/5/2020 8:22 AM
125	The most important point is that it is unconstitutional to shut down businesses. Businesses will figure out how to be safe in their own unique circumstances. LET THEM OPEN BACK UP!	5/5/2020 8:21 AM
126	Most of theses elected people have no concept of how to govern. All they have interest in is social issues. None of them have any real abilities to govern properly.	5/5/2020 8:20 AM
127	Somewhere in the process the flatten the curve changed to no one is going to die. NM Governor is trying to "play God" and I do not think it will work.	5/5/2020 8:14 AM
128	She didn't even take in to consideration anyone's needs but her own.	5/5/2020 8:11 AM
129	ALL businesses ARE ESSENTIAL!! They all need to re-open	5/5/2020 8:11 AM
130	Businesses are life for the people.	5/5/2020 8:06 AM
131	Open up our mom & pop shops! I live in a small town of 1000 people and our entire local economy are small businesses. They are suffering right now (even with the partial Phase I reopen). It's not enough.	5/5/2020 7:57 AM
132	Not all businesses should have been affected for this long, trying to rely on federal assistance to justify continuing the restrictions was inadequate to the task and showed a lack of concern and responsibility to those who elected them (state representatives in districts, senators who were not pressuring the governor to ease restrictions, call the special session, open up the economic council meetings).	5/5/2020 7:52 AM
133	Reopening plan not clear. Benchmarks for reopening have been moved from concern for overwhelming the health care system, to any excuse to keep closed. That seems politically motivated. Now that characteristics of the virus and its victims are better known, continued favoring of winners (car mechanics, Walmarts) over small businesses deemed non essential on a whim are unfair. Care can be taken to shield people who are vulnerable to the virus, without killing the livelihoods and freedoms of small business owners.	5/5/2020 7:50 AM
134	Some stores such as liquor establishments and landscaping nurseries should be opened immediatly. All this does is push more people to go to big box/grocery stores which are already packed.	5/5/2020 7:46 AM
135	If the state is in the business of picking winners and losers they have done a fine job. The forced closure of many businesses is not only unconstitutional it is just plain wrong.	5/5/2020 7:42 AM

NMBC Covid-19 Statewide Survey

136	Everything should be equal as far as businesses opening and closing. If a liquor store is closed then the big stores like Walmart should not be able to sell liquor.	5/5/2020 7:25 AM
137	Large businesses like Walmart started open forcing everyone to go to the same place making it harder on them to keep up with sanitizing practices. Small businesses had to close which makes it so difficult for them. If small non-essential businesses, that don't put people at high risk like theaters, were allowed to stay open people would have more choices not overwhelming any one place.	5/5/2020 7:24 AM
138	The state has yet to present a clear plan on how it will reopen the economy.	5/5/2020 7:07 AM
139	Mindless, arbitrary policies have created a very unfortunate economic challenge. We are a poor state by virtually any measure. We cannot pretend we are California or a rich state and assume our business community has the financial resources to survive a perpetual lockout. Governor and staff have come across as arrogant and disinclined to be transparent or listen to the impact on the state's economy and businesses.	5/5/2020 7:02 AM
140	There is no reason all businesses big and small could not have stayed open. I found it would have been easy for a small business to control the # if customers in their stores and remind their customers of social distancing. In fact they could have been more successful away this that the big box stores have been. If one person in a laundry mat can perform this for people tp do their laundry, surely any small business could!	5/5/2020 6:57 AM
141	Locally, I have not heard of one official helping businesses or working on a plan for reopening. ABQ first responders APD/AFR still do not have the PPE resources they need. The city did not activate their EOC until a week ago. The Mayor has done nothing to hell out city. There has been little to no TV coverage of officials who do not agree with this agenda. That, is unfortunate.	5/5/2020 6:57 AM
142	I am a small business owner not as affected by the shutdown and I am trying to support other businesses that are affected. We need more testing and people to use their common sense to abide by the masks, rules, etc.	5/5/2020 6:55 AM
143	I am aware that several non-essential businesses continued to operate during the shut-down. One, in particular, was visited on multiple occasions, and convinced visiting state police officers that their work is "essential" to the construction industry. Hopefully, we aren't faced with any similar situation in the future - in the interim, perhaps some education for responsible parties would be useful.	5/5/2020 6:48 AM
144	Small businesses can do the things big stores are doing better	5/5/2020 6:42 AM
145	Allowing big box stores to remain open and small business to stay shut is a dumb move. Closing churches and gun shops is ridiculous!	5/5/2020 6:29 AM
146	Appears to be way more of a power trip than common sense	5/5/2020 6:11 AM
147	Better, consistent guidelines fir business are needed. The excessive payments to unemployed workers provides a disincentive to return to work.	5/5/2020 5:38 AM
148	Reopen New Mexico!!!	5/5/2020 5:18 AM
149	I agree with most businesses being shut down. I do not agree with convenience stores remaining open. We don't need our hair and nails done, we don't need to go to a store that sales over priced products to begin with, we don't need florist, or parks open right now. I don't agree with picking and choosing. I think the only products that should be sold are absolute essential ones. If the local boutique can't sale clothes neither should Walmart. They should be blocked from selling anything but basic necessities in person. Everything else can be purchased online or via curbside pickup. Inside sales should be limited to only those stores that provide actual groceries and household goods.	5/5/2020 4:34 AM
150	Need to get this state opened up	5/5/2020 3:45 AM

180	The despicable Democrats have done their best to pick and choose businesses who can stay open. They pick and choose their friends to continue to earn money, and who ever else can contribute the most to their re-election runs. Does Solandra ring a bell?	5/3/2020 2:47 PM

184	In Chaves County, elected officials are listening to constituents whereas Governor refuses to do so. If fact, the commission she set up in an advisory capacity only had a mayor from Hobbs, no other se representation. I don't know for sure, but I would imagine she only chose democrats. Our elected officials in Chaves County are trying to help this area, but are being somewhat stonewalled.	5/3/2020 1:47 PM
185	Some are allowed to remain open and others not. This is not fair essential or not. Who has a right to say alcohol sales are not essential Or clothes are not essential? These businesses can operate safely just like the big box stores can.	5/3/2020 1:46 PM
186	The state is a world wide embarrassment. My European friends all joke about NM being a concentration camp now.	5/3/2020 12:51 PM
187	Why can we ALL shop at the big box stores and not at local businesses as long as they follow the same guidelines? No one answering that, in fact the question is being ignored.	5/3/2020 12:41 PM
188	They don't care about the businesses only themselves! Infact, these Democrats have shoved all kinds of " Pork" spending into the Covid 19 bills for their own agendas and not for the businesses and people who need help!!	5/3/2020 12:03 PM

191	I own a shop that is open, I instituted no seating and spacing a week before the governors shut down, Business owners understand the balance between the safety of their staff and customers, and the future survival of the business and its future. Most businesses would have made similar decision box stores made... We adapt to change in order to survive. Taking away our choice is criminal. Condensing people into box stores vs allowing them to have more shopping choices was a horrible mistake. Closing liquor stores Nurseries, and small-meduim merchants was irresponsible. It shows the governor was watching NY and California stats instead of what we needed to do as a separate and different state. Re-opening a business 2-4 weeks too late will result in those businesses not reopening ever. I project 20-30 percent of "non essentials shut down will not survive 2020 even if they do reopen.	5/3/2020 11:48 AM
192	With over 64,000 deaths in the United States and more every day, I feel sorry for the businesses that have been impacted (but not Jeff Bezos - he's doing quit well I hear). However, people's lives are more important than profits.	5/3/2020 11:47 AM
193	It's wrong to allow big box companies to continue to operate and penalize local businesses for being open. This is especially heinous when the local business follow all the rules for safe operation. Examples: the shop in Grants, NM, Alameda Nursery in Albuquerque. There is nothing fair about the way small and local businesses have been treated. Many of those businesses will go out of business. This is so wrong.	5/3/2020 11:46 AM

cheats in their elections. (Yvette Harrell) New Mexico only cares about what it can extract from working citizens and businesses to pay for all the illegals they shower with benefits taken from hard working citizens.

199	We are using the wrong metric. It is not essential/ non- essential but safe and unsafe. If a small boutique yoga or exercise center can provide care safely with less than x people, distancing, rigorous cleaning they should be allowed to open. Advise owners on what is needed to be safe. We are painting everyone w the same brush.	5/3/2020 11:23 AM
200	Poorly thought through, and will have lasting detrimental effects. The government is not supposed to be in the business of picking winners and losers. We have made numerous trips to big box stores, coming away each time with non-critical items. Basically, we bought anything we wanted, once we got in the stores. Many employees and customers were not wearing masks. Small businesses really got slammed with the shutdown policies. There was no consistency or fairness, in the way various businesses were treated, and there was never any practical way to enforce the policies implemented by the governor, as they pertained to the larger "favored" businesses.	5/3/2020 11:01 AM
201	Stopping People from safely opening the Business... Walmart open ...50 60 people in the store... Small Business maybe 3 to 5 at a time... This is not right... Who is killing the economy... Governor...?	5/3/2020 10:47 AM
202	Why does MLG pick losers and winners. In my opinion, every business is essential otherwise they wouldn't be there.	5/3/2020 10:36 AM
203	Proper distancing and protective masks - performed correctly - should allow for many of the small businesses that are now hurting because of the governors overreach to be open. The big businesses have an unfair advantage, and there is no reason for it. The governor's political bias is in full view as she allows certain businesses and organizations to remain operational and shuts down others. Planned Parenthood is a glaring example, as they contribute to her campaign and receive preferential treatment from her. Quid Pro Quo. I am a registered Democrat. Will be voting a straight Republican ticket from now on.	5/3/2020 10:28 AM
204	Elected officials do not have ANY right whatsoever to dictate to a business owner to stay open or closed.	5/3/2020 10:27 AM
205	We should be getting back to normal. I think the government needs to spend money on education for keeping clean, NOT going to work sick or sending your kids to school sick. I think that should be their major focus. I think they should congratulate families for staying at home and learning to be families again. I really like that part: families are learning to be families.	5/3/2020 10:17 AM
206	More intent on controlling and power than worrying about businesses and citizens.	5/3/2020 10:12 AM

213	Oh you mean the winners and losers game that MLG played here in NM. Our businesses were already suffering and see this as the nail in their coffin. Bouncing back in NM after this will be next to impossible in NM. New Mexico will definitely be needing NMBC to fight for them.	5/1/2020 11:27 AM

218	I can't be politically correct and answer this question.	4/30/2020 2:20 PM
219	Ridiculous shutdown for the number and concentration of cases in New Mexico. Complete overreaction and pandering to crazy Dem politics. Horrible decision making. The stay at home order should be in the Navajo reservation and the pueblos which have the large number of cases. Further the cancellation of the Festivals/Markets without even trying to manage the events is overreacting. Worst Government in the entire country.	4/30/2020 1:16 PM

222	The Governor's orders are arbitrary. Her practices are unfair and inequitable especially to small businesses. Small businesses can practice the social distancing measure even better than the large big box stores. They beat up the little gut while allowing the big stores to continue making revenue. How is it fair that Big R can sell clothes along with feed and yet a mom and pop Fed store in Portales gets an illegal cease and desist order to close because they sold clothes? They weren't breaking any laws. Or how is it gun stores are made to close when it was deemed an essential service by homeland security? The infringement upon individual rights by the Governor's orders are nothing short of Communism.	4/30/2020 11:53 AM
223	I think their policy has forced too many folks to be in too few stores, thereby defeating the ultimate goal of distancing.	4/30/2020 11:18 AM

233	Numerous small businesses should have been able to remain open along with the big box stores. They could and can see that safe distances are maintained along with limiting the amount of customers at one time. Also require masks and gloves are worn, at all times, by employees and employers.	4/29/2020 3:54 PM
234	This is a pandemic. The state is protecting people from themselves and honoring the Preamble of the Constitution. It is saving gun toting purported patriots from dying of stupidity	4/29/2020 3:42 PM
235	I believe, as noted above, many businesses should be allowed to operate in a responsible manner. A suitable exit strategy using forecasted scenarios with broadcast to the public would be helpful. 237	The Governor seems to have made up her mind about how things should continue. She needs to take "lessons" from surrounding state governors who have come to their senses about starting up everything again. New Mexico cannot survive her "policies" anymore.	4/29/2020 3:09 PM

240	Communication has been greatly lacking. Businesses were given no warning regarding a shut down and as a result no time to prepare for the challenges they would be facing. There has been no direction given in regard to reopening.	4/29/2020 2:29 PM
241	Many businesses could have remained open and installed personal safety measures for their guests. Now many businesses will go out of businesses because of the Governors simplistic approach to curb the spread.	4/29/2020 2:23 PM
242	The opening seems to be political, the republican governors are opening sooner than later. The democratic governors are opening later than sooner. This is absolutely the wrong approach. 250	Any politician who is collecting a paycheck (Governor, Mayor, Senators, Congressmen/women) during this disaster should not be allowed to formulate ANY policy regarding folks not collecting normal pay -- especially business owners! My rule would be that when NM is "fully open (her personal preference, obviously)"; then they could resume getting a paycheck (no backpay either)! That would solve this crap when these folks have to do without! Especially the governor AND her cabinet! This place would open so fast your head would spin! She needs to be asked one simple question for each and every stupid decision. "Show me where the scientific evidence is or the facts you relied on to make that decision?" She is power hungry and the truth is she has no actual facts.	4/29/2020 10:39 AM

They have very tough decisions to make, with lots of risk involved. Nothing is going to be perfect, especially in unprecedented situations. Certainly some processes could be better, but what I see is state has been responsive to unexpected issues and worked very hard to resolve them. These are hard working people doing the best they can under tremendous pressure. As New Mexicans we need to support them as well as encourage them to continue to improve systems and processes.	4/29/2020 8:10 AM

273	Small businesses were discriminated against big box stores. Sm businesses have less chance of infection than large box stores. No indication of infections at large stores, despite the volume of people. So what was the real motive? Destruction of our small businesses. Sm businesses provide large per centage of revenue to our state. It's difficult to understand why it's okay for Wal Mart and Target to sell clothes but a mom and pop feed store in Portales gets shut down because they sold some clothes. Or why grocery stores could sell plants but the local nursery is shut down? How unfair is that? The arbitrary decisions give a perception of inequity and bias. All businesses and stores could have remained open by taking proper measures. In areas of concentrated virus then isolate. 1	She's power hungry	5/18/2020 9:35 AM
2	Her decisions are arbitrary and only seem to follow what other blue state governors are doing. She is doing great harm to this states small businesses from which many may not recover.	5/18/2020 9:02 AM
3	There should be a recall. From her mismanagement of the State Budget to the un-Constitutional takings of personal liberty and property the grounds for impeachment are wide and varied.	5/17/2020 7:35 PM
4	She has waited until cases are on the decline in all but two counties to institute face masks. That's like shutting the barn door after the horse is gone. Her response has been poorly conceived from the beginning. This state is not a one size fits all. In Grant county,we have had exactly 3 cases in a month. Yet we have had the same restrictions as Bernalillo. bad move governor.	5/17/2020 6:27 PM
5	Using a "one size fit's all ", for NM doesn't make sense. Look at the individule counties and base decisions on threat of spreading on a more individule basis.	5/17/2020 11:06 AM
6	Initially, in the early stages of the pandemic, she seemed to be proactive while information was just beginning to be made known. She acted decisively according to what was being Mandated at the time. However, as the pandemic has gone on and more complete information has emerged, including the economic consequences, she seems to be all about Partisan politics rather than the health and quality of life for New Mexicans. She chooses legislation rather than education. An example of this action was in closing state parks and fishing lakes. Initially, this seemed reasonable for the protection of employees. Now, it is very apparent that sunlight is active in destroying the virus and New Mexicans need to have time outdoors especially when indoor options are limited. At the Federal level, closing USFS pit toilets resulted in human excrement and litter in our beautiful forest. Why the extended closures?	5/17/2020 10:59 AM
7	I understand and hope that she's doing the best she can, unfortunately as mentioned this is not the best approach	5/17/2020 9:06 AM

13	Governor Wuhan is wallowing in all her self-appointed power. She's stomping on New Mexicans' constitutional rights and we need to do something about it. Look at what Wisconsin just did. They took their stay-at-home, fear-based, anti-constitutional "law" directly to their state Supreme Court and the law was overruled. New Mexico needs to do the same thing before she completely destroys the state.	5/16/2020 8:49 AM
14	She is arrogant, caters to the far left, she wasted millions in the last session on her pet projects, now she is making local businesses and families suffer while she holds out for fema \$ to cover her butt, and then adds even more ridiculous rules like wearing masks everywhere ..WTH??	5/16/2020 12:13 AM
15	The Governors press briefings have had the delivered tone of an elementary teacher talking to young children. I feel very "talked down to" when listening to her. I believe this carries over directly to her personal perception of the understanding & education of the people she is addressing. She doesn't think we are smart or capable enough to recognize the gravity of this pandemic and take care of our businesses in a smart manor to protect our clients, staff and ourselves.	5/15/2020 11:16 PM

20	We need a new governor. Someone who respects the people and engages their willing cooperation. Not a dictator that bullies and threatens. For decades our state has been seriously behind the rest of the country in health care, quality wages, quality education for our children and crime prevention. All we do is spend, spend, spend and nothing changes. We are practically a third world country, compared to other states, in the most prosperous nation on earth . Every bordering state to New Mexico does better than we do in all these areas. We are usually at the top metric for bad things and the bottom metric for good things. The state moto "it grows and it goes" is a pathetic joke. We're not growing or going anywhere. Look to the leadership. In all fairness the voters need to think before they automatically vote the party line. Why do New Mexicans keep putting people in office that keep us where we've been for decades? The voters need to wake up. Remember the definition of insanity. You keep doing the same thing over and over while expecting a different outcome. The governor enacted policies her counterparts in other more populous states enacted and I believe they were largely unnecessary most of the time. I think she took what she thought was the politically safe route instead of doing what was best for our state, as have many other governors and mayors. We will see what the voters think when she (and other governors and mayors) come up for re-election.	5/15/2020 5:05 PM
21	Although the virus is horrible, and we do not wish for anyone to die. I feel the reaction has been excessive. Our state's overall positive number are less than one percent of our population. Our death toll is even a smaller fraction of one percent. Relative to question #5, I think even small businesses could have remained open with the same restrictions as big box stores, and it would have lessened the economic impact to our state, and likely the virus numbers would remain similar. I understand the need to manage health, but with health, we must also manage the economy of our state. This is the piece where I feel the leadership was poorest. I appears as if the most challenged in our communities were not considered at the same level as all, especially those in the larger population areas of our state.	5/15/2020 4:57 PM
22	Gov Lujan acts as if she is everyone's mother not the governor. Certain counties have had little to no problem with COVID yet they have had to shut down destroying the economy and mental health. She has disregarded the state and federal constitution and seems to think her authority is next to God. The science contradicts the use of masks for healthy individuals yet it is required. Such absolute and transparent agenda driven governing. She is single handedly destroying NM.	5/15/2020 4:25 PM
23	New Mexico was lucky an was not impacted like New York city, but the Governor closed down the state and the media feed us fear and panic twenty-four-seven when the number really are not there. I believe its shady practices of her Governor to not open New Mexico especially when this is a poor state, people here depend on their jobs to put food on their table to feed their family and most people that got send home when this started still have yet to be paid, When the states is getting \$39,000.00 for every COVID death. So now any death is a COVID death. People have lost their jobs, they are going to lose their homes and pensions. Small business were supposed to be bailed out and that never happened, the governor should have been doing something so these small business didn't close but no she wanted to shut the whole state down for some deaths when we will never know the true number. The Governor wants us to wear face masks...when there is a shortage of N95 masks (if there is a tight seal) the only thing that will come close to stopping a virus and why would I wear a mask like this when a health care provider on the front lines could really . But no she wants to rule with force like China when this is the home of the free and the brave. Let the sick and the people at risk hide and let everyone else go back to work. The government was supposed to do things, protect our orders and protect us from natural disasters. We don't stop driving because someone dies in a motor vehicle collision and they kill 45,000 people a year. But when under 200 people (supposedly) had died from this virus the governor shuts the state down for another 2 weeks and through a bunch of regulation at business and people. For What? What is she gaining here? Is it to make New Mexico an even more poor state than it is right now?	5/15/2020 3:53 PM
24	The Govern does NOT understand anything about business's period. She has said she is a policy maker. Big Deal! That doesn't help business's or the unemployed. Has never had to meet a payroll: Her paychecks have always been from government jobs. Keeps saying we are all in	5/15/2020 2:57 PM

this together, but she has not given up her \$13,000+ every month. I also believe that those that do not wish to wear a mask or stay at home is their God Given Right. Just hoping MLS is a one term governor!

36	Spent the oil surplus, and now what? Oil is at \$29 per barrel, and rig count is at a new low. Where are the revenues going to come from? Increased taxes?	5/15/2020 12:49 PM
37	She should have made the offer to share in our sacrifice either through refusing her paycheck or not having her hair styled, or some other symbolic move.	5/15/2020 12:25 PM
38	Business people and all New Mexicans are not stupid! We do NOT need to be a nanny state. Government is, as usual, the problem not the solution.	5/15/2020 11:03 AM
39	I don't envy her position. She is damned if she does and damned if she doesn't, but she needs to stop saying she is basing her plans on the "data" as she keeps making decisions that make no sense and follow incorrect trend indicators	5/15/2020 10:59 AM
40	There are so many unknowns and there are so many problems getting response from the federal govt. I think she has done the best she can. In our town we have a large elderly population and her responses have been important for their safety. We're lucky in that we've only had 15 cases for over a week. If the federal govt. would come through with the testing we need in the rural areas we'd be in even better shape.	5/15/2020 10:35 AM
41	Oil and Gas has brought New Mexico into the budget fiscal black. There seems to be an attack on oil and gas which would be a detriment in state revenues. Tax and regulation increases on small business is harmful. Open all the State Parks and Lakes... Allow people to breathe in the fresh outside air for mental and physical health. NM needs the revenue that State Parks will generate. At this point, every dollar will help.	5/15/2020 9:45 AM
42	The governor did a great job of shutting down the state quickly, which I believe helped slow down the spread of the virus. Right now I feel as if her actions opening the state are not fair. Our numbers are significantly lower than other states that opened sooner, with the majority of our cases in the northwest and Navajo nation. Big box stores have been packed with people. If she would have opened up smaller stores sooner I think it would help with social distancing. Also, limiting church capacity to 10% while allowing 20-25% in stores is not alright. What is the difference if all are now required to wear masks and churches ensure they are following new	5/15/2020 9:44 AM

NMBC Covid-19 Statewide Survey

protocol? I also think it's ridiculous that people are being cited for working out in parks while maintaining at least 6 ft of space between each other.

43	The shut down has been devastating to the New Mexico economy. We could do so much more by allowing businesses to open, with appropriate protections and protecting those most at risk, and taking care of those infected. New Mexico is going to have to increase taxes to cover the shortfall that this shutdown has created. We are a poor and sparsely populated state that can ill afford higher taxes and the economic impact that a continued unnecessary shutdown has created. Many parts of the state should reopen while others (e.g., McKinley County) should remain shut down. The shut down of the entire state is just not warranted. You are going to have large populations of the state relying solely on unemployment benefits from State coffers that are going to be depleted.	5/15/2020 9:23 AM
44	New Mexico is a poor state. The decisions made by the Governor and other elected officials will have a grave impact on the economic future of the state. These officials are just following the playbook of other Democratic officials. Extending stay at home policies in the guise of decisions are based on science and data is a false narrative.	5/15/2020 8:49 AM
45	There is no law giving the Governor the right to take away the constitutional rights of American citizens. We all have the right to remain open if we want, just as we all have a right to stay home and not patron businesses if we are not comfortable doing so. Its called freedom.	5/15/2020 8:39 AM
46	It appears from her guidelines that the Governor has a personal or political agenda. Our numbers are low and declining for CV and we hit the benchmarks SHE posted to open phase 1 on May 15th and then she moves the markers. And the grapevine says this is her intention throughout the summer Also, I have personal friends who are small business owners who have still not received any money or their stimulus check (single mom) or unemployment. Our state is built on small businesses and for what reason she keeps dragging her feet, I cannot figure out.	5/15/2020 8:37 AM
47	I see absolutely zero regard for the damage being done to the overall welfare of the general populace of this state and the nation in general. Elected officials, once again, making decisions that they have no expertise to be doing such. This is a FLU !!!! Now there has to be a cure.....c'mon, there will never be a cure. There may be a vaccine but that is a hit and miss at best. you've succeeded in putting this state and country into a panic. Many many many people are suffering. When this chapter comes to a close there will be much greater need than anything a "nanny" state can provide. I'm disgusted that my country has been allowed to go this far down this road !!!!Government, once again, will over promise and under produce !!!!! Get a clue people !!!!!!!!!!!!!!!	5/14/2020 9:55 PM
48	She is using the people of this state as pawns in a dangerous government game. One I hope she will not win.	5/14/2020 9:48 PM
49	may this evil bitch and her family rot in hell where they belong.	5/14/2020 8:42 PM
50	Her leadership is lacking. She has some political agenda that is unknown, otherwise she would do what is best for the people of NM. Our numbers do not warrant the response she has forced upon us. Also, I would like to talk about masks being forced upon us when they are unnecessary and filled with germs! People are breathing in their own CO2 and they are not blocking much! There are no guidelines for washing and sanitizing them and how often they need to be sanitized and with what! She wants toddlers to wear them and APS is now saying that teachers and students will all need to wear them and that will actually cause more illness. Students in elementary school will lick them, chew on them, their noses will drip into them... Do you think they will be washed every night?? Teachers will not be able to be heard properly or correct students when they are trying to teach them the proper way to say certain words. Oh, there are so many issues with the masks that have not been addressed.	5/14/2020 8:01 PM
51	Can't kill small business. Altogether that pays a lot of tax. They can never come back if they close.	5/14/2020 7:38 PM

53	I felt she did the right thing until the last couple of weeks!	5/14/2020 7:10 PM
54	She picks and chooses who can open. The scientific numbers now for the virus don't justify the severe lockdown. Her mother's doctors is not an expert either. He keeps saying we need a vaccine and there isn't even a vaccine for all the Covid type viruses. There will be more damage done by loss of businesses than the virus itself. By the way, where is Michelle hope in her green bills she sign to pick up the slack in the oil and gas revenue that's gone? Even if	5/14/2020 6:58 PM

marijuana was legal, the tax collected wouldn't even be a drop in the bucket to help how bad we are in the hole now.

55	The Governor should have frozen and/cut government jobs and required paycuts of government bureaucrats. She should not be picking winners and losers among businesses. Churches should be allowed fully open; taking reasonable precautions of course.	5/14/2020 6:53 PM
56	MLG is not considering the effects the shutdown has had on the small business owners in New Mexico. We should have focused on helping the Four Corners area and NM nursing homes. According to New Mexico Department of Health, there are a grand total of 10 coronavirus cases in my 87122 zip code! I do feel we need to respect the potential for the coronavirus to spread quickly but we have been doing a great job of social distancing, washing our hands and refraining from touching our faces. All of that behavior needs to continue but it is up to individuals to do that, not the government. We are responsible for our own safety and that of our family. We don't need a dictator!	5/14/2020 6:46 PM
57	What is best for New Mexicans is to work and go to school and keep the economy healthy. Mental health and safety of the residents, especially children, has been forgotten. The small business-restaurants, salons, gyms, shops, etc are being decimated. We flattened the curve and need to go back to living and developing herd immunity. No guarantees a treatment or vaccine will ever be developed and only a percentage will get a vaccine. The only answer is herd immunity.	5/14/2020 6:45 PM
58	Worst decision maker	5/14/2020 6:43 PM
59	In Grant County, Small businesses are even more vulnerable. We know of several that probably won't ever make it back. They would have, if we didn't have this last two week stay at home provision. These are spas and restaurants.	5/14/2020 6:26 PM
60	She started out good. Got ahead of the problem. Set good boundaries for flattening the curve. But now it seems like she's just on a power trip. The curve was flattened and the peak had come and gone. People die every day - it's sad and tragic but we can't destroy all of our businesses and jobs for 200 lives. How many have died of the flu? Cancer? Heart disease? Suicide? She's got to lighten her grip.	5/14/2020 6:23 PM
61	Her initial fervor was understandable but her use of questionable powers since then has gone too far.	5/14/2020 6:22 PM
62	Our governor has behaved like a petty tyrant willing to trample our constitutional rights; she has shown a penchant for pseudoscience and social control.	5/14/2020 6:18 PM
63	The governor's tone has been one of a parent or teacher trying to enforce a rule that may or may not work, but will be enforced anyway. She used the word "Behave" as if we are her subjects and are not adults but kids. The governor works for US, we don't serve her wishes. Her rule making needs to be more measured rather than admonishing.	5/14/2020 6:12 PM
64	The governor is not making well rounded decisions based on data in the state. Our state has very low infections, which I'm thankful for and in part do believe was because of the swift actions she took at the beginning. However, we need to further open up or at least allow all stores and retailers to open at the same percentage if certain protocols are put in place. Why do retailers get to be open 25% capacity, yet houses of worship only 10%, especially if they adhere to CSPs? Salons can easily open up at low levels of capacity and adhere to coronavirus safe practices.	5/14/2020 6:12 PM
65	She has been baptized in Washington politics and they just don't work here. Her advisers are also steeped in Washington politics and don't seem to care about the small towns and the rural ramifications.	5/14/2020 6:09 PM
66	The whole State is being punished for specific areas(3 counties) which have big virus issue	5/14/2020 6:03 PM
67	She makes us seem like children!	5/14/2020 6:00 PM
68	Progressive ideals do not reflect any of my ideals...she does not care to hear what anyone other than her supporters care about...right to life, oil and gas, taxes, 2nd amendment rights, constitutional rights...respect for our 3 countries putting forth Gabe Ramos...rather than her groups forceful push for one more progressive voice against the majority...etc	5/14/2020 5:51 PM
69	The governor is playing the dictator. She is using power that she really does not have. And I can hope that she is either impeached or loses the next election.	5/14/2020 5:49 PM

70	She is a fool and a simple-minded puppet of the Deep State. She is in the position of being Governor because she uses the name Lujan and has too many uninformed voters supporting her or, more specifically these voters are on the dole sitting on their ass and simply want a handout.. We are a poverty state because of incompetent so-called leaders similar to MLG.	5/14/2020 5:24 PM
71	In most areas Grisham's plans were an over reach and obviously unfair.	5/14/2020 5:19 PM
72	I CANNOT wait to get her out of office. I believe she is more worried about getting the VP position with Biden (or brownie points with the democratic party) than she's about New Mexico economy and its Future.	5/14/2020 5:04 PM
73	She has once again shown her disregard for the position she is putting her constituents into. She has wrecked the economy. And, in the better part of NM...for no good reason. She has walked all over the Constitution...both the State and U.S. Constitution. Our rights to assembly, freedom of religion and our second amendment right to access to firearms have all been violated by her actions and mandates.	5/14/2020 5:03 PM
74	The governor seems to be going overboard considering the number of cases that are mainly concentrated in certain areas. I feel this state will never recover.	5/14/2020 5:02 PM
75	Her decisions support her desire to propel herself further in the political arena. Not the welfare of the states population.	5/14/2020 4:33 PM
76	Raising taxes on people in an economically poor state, spending surplus from last governor on raises for staff, shutting down small business while allowing big box stores isn't good government.	5/14/2020 4:23 PM
77	PURE POLITICS HERE! I sure hope people will remember this in 2 years.	5/14/2020 4:21 PM
78	The Governorator blew through all the substantial cash reserves that had been accrued under Governor Martinez. Now our major source of income--oil and gas- have dropped though the floor due to the virus pandemic and the world wide glut of oil. Now what does Grishom do to balance the books--she will raise taxes one more time on a state that has some of the highest taxes in the Union.	5/14/2020 4:16 PM
79	The governor has the health of New Mexicans at heart.	5/14/2020 4:16 PM
80	Open the state up for everyone and all businesses!	5/14/2020 3:59 PM
81	She has done an excellent job. As far as the mayor Carlsbad and the sherriff's. I think they read too much into conspiracy theories and do not understand the science behind the stay at home orders. Their job is to protect citizens and they're basically calling for civil disobedience.	5/14/2020 3:48 PM
82	The governor is trying to protect us! And the no one understands that.	5/14/2020 3:39 PM
83	She is a horrible governor and i pray she will not be elected again .	5/14/2020 3:37 PM
84	It's pitiful, clearly she has over corrected. The current orders in place will continue to kill our beautiful state's economy. Meanwhile she sits on a throne of power that she is abusing and leaves law abiding citizens powerless.	5/14/2020 3:21 PM
85	I believe the governor is thinking about the safest way to keep things going. She cares about the people. However, I do feel that she could open things up gradually in areas with less cases. Unfortunately so many people in Eddy County are not following recommendations anyway that I am not sure they will follow the safest protocol for opening up.	5/14/2020 3:12 PM
86	She's stuck in her mansion not the real world.	5/14/2020 2:56 PM
87	I think she's doing a good job of explaining her response to covid. So on that part I give an A. But her lack of sympathy towards businesses that are struggling & closing is nonexistent. She sympathizes w the sick, dying & first responders! She should acknowledge the business that have to close or have permanently shut their doors. So I give a D on that part.	5/14/2020 2:45 PM

other far left wing governor's/states in an attempt for higher political office. She can not go away fast enough.

91	Governor Lujan Grisham has trampled our rights as guaranteed by the constitution.	5/14/2020 8:40 AM
92	Our governor is out to make a name for herself and will try to stay tyrannical for as long as possible. She is power hungry and only wants to dictate to her "subjects". She is in no way concerned for New Mexicans or the economic health of our state. She makes no sense, talks to us like she scolding children, and worst of all, is not upholding the Constitution or the rights of the people. That is her sole job. Her job is not to protect my health, that's my job. Stick to the Constitution and not limiting my freedoms.	5/14/2020 6:55 AM
93	Very awful leadership.	5/14/2020 12:26 AM
94	The governor doesn't feel for the people that lost everything I don't see any of the government officials losing anything they are getting their full pay without skipping a beat.	5/14/2020 12:19 AM
95	Governor Lujan Grisham has already blown through the entire NM State budget and the reserve, and now wants to take the nearly \$18 billion Land Grant Permanent Fund in order to help the state shore up what is projected to be a huge revenue shortfall driven by the novel coronavirus pandemic. Grisham spent more money on her pet projects in her first 4 months than the needs of the people and communities in NM. Grisham insulted the people of NM when she stated that some businesses will close permanently. Grisham's Red Flag law is against the American Citizens 2ND Amendement Right.	5/13/2020 7:13 PM
96	All she cares about is her wanting to be in higher office, the VP spot. She absolutely does not care about new Mexicans, our businesses, our well-being, our future!	5/13/2020 6:21 PM
97	The absolute worst	5/13/2020 6:18 PM
98	I think she was irresponsible from the beginning in going on a spending-spree and paid little heed to those much more knowledgeable, like John Arthur Smith. I have yet to see any help for the oil and gas industry, though they pay for much of the budget. I can only hope that these restrictions end soon, so even those who may be infected can go in the sun and eliminate the virus and the legislature can convene and remove all the raises for government employees and programs and that those entities can tighten their belts a little, as the rest of the citizens have had to and due to the restrictions. I also love the way the Governor and Sec. of State have gone after my corporation as of 04-15 and threatening me over a mistake my accountant made if the formation of said corporation. On top of this, I've had pneumonia for months and really don't have time or energy to deal with her trivial attack.	5/13/2020 4:36 PM
99	We have all been educated very thoroughly which has been extremely important. But we are not children Dash we have new rules to live by and we have to get back to work.	5/13/2020 3:51 PM
100	she's acted stupidly, guided only by political values. She has no business pushing her partys political agenda on the citizens of the state. This idiocy needs to stop immediately.	5/13/2020 3:41 PM
101	she's taken a vindictive tyrant approach	5/13/2020 3:18 PM
102	It's not an easy decision given the national landscape and discourse so I won't downgrade her for taking measures no harsher than most other states. But her lack of responsiveness, empathy, communication, and outreach makes her look like a dictator. If you're going to take the measures she's taken, she needs to communicate with the business community more often and on a one-on-one basis from time to time. This is her job and she needs to do it for the people she represents. She doesn't just represent the pandemic. She represents all New Mexicans and all the business interests of all New Mexicans.	5/13/2020 3:08 PM
103	I am one Democrat who WILL NOT be voting for her ever again.	5/13/2020 2:31 PM
104	Tyrannical. She was elected to serve New Mexicans, not rule them. This is a matter of educating citizens of the virus and precautions and getting govt. out of the way. Paying unemployed persons more than their working counterparts is despicable. Paying illegal aliens with taxpayers dollars is criminal.	5/13/2020 1:36 PM
105	She should be impeached.	5/13/2020 1:14 PM

110	The governor is a Democrat puppet she is not good for New Mexico	5/13/2020 12:37 PM
111	Governor Lujan Grisham seems much more concerned about how she is viewed by the Democrat Party's national leaders than how her policies have impacted her constituents. She seems to have forgotten that she works for the people of New Mexico. She does not rule the people of New Mexico.	5/12/2020 1:46 PM
112	The policy or decision that the entire State was not able to begin to reopen at the same time with the same Preparation/Phase 1 and Phase 2 opening strategy has been confusing and has led people to simply leave one area and travel to another. All golf courses should have been allowed to remain open as long as they followed safety protocols. Health and Safety should be priority number one but I feel this could have been possible if the Governor had brought the small businesses on board with a Health Matters Campaign that would have allowed them to promote health and safety in their businesses and in the community instead of shutting them down and forcing to spend their time trying to access funding and PPP loans and dealing with unemployment claims. Thousands and thousands of hand sanitizing stations, face masks, PSA billboards, supplies for the Navajo Nation, boxed lunches and more could have been provided for the same amount of money that is being spent to deal with the consequences of shut down businesses and loss of revenue. The long term effects on our economy are going to be devastating and I do not know if we will ever be able to recover. I do understand that COVID19 has presented incredible challenges. I do understand that these decisions were made based on an unknown virus that has caused death and worry for our entire county and that every Governor, Mayor, Public Official and Community Leader has been trying to respond to a situation that is complicated and has life or death consequences. I do think that closing the schools and immediately encouraging long term healthcare facilities and nursing homes to go on lockdown was a wise decision since the protection of our children, youth and elderly populations should be a priority in a situation where so many outcomes are unknown. I just feel that shutting down some businesses while allowing others to operate just caused division and hardship for many and I feel it could have been avoided. Instead of feeling like "We are all in this together" the message became "Some of us are in this together but not everybody".	5/12/2020 1:26 PM
113	Her decisions on certain businesses do not make sense. Power hungry control.	5/12/2020 12:25 PM
114	As the administration of Governor Lujan Grisham takes increasingly radical action to decrease the spread of the Coronavirus, small business owners (and the families of those working for these businesses) are at or nearing a point of no return. To put it bluntly: The governor's decisions are destroying the livelihoods of hundreds of thousands of New Mexicans New Mexico is one of the least densely populated states in the country and yet we have mandates from her office that are as strict as that of highly populated states, and her policies are holding our economic, social, and spiritual well-being hostage. The business that supports my family, and my employees' families, is facing a very high probability of closing (after 31 years of serving our community) if these restrictions are not lifted, or at least reduced, very soon. I know I am not alone in this. It seems that it Michelle Lujan Grisham's mission is to destroy New Mexico's small businesses and push our already poor state into further dependence on government programs. National box stores, convenience stores, restaurants, and breweries are all allowed to have revenue streams with modified operations and occupancies during this time, while the majority of other small businesses go without income. In addition, our governor has closed state parks and golf courses. So more people are crowding city parks and packing national chain stores. Isn't concentrating crowds of people into limited spaces the opposite of what she says she's trying to accomplish with her policies? Furthermore, people of the Four Corners are driving to Colorado, Utah, and Arizona to fish, golf, and hike, while still responsibly practicing social distancing. Our governor's policies are not stopping people from engaging in these activities, she is simply sending New Mexicans across state lines to spend their money elsewhere. Michelle Lujan Grisham says "We're all in this together." But as I look at the effect of her excessive restrictions, it truly seems that many of us are being asked to sacrifice	5/12/2020 11:12 AM

everything, while government officials go on collecting paychecks and are asked to contribute nothing! Michell Lujan Grisham puts up the argument that if we challenge any of her Coronavirus restrictions, we are putting profit over the lives of vulnerable New Mexicans. This is complete and utter garbage. Small business owners do care about those who are vulnerable to this virus, and we do not take this issue lightly. But we also care about the hundreds of thousands of New Mexicans supported by small businesses which are on the verge of financial collapse. I wonder if Michelle Lujan Grisham is prepared for the statewide devastation of foreclosures, evictions, repossessions, and bankruptcies that will unfold when the debt collectors are set free to come after small business owners, their employees, and their families, when she finally gets around to easing restrictions. Many New Mexicans are fighting for their lives and well-being financially, emotionally, physically, and spiritually... And not because of COVID-19, but because of her extreme policies. My hope is that this letter gets the governor's attention, because very small businesses (like mine) will not survive another extension of her overzealous restrictions. Most businesses that have fewer than 10 employees don't have high-powered lobbyists that work to protect our interests – we rely on our elected officials. Our small business economy is dying and it seems that she couldn't care less! Governor Michelle Lujan Grisham, please do the right thing for New Mexico and reduce these insane restrictions now. Allow all small businesses to operate in a responsible way at reduced capacities, reopen our state's outdoor spaces, and stop sending recreation dollars to neighboring states. Small Business Owner and Concerned Citizen of NM

115	Glad she acted quickly to shut state down, it has lead to lower numbers. Better to be firm in our lockdown, than pander to those wanting businesses and services to open in exchange for some of those this federal administration thinks are expendable.	5/11/2020 9:06 PM

131	Governor G has been very much like a dictator in in her communication to the public. Threatening the people of Grants, giving a citation to a pawn shop owner who was using the distancing guidelines and cutting off Gallup. It has been extremely revealing to see what things she has done. I'm more aware than ever how easily our constitutional rights are taken away with the banner of "for our safety" The virus is dissapating and our numbers are low. People need to get back to work.	5/8/2020 8:22 AM

133	During this scary COVID19 problem it doesn't make sense that Walmart, Target, big box stores remained open but small businesses, (Mom and Pop shops, businesses restaurants) Salons, etc. but Churches, Restaurants, couldn't, Here in NM, like they don't know how to handle social distancing and everything else? Also: it makes no sense, "Yes go to your doctor to ER, Urgent care, get tests done, whatever is needed, as needed (especially for someone like me, a Senior, with Asthma more susceptible to COVID) no way I will go, I don't care what they tell me!) but you can't visit a patient in the hospital at all, since the beginning of lock down, not even one person at a time, once or twice a week, someone, children that are younger, for a patient that had hip surgery, broke their hip, with dementia, almost 80 years old, lost, not sure of what's going on, or a person who had a major stroke, 68 years old, taken to the hospital (as in my family, both in my family) that one family member at a time can not be allowed in to answer doctors questions, to comfort their parent, assure them all be ok, hopefully, prayers are being said for you and we love you???!!! Also, no information at all can not be given to Emergency Contacts listed, over the phone, because of the Hepa Law???!!! To me there is something very wrong with all this, there is absolutely no common sense being used at all nor normal human compassion, caring or understanding!! We are not robots or animals(and even some animals care and compassionate), no, we are human beings, some of us faithful to a God who answers prayer, faithful and true!! This has gone way too far, not just in New Mexico but in several States!!! It points to something going on, between directions from the CDC, the Democratic Political Party, (maybe even some republicans), including most democratic Officials, Governors, etc.(not all) that is even scarier than COVID19! Also, in all this, very dangerous convicts are being let out of prison and what is the first thing many of them are doing? (you answer that one) Something just doesn't fit, in other words, there is something very wrong with this picture! Another thing, "keep working if you have a job and you don't get laid off or let go, that's fine." I repeat, the picture, the picture is wrong. Especially, Bars, Casino's, at the beginning of the lockdown, could stay open???!..Nope, it does not fly right with with me! I'm sure it flies fine with greedy, money hungry, popular vote, democratic officials and probably some mis-guided republican ones,(deep state officials) in charge though!! Secret agenda? Not really, it's not a secret anymore, it's plain as day!	5/8/2020 5:11 AM

135	She tells us to close up shop, demands we stay at home, but shows up with a nice fresh haircut and pretty nails, while we are all going wookie waiting for anything to open. She demands only big stores be open, when the little stores really need to be open to support the owners and their employees to help our state budget. She doesn't seem to spend time talking about the repercussions or closing everything at a time when oil has crashed. She seems capable of focusing on only one thing at a time, to the detriment of everything else. I don't think we will be able to remain closed until therer is a good vaccine without inciting riot or lots of civil disobedience because she just ignores the pleas from the state. She treats the whole state as if we are two and incapable of taking care of ourselves or accepting the risks.	5/7/2020 2:32 PM

137	This governess should be ashamed of herself! How embarrassing for New Mexico to have someone like this in office! Who does she think she is getting dolled up and hair done but the public can't? We are not her little puppets that she can play with. People's eyes are being opened up and she is being exposed for who she really is! Open up New Mexico now! Many people are already starting to stand up for their rights and using civil disobedience in Defiance against her! We the People will win! She works for us we do not work for her! Those who voted for her shame on them!	5/7/2020 10:01 AM

140	Corrupt	5/6/2020 10:41 PM
141	Comrade Lujan Grisham's policies have supported her own political agenda and have absolutely nothing to do with "what's best" for New Mexicans. She is not God and she is incapable of saving anyone. The "area under the curve" was over-hyped from the start, but the fact remains that the area remains the same no matter how long you draw it out. We are merely extending the timeline, trampling freedoms, and eroding the economy on the whims of the Governor and her unelected (aka appointed) secretaries.	5/6/2020 6:51 PM
142	She has been dismal in this situation. She over saw the DOH when she was Sec of Health and did a very poor job for the community and citizens of New Mexico and she is still doing a poor job. She is being controlled by Bill Richardson and George Soros and not listening to the people of this state. It took Grisham longer to institute any guidelines than it did for the President to start travel bans or any for the other steps he has taken. She is just part of the MOB to try to tear down the Constitution and the current President. The politicians both state and federal are only trying to pad their own pockets on the backs of the working people. A large percentage of the politicians have never held a real job and had to make business decisions. State and federal politicians follow the guidance of people with money. Put in term limits and lower the pay and see how many of them are willing to run for office.	5/6/2020 6:51 PM
143	She is punishing the citizens of this state by picking and choosing what when and where we can be it is against our civil rights and the constitution she needs to resign immediately	5/6/2020 6:27 PM
144	She is a total joke. Ranks high on the incompetence blue state chain along with Michigan, Maine, NJ, CA and NY governors that all have high tolls and insist on hurting the citizens of their states with draconian rules based on NOTHING.	5/6/2020 5:28 PM
145	People and small business people are intelligent and do want the best for our state. We will all work together with the set rules and WILL be able to follow them. Our state is different from NYC et al Our cities are different from NYC et al and those considerations should be accounted for.	5/6/2020 8:55 AM
146	She has taken numerous actions that are harming the state. New and higher taxes. Restrictions on freedoms and the attack on the ability to do business. The oil bust was going to cripple the state's bloated budget, but now, it's going to be impossible to regain any normality.	5/6/2020 6:35 AM
147	Time for govoner to resign	5/5/2020 10:39 PM
148	She's bankrupting the state. Small businesses are dying. The oil and gas industry is what feeds us and it's at a standstill.	5/5/2020 9:56 PM
149	Our state was not in a good position before the virus and now even worse. Do what's right for the people of this state and not your political gain.	5/5/2020 9:51 PM
150	Wouldn't it have been a good thing to have our state surplus in these tough economic times? The spending spree is a huge problem for our state.	5/5/2020 8:57 PM
151	The governor's decisions have not been good. She does not look out for the best interest of everyone. She needs to think of the people that are barely getting by and should not be giving her staff raises at this time.	5/5/2020 8:47 PM

154	I provided comments in a Letter to the Editor of the ABQ Journal that was published today, May 5, 2020. In summary: Too little attention to the economy. No evidence of a willingness to take prudent risks. One size fits all -- all counties, all citizens, etc.	5/5/2020 6:28 PM

157	We must not rush to judge our Governor, desperate though we might be as businesses trying to survive. I say this as a non-partisan. She has been pro-active, communicative, and careful to the extent possible, from everything I have observed. I do think, however, that the definition of "essential" in stipulating which businesses and trades can continue under the lockdown has	5/5/2020 3:51 PM

NMBC Covid-19 Statewide Survey

been too fuzzy. And the scale and provenance of businesses are unfairly weighted toward large enterprises with national headquarters out of state. While I do not feel individually that this has put me and my business at a disadvantage directly, the pain and frustration of other entrepreneurs are justifiable. This part of the Governor's approach should have been conceived in finer detail and explained completely and transparently. I also would like to see transparency in the Governor's formation of the business advisory group she has assembled to craft a reopening strategy, along with their activities and data.

158	All Democrat Governors are executing the same policies dictated by someone higher in their Party.	5/5/2020 3:46 PM
159	She has trampled on both state and US Constitution from day one. She is just a puppet for the democrat party puppeteers. Her decisions only support those who are pulling her strings! She needs to be GONE!!	5/5/2020 3:16 PM
160	As I watched the Governor of New York's daily TV show it was easy to guess what was coming next for New Mexico. About the only similarity for most of the two states is the "New" in the name yet the same blanket responses were applied to both.	5/5/2020 2:50 PM
161	Her analysis did not take into account the number of deaths that would happen because of her restrictions due to a multitude of reasons like suicide, depression, loss of job, delayed medical care, domestic abuse. There are 2 sides to every model. No risk analysis was done for other than COVID and we saw how inaccurate those models were. You quarantine the sick not the healthy.	5/5/2020 2:33 PM
162	In the beginning I believe her decisions were adequate but once more information was available there should have been a look at the economy involved and small businesses and areas where there is minimum people and an ease to keep people apart should have been addressed. Golf, lakes, parks. Anything to help restore the economy along with keeping people safe. We all have choices to protect ourselves from the virus and those of high risk with fear factors will protect themselves as a choice.	5/5/2020 1:10 PM
163	it is extremely obvious that MLG has a bias to large corporations and does not support small business. I am a small vehicle dealer and she has had all of us independent dealers shut down for six weeks.	5/5/2020 1:07 PM
164	Just like her mentor, Bill Richardson, she adopts her "leadership" from CA and NY. Consequently our restrictions have mirrored what is going on in those two states. There has been no tailoring to the unique different areas of the state. S Dak would have been a much better model to follow. She says that in order to reopen we need the data and science to support that decision. However, her data (propaganda) published daily is a joke. There is no way it can be used for decisions or even an opinion. It lists the number of positive tests, number recovered, and number dead but the numbers do not even come close to adding up. If you are positive it means one of 3 things, either you are dead, you are in the hospital sick, or you are not ill or recovered. The total of those should always add up to the total positive. We never have info on hospitalized. We get a new total positive every day but no running percentage of positives out of all tested. The percent positive would give us an indication of whether we are going up or down. We could figure this out ourselves every day but so could the most inexperienced reporter that had passed mid-school math. However without the missing link of the number hospitalized we have no way of knowing how we stand. The number of negative tests is published every day but is a totally useless piece of info as far as how the state is doing on combating the virus. Just because you are negative one day does not mean you will be the next day, week, or month. The only value of the figure is to compute the percentage of positives out of the total population tested.	5/5/2020 12:57 PM
165	She has been absolutely horrible! She doesn't care. She still gets a salary, looks like she's getting her hair done. Probably hasn't had to wait in lines to get food or had to go without toilet paper! The worst governor!	5/5/2020 12:08 PM

168	I think opening small stores should depend on whether they sell essential items or not. Small stores that have essential items DO have the same rules as "big box" stores and I don't appreciate any organization that continues to perpetuate the myth that small stores are being treated differently. 169	She acts like our mother hen, our community doctor, knows what's best for all everywhere in NM	5/5/2020 10:04 AM
170	Initially the reasoning was sound. Worry about overwhelming our state's limited hospital beds/ventilators was real. Now that we know that is not happening and we also know that hospitals, doctors, and dentists are being seriously harmed by elimination of most procedures not deemed emergency,, all our health care facilities should be opened up. We are in serious danger of losing what retail and restaurants do serve our rural communities. As GRT is the lion's share of what NM municipalities use to pay for fire, police, and public works, isn't it logical to assume that the businesses that generate the GRT be considered "essential"??? It is time to get everyone back to work and have all restrictions lifted.	5/5/2020 9:45 AM
171	MLG must consider each county's situation, not one size fits all! The County Commissioners and City Councils should regulate the response tot he virus. Unfortunately, though, the Mayor in Gallup sided with the Governor, and a disaster is at hand for people in NW corner of NM. When there is no running water/indoor bathrooms/no drinking water/no disinfectant wipes in home/stores, the situation is a health crisis for all living in the area. Tragically, this situation been allowed to fester as long a NM ha been a state. MLG should address these problems in the legislature immediately! Closing down the area is not helpful unless solutions are provided to the issues mentioned above.	5/5/2020 9:24 AM
172	"All" New Mexicans is the key phrase. Areas hard hit by this virus need to have stricter controls, but the smaller communities that don't have nearly as much virus are being handled the same way and that is not right. And to fine a small business is ridiculous. She's only asking for that business to close.	5/5/2020 9:21 AM
173	Please give New Mexico a chance and listen to US! re-open.	5/5/2020 9:11 AM
174	She is not a governor of the people and she over extends her authority frequently. this view did not change with the current pandemic. The worst though is that we has a huge budget surplus and she still wanted to raise taxes and fees. That surplus was wasted and now we are looking at 10-15% budget cuts. Budget cuts are never easy, but they are sure easier to swallow when January and February were not full of frivolous spending. Also, she showed no respect for the industry which made the surplus possible. I will give her and her administration one positive comment. When the Federal Government failed our Pueblos, Tribes and Nations (again) she stepped in. I only hope that it was not too late. The Native peoples of our state deserve much more respect and opportunity than they have been given.	5/5/2020 9:07 AM
175	The governor obviously is out of touch with her constituents. She doesn't seem to understand where the revenue for our state comes from. However, this was the case before the "pandemic" was used to finish off our economy in New Mexico.	5/5/2020 9:06 AM
176	She's a typical politician with her own agenda of what is best for her. She doesnt care what so ever about the state of NM or those of us that live here. She is partisan agenda driven not get my state out of last place in most categories driven.	5/5/2020 8:56 AM
177	A bit high handed and ignoring constitutional restrictions on government actions.	5/5/2020 8:55 AM
178	I believe the Governor is using her position to get name recognition. The scientific data does not support her actions. She has doubled down on New Mexicans several times. This is neither good politics nor smart leadership. When she "eased" some restrictions in the state, she failed to announce that it did not include Cibola and San Juan Counties. At the time Cibola had only 58 cases in the county. I believe this was a direct action taken against the county in response to Grants Mayor Hicks.	5/5/2020 8:46 AM
179	Finally a Governor that does what is best for New Mexico and not the special interests or "good old boys" who have corrupted NM politics for decades.	5/5/2020 8:39 AM
180	I think MLG has overstepped her authority nearly every step of the way. When approached by counties with plans to open sooner, she doesn't even answer them. Her communication is more like a 2nd grade teacher scolding than that of a compassionate leader. I don't believe she listens to anything that comes from conservatives, and in fact, I think she does the opposite to spite them. If she were a REAL leader, she would listen to everybody and do what is best for the state, area by area. I couldn't be more disappointed in the way she has raided the permanent fund, hindered the oil field, and increased her paycheck.	5/5/2020 8:37 AM

181	This little tyrant needs to go. She has done nothing but destroy New Mexico. She's a fine example of government over reach.	5/5/2020 8:36 AM
182	If she had kept her political bias at bay it would have been really excellent. Of course since the state is massively Democrat she is just playing to the masses.	5/5/2020 8:28 AM
183	Unfortunately, her decisions have revealed her political aspirations rather than an understanding of a capitalist economy that is based upon open commerce. It's become more apparent she is a politician towing party lines and not a disruptive leader with new ideas to move New Mexico into an independent state able to sustain its economy without the need for federal assistance. Sadly, we New Mexican's have to endure more of the same ideology that has kept us at the low levels of economic activity as has been our history since inception.	5/5/2020 8:26 AM
184	She is destroying this state. I cannot wait until she is out of office. I vote.	5/5/2020 8:22 AM
185	Shutting down McKinley County while allowing illegals to cross over into our state is one of the worst decisions the governor could be making right now.	5/5/2020 8:21 AM
186	She takes her orders from carpetbagger back east. She has no real care for the state only for what she thinks we need.....not what we really need.	5/5/2020 8:20 AM
187	Based on the data and public information, I don't understand how and why decisions were made. A mountain was reacted to, when it was never more than a mole hill.	5/5/2020 8:16 AM
188	People are loosing their life's work and resources. This just keeps getting worse. Keep up the work and the spotlight on the funding of the Unemployment Compensation Fund. The Governor caused this, the General Fund should pay for it.	5/5/2020 8:14 AM
189	She ignores the southeast side of the state but she doesn't mind spending the revenue that comes from that part of the state. She promised she would use some money to fix our roads but that has not happened.	5/5/2020 8:11 AM
190	MLG has selected "essential" donors to her own cause/agenda	5/5/2020 8:11 AM
191	This is an issue of health, economics, and our constitutional (our natural) rights. Only health has been considered and the governor got that very wrong.	5/5/2020 8:11 AM
192	a. Each county in the state should have it's own set of suggested restrictions b. The Bill Of Rights supercedes the State in all but the most extreme circumstances which Covid-19 isn't even close. c. The decisions she has made and is still working out prevent "Herd Immunity". d. Your scale needs to go left into negative numbers.	5/5/2020 8:09 AM
193	Instead of responding with a plan of attack, it seems she has responded in fear. We cannot make decisions of power from a position of fear.	5/5/2020 8:03 AM
194	Instead of supporting and amending rules for the counties that had little or no cases of coronavirus, the governor chose to have the whole state react to what was going on in the urban areas and the Native American regions. She could have saved the southern half of the state. The models were wrong, but there was no adjustment to her reaction to the models.	5/5/2020 8:00 AM
195	Closing businesses for this length of time when data began to roll in about the breadth of infections, the lack of a run on medical facilities, the at risk population being a fragment of the whole, the closing down of businesses in areas little or not at all impacted was egregious and harmful to three times the population that we were supposedly to protect. Further, the governor then went on TV and fear mongered the population into compliance when facts on the ground did not support the suppositions. The state is still relying on models that were not meant to be predictive of anything, only to show where extra logistics might be needed. NM declared a health emergency only after 4 people were tested positive. Per 100,000 population NM has not had a problem, we just chose to act like we did. The economic cost of these decisions has impacted far more than the 144K on unemployment right now. This was all self inflicted by our governor and allowed by our state representatives and senators to continue. Only now have there been calls to ease restrictions, but these calls by our elected representatives are too late, they should have been made 7 weeks ago.	5/5/2020 7:52 AM
196	The governor cannot communicate clearly. Her public addresses ALWAYS need clarification and sometimes goes contrary to what she said. She obviously is using this as a political showcase and mincing words to benefit how she looks.	5/5/2020 7:52 AM
197	Her infamous "breaking through walls" video shows Lujan-Grisham's blatant partisan leanings.	5/5/2020 7:50 AM

NMBC Covid-19 Statewide Survey

Her only "wisdom" is to use demagoguery to persuade the population to support her by playing on emotions. The statistical history of the virus in New Mexico doesn't warrant such draconian measures as hers. The scaremongering is supported by the mainstream media, and people fall in line because of fear and/or social and legal pressure. Not an ethical nor rational approach to develop support for policies.

198	The governor wanted the Corps of Engineers to build a field hospital, and wanted to put a hospital in the old Lovelace facility on Gibson---instead of focusing on the real problems in McKinley County and the rest homes, she micro-managed to close gold courses that had held little threat to spread the virus, prevented hospitals, especially smaller ones, from getting revenue through routine, needed procedures; yet she left abortuaries to do their "routine" work. Gun shops were unnecessarily burdened in violation of their Second Amendment rights and those of their customers. Clear guidance needs to be given to Workforce Management that furloughed or laid off workers who refuse to go back to work when recalled will lose their unemployment compensation. Some of the Governor's strict and unwarranted restrictions unnecessarily infringed on civil rights, especially freedom to assemble, exercise religion, own and transaction weapons, and personal property rights. The appointment of a committee to study issues regarding reopening seemed arbitrary and capricious, and their deliberations should be subject to the Open Meetings Act, just as any other municipal or state agency meetings. The Governor lacked specific consensus from the Legislature and relied on previously passed (2003 I think) general emergency legislation. That legislation should be revisited, and the Legislature should be required to endorse via legislation any specific emergency actions. This is necessary in order to preclude the Executive overstepping their authority.	5/5/2020 7:48 AM
199	The governor needs to be removed. She does not serve the people's interest.	5/5/2020 7:43 AM
200	She could learn a lot from Governor Noem of South Dakota.	5/5/2020 7:42 AM
201	This Governor is all about control, and has no interest in following either the US or NM Constitution. Her destruction of freedom in this state is only equaled in a handful of other states with Democrat governors. It appears her plan an attempt to be another Nancy Pelosi and try to control the elections to an extent that with mail-in ballots, the Dems can cheat and steal the election.	5/5/2020 7:32 AM
202	She is "do what I day, not as I do" governor. She needed to lose the jewelry and suits. Gave totally wrong impression. Not listening to the people of NM. Not making sure families hot stimulus money.	5/5/2020 7:30 AM
203	She is not an independent thinker. She takes her orders from the DNC.	5/5/2020 7:26 AM
204	I think she has done a terrible job as governor. I feel she likes power and does not care about the citizens or the welfare of the state.I'll be glad when she and the rest of the democrats are voted out.	5/5/2020 7:25 AM
205	I think she is letting power rule her decisions	5/5/2020 7:21 AM
206	She is very focused on safety but too conservative with opening. Most of the state that is less affected could already be open with physical distancing requirements. A county by county approach is needed immediately.	5/5/2020 7:02 AM
207	The state elected officials agenda in the last legislative session was all about spending the most amount of money without saving for the rainy day. We had a fairly substantial windfall of money and our elected officials went on a spending spree with out a plan that was articulated to the citizens.	5/5/2020 6:55 AM

213	It is obvious the governor doesn't care about people. This is about doing political damage to the President and the means justify the ends in the governor's mind. It's disgusting and immoral. The illness is definitely serious but this appears to be a trial run for the next time tyrants want to have control.	5/5/2020 6:24 AM
214	Governor MLG is following higher Up DNC suggestions.	5/5/2020 6:11 AM
215	She has never taken into account the rural areas. 217	She did what she could in the limited time she had to prepare for the situation. Was it perfect? No. None of us are though and as a Republican I happily say I'm proud of the job she did and am sorry for the backlash she has taken. There is lots of room for improvement moving forward. 219	The Governor has bankrupt our state. She has overspent and now with the price of oil dropping our state is going to be in trouble financially. There was a surplus of money and she blew it all. She has over stepped her authority by prohibiting small businesses to operate under the same guidelines as large chain stores. She has trampled on the people of New Mexico's constitutional rights.	5/5/2020 2:46 AM
220	She seems to be using this as a political tool. The counties she has kept under lock down were specifically targeted because of their responses to her in the past. She is using a testing window where increased testing would naturally show a rise in infection. She shows little regard to small business as small businesses especially ones catering to the second amendment seemed targeted and could operate by appointment or at as little as 20% capacity and still stay in best practices. She is using neighboring reservations which are sovereign states to increase her reasoning in locking down areas. Her failures at getting benefits to unemployed are staggering and rather than mention anything she seems to political stump when she holds her conferences. She seems to be able to keep groomed when no one else can go to to salon. Her heavy hand at enacting martial law is astounding and quite frankly I see people revolting soon against her.	5/4/2020 10:30 PM
221	She has been working 24-7 since taking office to convert NM into CA as fast as possible - Goals: state, business, and citizen bankruptcy, citizen helplessness and servitude, control and rationing of utilities, food, medical care, education.	5/4/2020 10:07 PM
222	This governor has taken soul power in her hands and has never consulted these businesses for their concerns or anything that might help them out	5/4/2020 10:06 PM
223	The governor has no clue what she's doing. She is purposefully destroying small businesses throughout New Mexico. She needs to be removed from office.	5/4/2020 9:33 PM
224	See comments above. Most of all, I would like to see our state have a business plan to capitalize on the energy as we emerge. I feel there is going to be a strong push to reshore mfg; if that pans out, our state should be there ready to compete for large mfg to come to our state. I miss some of the large mfg facilities we had in our state; Phillips, Siemens, Honeywell, Motorola...although I am thankful Intel is expanding and Facebook decided to locate here.	5/4/2020 9:27 PM
225	The fact that the Governor doesn't communicate with local officials is despicable. Like when she "lifted " some restrictions but when asked directly about the NW counties she gave a long political gobbledygook answer. San Juan County didn't find out they were excluded until after the signed order was released and even then it was buried on page 7. Not only blind-sided citizens but the elected officials of San Juan County and Emergency Management.	5/4/2020 9:24 PM
226	The Governor has nearly destroyed my love for the state so much so that I don't know how bad I want to make it my forever Home. Her overreach in power goes against the oath she took to uphold the Constitution of the United States. She appears to have more of a love for power than anything else.	5/4/2020 9:15 PM
227	Restrictions are being applied in a one size fits all manner; areas with little to no cases and/or	5/4/2020 8:38 PM

deaths are under the same restrictions as areas with the higher numbers.

228	She is a disgrace and the worst thing to ever happen to this state	5/4/2020 8:13 PM
229	She has worked against the state from the very beginning. This pandemic has made her leadership even worse. She doesn't seem to have a legitimate plan. Her decisions are so willy nilly. They make no sense at all. I really think she is not capable of running the state. I'm not sure she can run anything.	5/4/2020 8:04 PM
230	She needs to be removed from office as soon as possible.	5/4/2020 7:56 PM
231	She is Terrorising and killing our State!	5/4/2020 7:38 PM
232	she get getting as much money as she can	5/4/2020 7:09 PM
233	The governor has proven that her agenda is definitely not for the working people. She is among the elites that believe only she knows what is best. The governor does not have a mind for business and has let down those that believe that fossil fuels are the most efficient to lift the poor out of poverty.	5/4/2020 4:02 PM
234	See my previous comments. The legislature should rewrite whatever law is being used by the Governor to impose such illogical restrictions on the citizens and businesses in New Mexico. We all know that New Mexico is an anti-business state, but this situation is illogical and ridiculous.	5/4/2020 2:40 PM
235	She seems to know nothing about this state. Everything she has done seems to be just pandering to those in Albuquerque & Santa Fe who elected her.	5/4/2020 1:40 PM
236	The big box stores have seemingly bought her.	5/4/2020 11:53 AM
237	Governor Michelle Lujan grisham has created a mess for the state of New Mexico she has violated every civil right that we have as a citizen she's stepped on all our second amendment rights which is unconstitutional she has not done anything to help the mom and pop stores are the small businesses within the state of New Mexico she should be impeached	5/4/2020 11:51 AM
238	The first two weeks of the lockdown seemed like an appropriate response given what much we didn't know about the virus at the time. Once we got IFRs from places doing widespread antibody testing, the approach would have instantly, fundamentally, changed.	5/4/2020 11:45 AM
239	Dismal, just dismal! I'm distraught at her incompetence and destruction she has caused of the State's economy.	5/4/2020 11:43 AM
240	Nothing that has been done was supported by science or common sense. It has been one vindictive arbitrary and capricious over-reach after another.	5/4/2020 11:38 AM
241	She has an agenda that is very dangerous to our rights and freedom. Totally an agenda against the 2nd. amendment.....	5/4/2020 10:57 AM
242	THIS GOVERNOR IS NOTHING BUT A POLITICIAN WHO CARES LITTLE FOR NEW MEXICO AND SET ON THE DESTRUCTION OF IT'S ECONOMY.....SHE IS INTERESTED IN THE GREEN NEW DEAL THAT SHE KNOWS LITTLE ABOUT. SHE HAS DRIVEN OUT OIL/GAS AND COAL WITCH WAS CHEAPER THAN ANY OTHER ENERGY SOURCE.....THIS WILL BE A PROVEN FACT IN TIME BUT WILL PROBABLY BE TO LATE. FUNNY HOW SHE COULDN'T WAIT TO CREATE MORE GOVERNMENT JOBS AND NOW CAN'T AFFORD THESE JOBS.....BIGGER GOVERNMENT WAS NEVER THE ANSWER BUT AGAIN SHE IS IGNORANT OF FACTS AND REALITY. GRISHAM WILL BE PROVEN AS ONE OF THE WORSE GOVERNORS THIS STATE HAS EVER HAD.	5/4/2020 10:56 AM
243	I would like to support the overall performance of the government under Gov. MLG, but I can't. Coming from rural New Mexico I feel like this government has left us behind.	5/4/2020 10:29 AM
244	The governor is looking out for what the democratic party is suggesting. I don't feel that she is representing the state of new mexico the way she should as a governor which is what is best for the businesses in this state whether they are essential or non essential as well as the working public. I feel that the non essential should have been left open and followed the same restriction as the essential. Also the continued stop of vehicles and airplanes not operating is killing the oilfield business which is what mine and my husband business is and is a big part of New Mexico and our economy. We are crude oil drivers and everything is filling up with oil and no where to put it because we are not using it. Most states are opening up and you might want to go look at the new CDC numbers that I am following. Stating that originally over \$60,000	5/4/2020 9:51 AM

NMBC Covid-19 Statewide Survey

deaths and now that number has been cut in half because there were deaths being reported that weren't COVID 19. Seems to me that there is more to this situation than meets the eye. All this began after the impeachment didn't happen and we also have an election on our hands this year. WAKE UP PEOPLE OPEN THIS STATE BACK UP! She is definitely not looking out for the best interest of the State of New Mexico and businesses she is looking out for the Democrats and the ones in her ear.

245	She should be removed from office along with Fullfer	5/4/2020 9:40 AM
246	She is the reason to recall the guillotine.	5/4/2020 9:35 AM
247	She seems to be doing ok for the New Mexicans that it physically affected.....like Albuquerque. Las Cruces seems to be ignored. I do have to say that if someone could have done better they should have stepped up.	5/4/2020 9:02 AM
248	Refer to my previous comments. I know that the state is contacting employers to find out if they are interested in getting their employees tested for the virus. I am interested in finding out what the purpose of the testing is and how that information will be used to get everything going again. The company I work for sent a message out about the testing, but got very few "yes" responses in regarding being tested.	5/4/2020 8:45 AM
249	All business should be allowed to function equally. Grisham has killed many small businesses. Very arbitrary as to who is open & who is closed.	5/4/2020 8:05 AM
250	She should read the Constitution and amendments and quit thinking she is more important than those documents The documents are as good now when followed as when written	5/4/2020 6:12 AM
251	It seems now that for the Governor this is no longer about the overall well-being of all New Mexicans, but instead has been a demonstration of what she perceives is her power. Typical of liberal politicians, she has consistently shown she has no trust whatsoever in the ability of individuals and their businesses to run their affairs safely, and instead seems to be operating under the false need for her to dictate how we need to run our lives. She also seems to be unaware or uncaring as to how devastating it is for so many New Mexicans to have their lives and livelihoods shut down, nor does she seem to care or understand that for most of New Mexico, covid-19 has not been an issue and her mandates are totally unnecessary.	5/4/2020 5:28 AM
252	The governor came in to office with a surplus which was supposed to be for an emergency fund which she immediately raided for her pet projects, and now, with an emergency and oil revenues decimated we are going to be in trouble quickly. I also do not support her radical agenda.	5/3/2020 11:12 PM
253	The state's budget under her leadership called for spending record amounts of taxpayer's funds and had no provision for saving for a rainy day. The covid19 affect on the economy showed the budget's weaknesses in that regard.	5/3/2020 10:54 PM
254	I cannot understand how people cannot see through the Governors trying to pull the wool over their eyes by her smooth political talk. It's so obvious the deception coming from her	5/3/2020 10:36 PM
255	The shutdown was not only unnecessary, it was harmful to the overall economy and private citizens' livelihoods. We should not have needed government assistance to pay the bills. We should have been allowed to continue working and decide for ourselves whether we stay home or go to work. In a system of self-government, the people have the right to determine how much risk they are willing to take as they go about their lives.	5/3/2020 10:22 PM
256	In sending the state police to do her bidding she, the chief and those officers have violated amendments 1, 2, 4, and 9 in the US Constitution, the US Constitution is the supreme law of the land, Executive orders aren't law and what is being done by sending state police is unconstitutional. I sincerely hope she, the state attorney and state police chief get sued for all they are worth. I'm still looking for that asterisk for a pathogen in the Bill of Rights and I just can't seem to find it.	5/3/2020 9:22 PM
257	GOVERNOR GRISHAM HAS NOT BEEN TRANSPARENT TO US NEW MEXICANS. SHE IS NOT MAKING DECISIONS THAT MOST EDUCATED CITIZENS WOULD MAKE NOR IS SHE LISTENING TO THE PEOPLE.THIS IS ESPECIALLY TRUE CONCERNING GUN CONTROL, IMMIGRATION AND AND PLANNED PARENTHOOD.	5/3/2020 8:38 PM
258	She favors the big-box corporate businesses when we have so many small businesses around the state that are owned by people who can assess the risk to themselves and their employees	5/3/2020 8:25 PM

themselves. If they open up responsibly -- just like the bigger operations, then why not let them??

259	She is a bit brusque for me.	5/3/2020 7:58 PM
260	Even though any governor would have a difficult time trying to control this pandemic. The Governor Lujan Grisham should open based on the amount of known sick people by county. Camping should be allowed as long as the people follow the rules! Boating and golf courses should be open. The testing needs to be ramped way up. The hospitals need to be allowed to treat other patients that have held off having surgeries and other treatment! We the American people can not be locked up for much longer without the cure being worse than the pandemic! We need to get back to work carefully and again based on the make up of the county. The rest of the State will catch up! And I think that the President of the United States Donald J Trump is an excellent president!!	5/3/2020 7:40 PM
261	What a little tyrant.	5/3/2020 5:50 PM
262	She is liberal democrat who sees no problem giving raises to her employees but ignores the will of the people. There was a billion dollar surplus when she took office and now it's all gone. She's ignoring the needs of the Navajo people. She's being dictatorial in re COVID, especially in regards to counties with less than 2 digit cases	5/3/2020 5:30 PM
263	The hot spots still need attention. The rest of New Mexico should be opened up now. Liberal Lying Luhan is all about controlling people (such as in New World Order). All that is unconstitutional. Because of the legislation passed in 2019 & 2020 I am looking to buy land in far west Texas as it is only 15 miles east from Portales. I am moving to Texas!!!!!!!!!!!!!!	5/3/2020 5:24 PM
264	There is a great disparity and haphazard approach to what is deemed exempt and non exempt. The virus knows no difference between a group of people gathered at Lowes and a group of people gathered at a church. As far as the decision to shut school down for the remainder of the school year we will face the educational and psychological repercussions of this for years. A better answer would have been to shut school down for April and May if that was really necessary, which to me is doubtful, and resume school again for June and July to finish out the 2019-2020 school year. I'm a special education teacher with 33yrs experience. This distance learning plan is nothin but a joke. People in this nation should have the right to choose for themselves whether or not they want to take the risk to attend church, go to a restaurant, or shop at a store not be tole by the government that they can't. As Jefferson stated " when people fear the government there is tyranny, when government fears the people there is freedom".	5/3/2020 4:18 PM
265	I do believe the government was given wrong intel and they started out in good faith. But as Hillary said lets not waste a good catastrophe! NM is not a rich state we can't afford the long term collateral damage caused by misguided leadership. I can read and have a good handle on critical thinking. By the 3rd week of this travesty it was painfully obvious the numbers cited were wrong. We should have started to make adjustments then. I k ow of many families that didn't follow the limiting orders and are still doing fine. Though most are now wringing their collective hands wondering where and when money and work will come from. Our son couldn't get unemployment and I'm certain he is not the only one. Some of his fellow work friends are enjoying tje extra \$2400 a month they are getting and will be very hard pressed going back to work...should that opportunity arise again. This has not been lead with scientific and medical expertise. It has been a crap shoot!	5/3/2020 4:11 PM
266	She doesn't seem to listen to what the business owners and people affected by this order. She should be striving hard to get these problems addressed and worked out, not just sending the state police to harass those that are social distancing. I am not satisfied.	5/3/2020 3:49 PM
267	Elected leadership in this state is a joke. We at one the poorest states, one of the worst in public safety, education stats etc et. And we been this way long before this virus occurred	5/3/2020 3:48 PM
268	She is a disgrace. All she cares about is the media attention for her future political desires	5/3/2020 3:40 PM
269	She wants power and is taking it	5/3/2020 3:16 PM
270	The woman is pure political trash.	5/3/2020 2:47 PM
271	Governor Michelle Lujan Grisham governs the state like it is all an urban area. Most of the residents live in rural areas. She has a Washington D.C. progressive agenda, and does not do things in the best interest of New Mexicans. MLG has used the coronavirus pandemic as an excuse to take away the rights of citizens.	5/3/2020 2:41 PM

272	The fact that she played into this nonsense & has become a tyrant is all the support I need for my answers.	5/3/2020 2:34 PM
273	very heavy handed and totalitarian	5/3/2020 2:29 PM
274	The governor had to be sued to have gun stores opened, and even still only "allowed" via appointment	5/3/2020 2:15 PM
275	See answers to questions #1 and #2. We are the poorest state in the country and her policy will exacerbate this downward spiral and may get to a point of no return. We will have to raise taxes to get us out of this budget shortfall. The oil industry has been devastated so GRT and lease taxes will drop to close to nothing and with all the small businesses declaring bankruptcy, I see a migration out of this state as people will have to move to a neighboring state that is open for employment. I am personally moving my family to Arizona as I am a developer and home builder and I see this state going down. I am not going to be trapped in the state much longer. Work will dry up for me as there will be no demand for housing as everyone will be hunkering down with what they have. The scare tactic promotional videos that the Gov keeps producing are devastating to the residents as they feel absolutely no hope. Gov. Lujan is praying on the elderly, the uneducated and the poor and the misinformed. It has been a very evil thing of her to do this with the videos and the conferences to inject so much fear into the populace.	5/3/2020 2:09 PM
276	I feel that Mckinley Co. will bare out that heard immunity will prove its self in the fall if covid 19 resurges. I also feel that this is an extreme overreach on the states part and an infringement on our constitutional rights.	5/3/2020 2:05 PM
277	Our leaders are tone deaf to the very real dangers to small businesses shutting down for such an extended period with little to no warning. To allow large box stores to conduct the same type of sales and services as small businesses which are forced to close is exceptionally tone deaf	5/3/2020 2:02 PM
278	Liberal ideology equals a liberal response instead of a measured response	5/3/2020 2:02 PM
279	Sorry, but I feel that the Governor is being led by Washington politicians and not the State of New Mexico. Our State is in the pits and she is doing nothing to change the direction of the Democratic party that has been running the State for so many years. Show the folks a Democratic-run state that is doing well. The State of New Mexico has been in assistance as long as the State of Arizona. Except for political parties running the states, there should be little difference in their overall outlook. But the state of New Mexico has been run by the Democrats for so many years, and the state of Arizona has been run by the Republicans, and there is a large difference between the two.	5/3/2020 1:46 PM
280	She seems comfortable with her authoritarian overreaching. Absolute power corrupts absolutely.	5/3/2020 1:36 PM
281	Anytime a Dumocrat is in charge we the people suffer greatly and sometimes irreparably. I sure hope everyone remembers this come election time. No mail in voting and no illegal non-citizens voting. Need to require proof of citizenship to vote!!!!!!	5/3/2020 1:13 PM
282	Majority of decisions made by the governor should have been for the good of the state, not her political party. Which she has proven time and time again to be her priority.	5/3/2020 1:06 PM
283	The power was there to abuse and she excelled in using it. She took a 2 billion surplus and pissed it away and now when we need it there is none. Typical liberal/communist/Nazi/abortionist response.	5/3/2020 12:51 PM
284	She forgets she's a public servant. Her office is currently hold closed door meetings, disregarding those most affected by her directives i.e her way.	5/3/2020 12:41 PM
285	The Democrat Leadership is more interested in helping Trump fail than doing what's right for New Mexico. She is pushing Socialism. I think she wants to be VP and she'll throw New Mexicans under the bus to make a good impression on the Socialist Liberal Democrat Party leadership.	5/3/2020 12:31 PM
286	Her leadership is frequently unconstitutional and threatens the rights of all who reside in this state.	5/3/2020 12:23 PM
287	As long as this is only about the Covid 19 survey because if this has to do with anything else like a total leadership overall? then she"Failed terribly" because she goes against everything that has to do with "HumanLife" which she doesn't believe in! She believes that a babies life	5/3/2020 12:03 PM

doesn't mean anything and it can just be destroyed right up to birth Really? So as far as Covid 19, she's done a pretty good job, but other than that, definitely not and she needs voted out!!

288	In the pink store restaurant in Palomas Mexico the restaurant is very large and tables are several feet A part so you have social distance same thing good work in New Mexico	5/3/2020 12:01 PM
289	She started out strong in the face of a huge unknown. Then the political behind the scenes scheming started churning and this is now political. Open the state except where there is a need to restrict things. The financial ruin that is pending can be softened a little. The longer we wait the worse it will be. It will even effect those who sit behind powerful positions and think they will get through.	5/3/2020 12:00 PM
290	How anyone could ever vote for her after she has caused so much pain and disaster in so many lives is beyond my comprehension! People have worked their entire life to have their own business and in one month she rips their dreams from reality and leaves them to deal with it on their own.	5/3/2020 11:59 AM
291	Initial reaction to preserving our hospital beds and resources made sense, but dealing with the overall shutdown will prove to be devastating to New Mexico businesses. The focus should have been to communicate to the elderly and at risk people and those near them to take extra precautions. Poor leadership for businesses to maintain distance without shutting down. It worked for Home Depot, Walmart, Lowes, and large box stores it should have been applied to small businesses as well. They shut down Grants this weekend after it was too late. The administration didn't assemble accurate data collection to make wise and pointed decisions, instead they shut the whole state down. We are 48th in everything and this will prove no different. average thinking not smart thinking. 50% of our Covid numbers were because of Pueblo and Navajo reservation stats. Blanket application of shut down state wide will have a devastating outcome to the economy. A second shut down will be criminal. Governor cherry picked what statutes she would over turn (legal?) and which ones she wouldn't. Inconsistent leadership... Her economic council was filled with large corporate types deciding for everyone else the right way to restart the economy. You leave this to the individual not Board Members.	5/3/2020 11:48 AM
292	Governor Michelle Lujan Grisham is a democrat libtard. She doesn't care about small businesses and she doesn't care about us. She hates President Trump and the Trump administration so much, she doesn't care how much we have to suffer only to show how much power she can wield. She only cares about her family, friends, and people that can help her. Everybody else can go kick rocks. It's a common practice in New Mexico. I hope she is named on one of those DOJ sealed indictments.	5/3/2020 11:46 AM
293	She doesn't care! She is an ego self-serving liberal socialist.	5/3/2020 11:31 AM
294	She has rolled over.	5/3/2020 11:30 AM
295	She is a politician not a LEADER.	5/3/2020 11:29 AM
296	Most of our deaths in New Mexico was in Senior Care facilities and I understand on the Reservations. There was no need to restrict and close business because of that. Inform the people and suggest guidelines and don't overstep our civil rights.	5/3/2020 11:28 AM
297	She dictated how the state would act about this health problem, rather than work with ALL NM citizens. CVD19 has a 98%non-infection rate and only .002 have been hospitalized. OUR 1st, 2nd,4th,10th,and 14th have been ignored and infringed on!	5/3/2020 11:28 AM
298	She is PISS POOR.	5/3/2020 11:24 AM
299	MLG is a communist who will run her State into the ground. She has allowed illegals to pour into New Mexico and she allows them to prey on citizens. She will be soft on crime and allow illegals to commit crimes without consequence. She will be the failed Governor of a failed State that is crippled by unemployment, failed businesses, high taxes from which regular citizens get no benefit and she will do her best to disarm her law-abiding gun owners so they can be preyed upon much more easily. Elections have consequences, New Mexico, and electing a communist has terrible consequences.	5/3/2020 11:23 AM
300	The PHERA states the purpose first and full most is to protect civil rights and liberties of the individuals: The purposes of the Public Health Emergency Response Act [12-10A-1 to 12-10A-19 NMSA 1978] are to: A. provide the state of New Mexico with the ability to manage public health emergencies in a manner that protects civil rights and the liberties of individual persons; It is the Governor's responsibility to not allow fear to be the overwhelming emotion that guides	5/3/2020 11:23 AM

decision making. She must balance that with the purpose of the PHERA. The Constitution is not suspended in a pandemic.

301	Our numbers are low because of her.	5/3/2020 11:06 AM
302	Protecting American citizens from CV-19 clearly should include border security, but apparently the governor doesn't support the concept. She was very quick to withdraw the Guard units deployed to the border by her predecessor. We also need to totally abandon the idea of giving benefits to illegal aliens, including the stimulus checks. While the governor may not be on record of doing this, many in her party support the idea, and this must be resisted. It is unfair to all the lawful immigrants who have entered this country the right way, as well as to taxpayers who provide the money. We also need to squash the idea that criminals should be released from jail, over the "threat" of CV-19 contagion. Most prisoners get better health care than private citizens, and we don't need dangerous career criminals released back into society. We support the Grants Mayor who took a stand against the lockdown. The governor's response to his position, and the position of some business owners in Grants, was completely over the top, and reminiscent of some third-world regimes. If we had a business in Grants, we could set aside a corner of the space, to sell milk, eggs, bread, and some hand tools. Then, we could pretend to be Wal-Mart, Target, Lowe's, Home Depot, or any number of grocery stores. DPS, under the control of the governor, has gone after gun shops, CCW instructors, and by extension, CCW license holders. Since shooting ranges are often outdoors, where social distancing is easily accomplished, classes could be held there as well. The way it stands now, gun-related activities are considered "non-essential," showing the governor's strong anti-gun bias.	5/3/2020 11:01 AM
303	Please see my response to question 1; it applies here.	5/3/2020 10:58 AM
304	Spending money the state does not have, and especially spending in anticipation of future revenue streams over which the state has no control, is irresponsible and reckless.	5/3/2020 10:52 AM
305	Fining Small Business... for trying to open Safely... that's Wrong... locking Down everything ... No regular Medical services... This is insane... Democrats... Killing of America... Just for the New World Order... Satanic ?	5/3/2020 10:47 AM
306	To begin with, she spent the surplus from the last governor. I believe that she basically wants to go green and now with no income coming in from oil fields, they don't know where and how they're going to budget. How's this working for you?????!!	5/3/2020 10:36 AM
307	It is glaringly apparent that Governor Michelle Lujan Grisham holds varying standards for those she perceives support her and her agenda and those she may not benefit from. She does not serve all New Mexicans equally, and many of the disenfranchised are left to struggle.	5/3/2020 10:28 AM
308	Shame on you, Governor Grisham, and shame on your state police for supporting your closures. You should all be ashamed of yourselves.	5/3/2020 10:27 AM
309	The governor has shown the entire state that she is more interested in personal power than the interests of New Mexicans. She has closed small businesses, closed travel and hasn't wanted to adjust her orders as the new information comes out. She can't stop railing against the president this whole time.	5/3/2020 10:20 AM
310	Lujan-Grisham is a worthless governor and regularly over steps and seems to be trying to follow suit with what ever CA does. She only cares about Santa Fe, Albuquerque, Taos and Las Cruces. F**K the rest of the state because they aren't liberal enough for her.	5/3/2020 10:18 AM
311	We should be back to work. Businesses should not have to follow strict social distancing and face mask policies. If they do that, then less people can go back to work. I want to go back to running businesses the way we always had in the past, emphasizing, definitely, the importance of not coming to work sick and keeping your children home when they are sick. The rule is supposed to be they stay home until 24 hours after the fever has broken.	5/3/2020 10:17 AM
312	She's a failure.	5/3/2020 10:12 AM
313	As I said she has all these requirements but ie I was at Albertsons yesterday and at least half the people had no masks and aisle directions were ignored- same at Walmart- should be no mask no entry and stores should monitor customers distancing - I'm really annoyed when 2-3 people behind me in line are in a mask less group and right behind me- I should not have to be the one to turn around and tell them to move back- the store should be managing that - and basically, the governor!!!!	5/3/2020 10:01 AM

319	I agreed with her initial response to "flatten the curve of the rate of infection," but she has moved the bar on reopening and getting back to normal from flattening the curve to elimination of the threat of the virus.	5/2/2020 9:22 AM
320	Her dictatorial methods of inventing law, inflicting unheard of fines, choosing what businesses can open while demanding others closed, her ignorance of the true data regarding the fake pandemic, and her disregard of the wishes of the people she works for all point to a warped and debased mind that cannot be trusted or obeyed.	5/2/2020 4:52 AM
321	Michelle Wuhan Grisham has been a complete disaster for NM. Her socialist tactics punish small business owners and deprive them of much needed income. She stopped all elective medical procedures, yet she allowed abortions to continue unchecked.	5/1/2020 5:18 PM
322	This is just a test run to see how easily they can control their subjects. We're no longer have a government of the people, for the people, by the people. We've gone past the tipping point into socialism.	5/1/2020 4:51 PM
323	Healthcare for COVID-19 is taken care of. Testing is free. People can still do basically what they need. Schools are still teaching kids (via video). Teachers (including my brother) are still being paid. Companies that uses offices also need to step up and figure how to work remotely. The Governor and state government cannot do it all. Is there some inconvenience? Yes - I need to register my car and MVD is closed. But that is not a major problem. Companies need to recognize the world has changed and allow those who can work remotely should. Most office work can be remote. The rest can be done carefully to make sure the workers are safe. Warehouse and food production and necessary factory work obviously cannot be remote. Provide the workers with PPE. One way is to test workers on at least a weekly basis. A daily test would be best. If the antibody test can be done by a machine with immediate results, that would be ideal. I am a design engineer for medical devices. If such a test machine can be made (the science would need to be solid), then the FDA should fast-track it.	5/1/2020 1:51 PM

326	She is a tyrannical dictator. She thinks all New Mexicans are ignorant and/or stupid and she knows what is best. She's never been a business owner and has no clue what she's doing.	4/30/2020 8:40 PM
327	This seems to be fueled politically and not from a true evaluation of the numbers. Why can't all small businesses be allowed to limit the number of people in their business. What's the difference from a big box store? I see companies posting they will not be reopening ever, i.e. Santiago's, and wondering how destructive this is for the many NM small businesses and our economy as a whole.	4/30/2020 5:14 PM
328	I feel the governor has not shown any significant leadership so far. If there are announcements that could be hard for her to make, she sends others out to take the heat. When someone like the Catholic Bishop in Las Cruces takes a stand, she goes silent. She also needs to understand we are the 5th largest State in the nation, so the reactions to this outbreak are as widely different as our geography. Her approach is "one size fits all", and that is not realistic. It is also time to stop acting like anyone who has a different opinion is wrong, or even worse, evil. If we don't follow like sheep, then we are heartless and wishing bad results on our fellow citizens. Just the opposite is true.	4/30/2020 3:40 PM

everyone follows CDC guidelines, the spread will decrease. I think this is not and should not be that different than the seasonal flu.

330	The first two weeks to a month was ok for a shutdown, but now having the understanding of exactly what we are dealing with the policies must change. The continued shutdown and stay home order is NOT in the best interest of anyone in New Mexico other than the nursing home population.	4/30/2020 2:43 PM

336	she could care less about the people in NM....it's all about her control & how she's viewed by the Democratic leaders in her party	4/30/2020 12:37 PM
337	We need to isolate those who are the most vulnerable: those in nursing homes for example, with medical staff present who does not go in and out of the nursing homes until safe. Proper hygiene, of course, is vital for all of us. The scientific data are there but not told. More scientists need to be heard from. Most of us will experience CoVid19 as a common cold thereby creating herd immunity as they have in Sweden. The fear and anxiety produced by misleading models need to be addressed and relieved; proper reporting of deaths as to whether the deaths were actually caused by this virus is of also of great importance. The shutting down of our economy is devastating.	4/30/2020 11:59 AM
338	Her lack of leadership has put this state in an economic downhill spiral. The perception is she refuses to meet with her constituents. A business plan was devised for the Governor to get the state up and going, but to date she has no plan. Inexcusable. She should have had a plan in place from the start. From what I gather, the people she has had at DOH directing all this are not immunologist or epidemiologist. They are not experts by any means. (This is what happens when such positions are appointed) She does not represent NM. Her orders have hurt this state all in the encompassing goal of saving lives. In the meantime abortions, killing 13 children a day is allowed, while NM constituents are denied health care from chemotherapy to much needed procedures to the point our hospitals are laying off masses of medical staff who will like move else where. Leaving NM with limited medical services and the state being a rural state struggles with adequate health personnel as it is. But she has done nothing to address these concerns. This is a death sentence for our health care but maybe this is how she will push for single payer insurance. Not sure. Her motives are not pure. She is doing nothing to address the budget shortfalls we will be facing starting the next fiscal year. The budget was based on the oil and gas industry which has plummeted due to the Russia-Saudi and likely China game. It was based on 50/barrel and now oil is 15-22 a barrel depending on the day. Despite the Republicans in the legislature requesting she address these issues, she has done nothing. And the Democrats in the legislature have done nothing at all. They seem content in allowing the state to suffer and fail, like our Governor. They are totally worthless. Just like the Democrats in US Congress.	4/30/2020 11:53 AM
339	Too many small businesses are at risk of failure under the Governor's leadership.	4/30/2020 11:18 AM
340	Her decisions have been very inconsistent between small businesses and large businesses. Small businesses are better equipped to handle a slower flow and monitor distancing. Once I am inside a grocery store or big box store there is absolutely NO distancing whatsoever.	4/30/2020 11:16 AM
341	Should be impeached.	4/30/2020 7:07 AM
342	I think she has driven a poor state into further poverty, an uneducated state into even farther illiteracy, and will be driving small businesses out of the state by being one of the last to open. Her committee to describe how to open up doesn't seem to contain anyone but "yes ma'am" people and are very politically driven.	4/30/2020 6:58 AM

many, but that woman takes the cake. I think she's retarded, because you'd have to be the way she's running things. Eddy Aragon saw her work schedule on-line and she's hardly working in the office or for the state or its people at all. She put in 1-hour a week or so ago and she gets paid \$14,500 per month. Isn't it obvious she's not doing her job. Come on, New Mexicans are hurting, get with a program that helps them. She should be putting in over-time to come up with solutions to benefit our state. Clearly she only thinks about herself and her party. That Be-auch isn't going to help her party steal the White House away from Donald Trump, all she's done is piss off good people trying to eck out a living, who are going to vote in overwhelming numbers for Donald Trumps re-election. The only thing I can thank her for is helping him to win, and she's so stupid she doesn't even realize it yet. It's been very, very clear that Democrats are not the party for the people, but the party against the people. Michelle f..ing SUCKS!

346	I am tiring of the platitudes and little room left for concrete policy directives. I understand that this decision tree has no absolutes but i would prefer to see some flexibility in the Governors' day to day response. By the way there are multiple reputable labs across the country that could provide large numbers of antibody and PCR tests and test kits and we see that the State has contracted with TriCore to provide these tests...soon. While these companies are supplying kits all over the country, we wait on local labs, without pricing or quality oversight, to try and deliver tests tomorrow that are available today. Sorry, but that is a New Mexico pattern that doesn't work anymore.	4/29/2020 9:28 PM
347	I do not feel like she sees anything other than what's right in front of her in Santa Fe...the rest of the State deserves to be heard, and not be punished when certain areas act foolishly. If she sees people being stupid in certain cities or counties, lock THEM down, not the rest of us with few or no cases. This one size fits all governance seems most big brother-like to me and indicates a lack of understanding, and insufficient critical thinking...anyone can just pull the plug, but it takes some thought to actually take care of what needs to be done in a thoughtful and efficient manner. Shutting businesses in municipalities/counties with say, fewer than 10 cases, is not only horribly damaging to the small business owner, but as arrogantly ignorant as anything I've seen in my 66 years on earth. Common sense responses have been totally absent and everything has been a knee jerk reaction. Has anyone else looked at this virus against our seasonal Flu numbers on a year after year basis? I have and we kill 30-40,000 Americans per year with common Flu, and nobody bats an eye, or, destroys the economy. What's wrong with our outrageous response to Covid 19, and no response or concern about something that kills 30-40,000 Americans EVERY YEAR! I'm sorry, but I just don't get it. Be careful, absolutely, but destroy the country, NO.	4/29/2020 7:47 PM

but quickly descended into the parent talking to the children. Sadly WE aren't children and her parenting skills are quite lacking.

356	We have a huge fiscal problem on the horizon with no oil money. Legislature/Grisham should have a plan legislators can be analyzing RIGHT NOW. They all do not have to be in the same room but through the internet. She is probably waiting for the Progressive Party directive from outside the state to dictate that.	4/29/2020 3:23 PM
357	I think she is fighting President Trump and his policies/suggestions at the expense of New Mexico. She doesn't care about the little guy.	4/29/2020 3:09 PM

360	The governor took decisive action early on anticipating the worst, which was the correct thing to do. However, the governor needs to develop plans for recovery both physical and fiscal and most importantly inform the citizens of New Mexico what her plans are.	4/29/2020 2:36 PM
361	Her initial response to shut down the state was justified. The goal was to flatten the curve and that has occurred except for two counties in the state. Why should the entire state suffer economically? Our state already struggles on so many levels and the approach she is taking will only set us even further back.	4/29/2020 2:29 PM
362	The Governor's one size fits all has been a death sentence for small businesses in the lower half of the state because many counties that had little to zero impact with COVID-19, but had to adhere to policies in greater impacted counties.	4/29/2020 2:23 PM
363	She has been outstanding.	4/29/2020 2:19 PM
364	First, wasting two surpluses. Second, effectively taking down the business that provided those surpluses. Third, trying to subvert our constitution and bill of rights for her own political agenda, re, 2nd. Amendment rights. Fourth, wanting more New Mexico drivers driving impaired because of her love for marijuana. Fifth, not following federal laws in controlling our southern border against illegal trafficking of humans and drugs. Sixth, using New Mexico taxpayers money for her political agenda to allow human trafficking.	4/29/2020 2:05 PM
365	Again, it's not right the opening timing be based on Political party affiliations. It is very important to get the economy up and running as soon as possible, but safely.	4/29/2020 1:57 PM
366	The one size fits all plan was a failure from the start. We could have left the state open and focused on the hot spots and problem areas: nursing homes, the elder with co-morbidities, the Pueblos. The is just typical of government: forcing everyone into the same mould and failing to address the actual problem. Violating New Mexicans civil rights, encouraging citizens to report on potential violators, fining those who open their businesses, considering universal testing, manipulating the death toll numbers from the virus, flying in helicopters every night with the sick, closing down the hospitals for elective surgery, keeping government pay raises have all contributed to one giant existential threat and failure for the state of NM. I would impeach this governor if I could.	4/29/2020 1:37 PM
367	But then, I knew they wouldn't. It's why I didn't vote for her. She is a progressive bantam hen, who thinks she is the only one who knows what everyone should do and be.	4/29/2020 12:57 PM
368	Our little gov is an embarrassment, and New Mexico has sunk even more in the eyes of out of state visitors.	4/29/2020 12:42 PM
369	Leadership have not modified behaviors based upon updated models. They took the models that were off by orders of magnitude and put restrictions in place. When models were proven wrong leadership never modified the restrictions and it became about control.	4/29/2020 12:41 PM
370	Governments job is to restrain evil, not keep us safe. This has been a huge overreaction, a test run to see how easily they can convert citizens into subjects. Now we're subsidizing unemployment. Rather than subsidizing unemployment, give employees and employers a break in income taxes. That will incentivize employees to work and employers to hire. Stop the stimulus subsidies.	4/29/2020 12:37 PM

campgrounds, etc. is shameful. Business needs to take appropriate precautions with customers and if they don't customers will not return.

372	<p>Clearly, when she signed HB2 she knew the price of oil was down considerably! That in itself was telling, as the budget was based on approximately \$52 per barrel and knowing that the week of March 8th oil was down in the \$30 per barrel range, but still 3 days later on March 11th, she signed the budget anyway and closed the state down the following week. She should be looking at oil production and see how many of these businesses have stopped production and those that haven't are producing at minimal rates. Since 40% of our budget comes from oil & gas how can we fund an almost 8 billion dollar budget up from a 6.1 billion dollar budget a few years ago, if oil and gas revenue dries up? Treating every country, (the majority being rural) the exact same way is incomprehensible as many of them have have no Virus cases or very few. Her idea of picking winners and losers is blatantly unjust to our NM businesses. She should be supporting New Mexico True businesses, the ones that employ and support our local economies. We should always take care of our own family first, and that family are, our local businesses. It is much easier as most of us know, to control how many people enter a small shop as compared to a Walmart or Home Depot etc. She has chosen big box, out of state companies, over her own family. Most importantly, her actions have irreparably harmed the education of our wonderful children some of whom are most susceptible to harm at the hands of their parents/caregivers, who they are now with 24/7. She now expects parents to be their children's teacher, a job that requires years of teacher education & training. How does this fit into righting the wrongs done to children of color as dileneated in the Yazzie/Martinez lawsuit? The Governor should have had an education plan in place in case of such an emergency, in a time where at all cost our state had to keep our children safe and healthy. Most of our private schools had such a plan in place and were able to turn to online learning immediately upon closure of our schools. Our public school students deserved the same. Don't we all agree? She reacted rather than being proactive and isn't keeping in mind the best interest of our youngest New Mexicans.</p>	4/29/2020 12:28 PM
373	<p>The governor has made it very clear that she does not like small business. She is definitely for big business. Shutting down independent vehicle dealers, nurseries, liquor stores, gun stores, churches, car washes and golf courses. Not necessary. Everyone could have remained open under the same restrictions as the big box stores.</p>	4/29/2020 12:22 PM
374	<p>I believe that she has adopted a knee-jerk panic mode with no forethought into the future of what will I believe will be a chronic problem. Do not believe that we can close down the entire state and expect the residents to survive.</p>	4/29/2020 12:13 PM
375	<p>She has failed and is taking advantage of New Mexican by fear mongering them into submission. This is political at this point.</p>	4/29/2020 11:31 AM
376	<p>We are a small business and can do just as well if not better controlling situations as big boxes.</p>	4/29/2020 11:25 AM
377	<p>The Governor has nor looked out for the best interest for New Mexico small business. She has single handedly killed the economy and we will not see the full consequences of her decisions until next year when budgets are facing massive short falls. Also her use of the State Police as her "gustapo" is degrading to the State Police's long history of professionalism and integrity.</p>	4/29/2020 11:19 AM
378	<p>Supporting the "Easter Bunny" on Easter was not a good look for her. Closing all the churches (enforcing Christian Churches in particular) is just plain unconstitutional and I believe, anti-christian.</p>	4/29/2020 11:10 AM
379	<p>MLG's "leadership" has been dictatorial and socialist in nature. She talks down to all as if we are children who need to be scolded instead of inspired. Her decisions prove that she cares nothing for the citizens of NM; only in cementing her total control. If she wanted to save lives, as she professed, she would have halted abortions when she closed everything else in the state. Obviously, Planned Parenthood and the abortion industry in NM have provided MLG with massive amounts of money so she keeps supporting them.</p>	4/29/2020 10:59 AM
380	<p>Worst ever</p>	4/29/2020 10:58 AM
381	<p>Early shut down was good. But designations should be :safe" and unsafe", not "essential" and - non-essential". Parks should be open. All should be allowed to open by 5/15 with safety precautions.</p>	4/29/2020 10:41 AM
382	<p>She is abysmal. She does not have the intellectual capability to be a governor and manage something this complex. She needs to walk around in public (without a mask after being tested weekly) to provide hope for all the citizens. But no, not Miz Bunker. Plus the State Police should not be ALLOWED to be serve as her personal body guards and Gestapo! Don't get me going on them serving as the "SS" for the state either! They have absolutely no business raiding business or fining anyone! Where is the constitution allows this kind of police state? If she cared, she would have true town halls with real citizens (not just the dumb press) allowed to attend. She should have Town Hall meetings across the state of NM solid for one week (or two) and for numerous hours per day to cover as many places/people as possible. Maybe after those events she would understand the citizens she claims to represent! Of course, she won't do that because that would take understanding and more importantly humility, something she doesn't not embody. I can't wait to move out of this state. Sorry to say, because it is the state of my birth, but I can no longer stick around and see the socialist place it has become. Totally depressed that I believe it likely won't pull out of this one, and the voting public here for the most part never seems to get the picture and understand basic constitutional ideals versus what are you going to "give" me. Hard to undo 80 years worth of brain washing. Looking to move red, Conservative.

383	Initial stay at home orders - OK Determining that box stores can follow the guidelines better than small business selling the same products - woefully and arrogantly wrong. Closing outdoor recreational venues - including golf courses, hiking trails, etc. - stupid! One of the best ways to increase immune health is to be out in our sun soaking up that Vitamin D, and getting exercise. Basically closing hospital and medical facilities to all but virus or emergency cases - ridiculous. Those "elective" surgeries that are being postponed - many have the lives of patients in a holding pattern and I'm afraid some of those patients will ultimately face more serious medical problems because of these delays. And how many people have been in those hospitals isolated from all of their support system? Don't get me started with watching our travels through our cell phones - huge red flag there! And they are pitting one New Mexican against another. "Call the hotline if you see a business open that shouldn't be." I even had someone on Nextdoor wonder why there was a group meeting at a home she drove past. She ultimately decided it was Trump supporters rallying against the governor (though there was absolutely no investigation done - it was probably a family get-together for a birthday - or maybe because someone died).	4/29/2020 10:37 AM
384	I understand her wanting to be safe and keep us safe. I personally would not want to be in her shoes; however, I think she needs to start allowing small businesses to open up in a safe and healthy manner. The big box stores have been doing it why not the little guy's? I also think she should allow curb side pick up. I see no reason why people cannot order online and pick it up on the curb. Restaurants are doing it and it is working. Golf Courses is another thing. Open them up. It is open space and I think they can figure out a way to keep it safe for the employees and the patrons. I do support her decision to not allow big sporting events and concerts.	4/29/2020 10:32 AM
385	I feel that the governor in New Mexico has continued this shut down way to long. In the beginning we didn't know much about this virus and I ways willing to stay at home in an effort to help. But now that we have more information about how this is spread, death rates and survival rates. We should be allowed to make our own choices. America has always had risks and pushed through the risks and come out strong, we have never been a country to cave to fear! We are willing to help (by staying home until we have more information) but not lay down and let our dreams die. Many of us (myself included) are entrepreneurs and need to work.	4/29/2020 10:21 AM
386	In an unprecedented event the Governor handled the event very well. Before this event, everything was going very well as well. This was the first time some attention was given to the indigenous nations.	4/29/2020 10:12 AM
387	Her lack of leadership skills are destroying our state's economy and jobs.	4/29/2020 10:01 AM
388	She is doing the best she can under the current circumstances. She didn't create this pandemic, she is dealing with it. I don't see her response as any different than the other 49 governors in this country or for the president for that matter.	4/29/2020 9:14 AM
389	I believe response to this pandemic have been extremely overblown by not just our governor but all elected officials from the president on down. I feel that they all bought into a media hype that has gotten us to the point where they are being driven by how the media will portray them than by what is best for all citizens. They "experts" have been so off the mark in their projections that it would be laughable if not for the dire outcomes that we our and will continue to experience for an unknown length of time.I have let family and friends know my beliefs from the very 1st day, also once it became obvious that the health care system was not being overwhelmed the would not readjust the detrimental responses which makes no sense. the overall percent of people being negatively affected by the Covid-19 Virus is going is going to be just a fraction to the number of peoples lives who are currently and who going into the future	4/29/2020 9:07 AM

continue to have serious hardships. These hardships, I believe, are going to result in more loss of life than the virus will have caused if the are not changed immediately.

390	She just wants the limelight for future opportunities -she is not doing the same walk as the rest of us. Not impressed with her at time goes on.	4/29/2020 9:01 AM
391	Question 5 is disingenuous. It's not the size of the store that determines whether it could be open, it was what they sold that made them essential. But that didn't fit your pearl clutching narrative so you mislead the public to further your own goals. Shameful	4/29/2020 8:53 AM
392	scar mongering does not serve the citizens of New Mexico. Lack of a plan to re-open the state, especially with our neighboring states re-opening will only lead to more hardship for NM businesses and likely lead to NM residents crossing stateliness to spend money and potentially bringing the virus back to NM. We are safer at home (in our home state) than crossing into other states with higher rates of COVID-19 incidence.	4/29/2020 8:48 AM
393	Rather than responding in a manner that focused attention on those areas that were affected and their surrounding communities, she overreacted & blanketed the entire state with an edict that wasn't even close to necessary. Even now, most places that had few positive cases, have no new cases & those who were positive have recovered and therefore, those locations shouldn't have to be doing the same things higher populated counties do.	4/29/2020 8:40 AM
394	I think the Governor's decisions have been sketchy at best on a business by business basis. Many businesses post little or no threat and most business pose a moderate threat, but no worse than the stores allowed to be open. There are a few trades which require close contact and these should be looked at carefully to determine what practical steps can be taken to minimize the threat they could pose.	4/29/2020 8:40 AM
395	Our local politicians know better how to operate the regional areas than our governor	4/29/2020 8:39 AM
396	the Gov takes her Marching Orders from the DEM Party. She does N~O~T~H~I~N~G that is not in complete lock-step with DEMS. She does not have a bi-partisan bone in her body. This is her downfall.	4/29/2020 8:32 AM
397	I read once she stated she is a fiscal conservative - - totally untrue. She is All In for progressive, socialist policies that hurt/destroy NM businesses, 2nd Amendment rights, Border Security, and legal residents.	4/29/2020 8:26 AM
398	The further extension to May 15 indicates that the Governor is not taking the data into account and seems loath to lead us out of this.	4/29/2020 8:20 AM
399	She operates and makes decisions with the filter to position herself for a cabinet or VP position. Which, skews her loyalties to making the Trump administration look bad instead of what's best overall towards New Mexicans.	4/29/2020 8:18 AM
400	So often there is no answer that U want. This whole thing was just a scam to take more of our wrights away. If you want any truth you could read some of the writing on lewrockwell.com, Sardi for one.	4/29/2020 8:18 AM
401	I believe she is trying her damndest to run a very small, weak, and poor government during a global pandemic. None of us could ever know the feelings that accompany that responsibility. NM is her home and she is trying to keep us all healthy, safe, and alive. Keeping suffering to a minimum and flattening the curve seem to be major driving factors in regard to her decision-making and I support that 100%.	4/29/2020 8:16 AM
402	She is a disaster. Has absolutely no plan. All businesses should be allowed to reopen as well as restaurants and hair salons. They can operate as safely as Walmart. We don't need a task force, we just need to OPEN!!!	4/29/2020 8:15 AM
403	Our Governor has done an extraordinary job in a complicated, fast moving, problematic situation, with often inadequate support from the Federal administration. While working as fully as possible with other Governors and the Feds, she has kept her focus on what is best for New Mexicans. She has taken input from scientists and medical leaders, she has communicated, and she has led by example. I am, and my company is, grateful that she has been so very proactive. As a healthcare company, we perhaps have a specific vantage point on the pandemic and we would support the thoughtful, data-driven approach the Governor, and Secretaries Scrase and Kunkel have embraced.	4/29/2020 8:10 AM
404	We need more specific plans based on objectives for "desired state" that include timelines	4/29/2020 7:57 AM

405	Government involvement excessive but electorate irresponsible.	4/29/2020 7:47 AM
406	While stay home order may have been OK for a two-three week period to get our bearings (while closing the government too and big box stores equally), there is NO justification to keep most of the counties, less affected by the virus, any longer.	4/29/2020 7:44 AM
407	The governor is going to drive this state into bankruptcy and put hundreds of thousands of people out of work, some of them permanently.	4/29/2020 7:36 AM
408	People know by now if they're sick they should stay home otherwise everybody else needs to get back to business. We don't need a dictator in a free society telling us how to live. Attorney general William Barr should remind our governor we the people are in control according to our Constitution.	4/29/2020 7:12 AM
409	The response has been difficult to follow given the inconsistency in direction and enforcement. Many industries on federal essential lists are not on the New Mexico list and therefore subject to closure.	4/29/2020 7:10 AM
410	She is destroying our state economy by over spending, keeping small businesses closed, and not letting employees going back to work. She talks to us like we're a bunch of idiots.	4/29/2020 6:58 AM
411	She shows NO support for New Mexicans or the 95% of businesses in New Mexico which are small businesses. Her office does not respond to her constituents, via phone or email. We've been calling for her to forfeit her own salary and donate it to a small business fund, since she took all small business owners salaries, but she hasnt responded at all! On top of that, her department, New Mexico Workforce Solutions has been delinquent in their job duties by dragging their feet in getting their system set up to take and timely process the PUA for sole proprietors etc. Shame on Governor Grisham!	4/29/2020 6:50 AM
412	She is absolutely awful. All she cares about is the VP nomination and will use NM as her step ladder.	4/29/2020 6:47 AM
413	Most people are doing the best they can with the circumstances they are in. She has strengths that are very needed at this time. Everyone needs to quit playing politics and work to benefit everyone.	4/29/2020 6:46 AM
414	Power has gone to her head. There are 50 states. NM will be fifty first (51) state to open up.	4/29/2020 6:41 AM
415	As time passes, decisions are appearing to be more political and controlling, using our safety as a scare tactic.	4/29/2020 6:36 AM
416	You can't treat the state of New Mexico the same as New York and California. Nothing original from our governor, just following what the big blue states are doing.	4/29/2020 6:22 AM
417	In general I think she does a poor job. Now that I see her speak and take action I dont know how she was ever elected to congress. I personally think she is an idiot that is very short sighted and does not look at the bigger picture.	4/29/2020 6:17 AM
418	She has a political agenda! That agenda is not what is best for working New Mexicans.	4/29/2020 6:16 AM
419	From opposing closing the border to the Corona virus response and then extending the stay-at-home order treating New Mexicans like disobedient children in a classroom, it is clear MLG is not gubernatorial material and needs to be removed from office.	4/29/2020 6:13 AM
420	She is doing what she feels is best for NM and she cares for the well-being of the citizens.	4/29/2020 6:12 AM
421	Govenor Grisham has never "served" New Mexicans before the Corona virus, and now even less. Who she is trying to please, is not New Mexicans.	4/29/2020 6:10 AM
422	Inept leadership in not only handling this crisis, but the irresponsible spending prior to	4/29/2020 6:09 AM
423	I dont feel like she cares about New Mexicans. She has wasted our surplus revenue and is power hungry.	4/29/2020 4:42 AM
424	She hasn't done one thing good for New Mexico since she became governor.	4/29/2020 2:34 AM
425	The governor has not led she had dictated. She has not engaged the legislature, she has a complete lack of transparency, she and her agencies are not even on the same page. And she has no plan for the economic recovery of the state and its citizens. She apparently does not	4/29/2020 12:57 AM

NMBC Covid-19 Statewide Survey

have the leadership, management or diplomacy skills to manage all of the impacts that this public health crisis has had on the state.

426	She needs to be prosecuted for Crimes Against Humanity.	4/29/2020 12:21 AM
427	She is trying to be a dictator and I feel it is more than political than for the virus	4/28/2020 11:49 PM
428	The Governor implemented measures that were not legal and violated Constitutional rights. Even during a Public Health emergency the Constitution still stands. Closing down churches on Easter when the number of cases did not warrant such an act, it was very disrespectful. The Governor likely didn't care since she celebrated with an Easter bunny but her disrespect to this community I pray I'll not be forgotten. Sending our State Patrol to implement your unconstitutional orders caused division with the State Patrol and NM citizens. Unconstitutional fines and orders will result in law suits that will not bode well for the governor. The closing of parks and golf courses was foolish. Keeping people inside is the worst thing to do. Keeping gun stores and ranges closed was unacceptable when it was deemed essential. Again this action was unconstitutional. Should have followed the lead of the S Dakota Governor and not close down the state. The Governor and cabinet continue to get paid while many NM citizens are losing everything.	4/28/2020 11:26 PM
429	I think she is doing all in her power to keep NM citizens safe while helping them financially. I am so glad our Governor closed the state when she did and I'm grateful she continues to extend the dates for reopening. I believe our infection rates could be so much higher without quick action and continued caution. I think it's important to watch and learn from other states/countries in order to make the best decisions based in the most information possible. The systems in place for programs such as unemployment were clearly not designed to handle this event, but adjustments are being made constantly to try to process the volume of requests for assistance. They are still being overloaded it seems but they are truly putting in the effort.	4/28/2020 11:20 PM
430	RECALL TIME!!!	4/28/2020 11:18 PM
431	She is a idiot who is power hungry instead of listening to the constituents!	4/28/2020 11:10 PM
432	Get rid of Grisham	4/28/2020 11:00 PM
433	I don't feel like she knows Southern NM exists... she serves northern NM's well.	4/28/2020 10:58 PM
434	She is trying to ruin New Mexico's economy to shine in the eyes of the Democrats and maybe become Biden's running mate. Everyone knows it. To hell with their constituents. With the left, it's all about their power and greed.	4/28/2020 10:53 PM
435	She has stood firm against small but vocal and dangerous fringe groups. She continues to advocate for us with the federal government.	4/28/2020 10:50 PM
436	I believe her career goals and need for power and recognition have hurt NM.	4/28/2020 10:33 PM
437	I feel she is doing what is best for the people of New Mexico.	4/28/2020 10:31 PM
438	Yes, Gov. has continually not been responsive to contacts, press conferences are delivered as if citizens were 3 years old. She has no organizational or leadership skills.	4/28/2020 10:29 PM
439	She spent the state's rainy day fund the first month in office; refused to acknowledge the importance of oil & gas to our economy; now this pandemic has hit and bottomed out the oil and gas production. she should be admitting she screwed up the state's fiscal situation.	4/28/2020 10:22 PM
440	Worst governor ever! She's a little troll dictator who only cares about herself and needs to go!	4/28/2020 10:11 PM
441	The Governor acted early, made the right decision to extend the stay at home order, and is using a sound process to reopen in the safest manner possible.	4/28/2020 9:56 PM
442	Not considering this on the local level is the worst thing anyone could do, this governor is killing more people than the virus would have.	4/28/2020 9:56 PM
443	She is not listening to those she serves, the New Mexican people. We have done what was asked of us and made sacrifices but now we want to get back to work. We see our small businesses under attack. This is not good for our community. We want it to thrive. The virus will be with us going forward but we must find ways to cope and strategies to survive as small towns in New Mexico. The governor is not our boss and she cannot decide what is best for us.	4/28/2020 9:55 PM
444	The Governor's response initially was appropriate. But it's a fluid situation. Not all areas of NM	4/28/2020 9:54 PM

NMBC Covid-19 Statewide Survey

warrant a continued lockdown. Some areas where the outbreak is more acute measures to mitigate the virus should be implemented. A one size fits all approach doesn't serve the state well. My grade of adequate gives credit for the initial response balanced with a less than efficient blanket approach to the situation.

445	The governor has stuck her feet in the ground and will not listen to reason.	4/28/2020 9:48 PM
446	I think she has worked very hard at a tough job to keep people in our state safe, healthy, and alive, in an area that would rather not believe that the disease even exists or would rather live by a rule of "my liberties are more important than your health. If you are scared, stay inside and hide while I get a haircut"	4/28/2020 9:47 PM
447	I am a Patriot and don't want to be controlled by a socialist dictator. She doesn't want any input from citizens who disagree with her and her cronies.	4/28/2020 9:39 PM
448	Waste of a vote.	4/28/2020 9:39 PM
449	She has been actively destroying this state since taking office, she openly rebelled against presidential orders to protect our international border (something that is his job as president), and her crony laughed off any possibility of doing anything toward impeachment. I am also furious over her using cell phone tracking data in this pandemic like a micromanaging psycho mom who just KNOWS her kids are getting into all kinds of evil, when her kids are independent adults.	4/28/2020 9:36 PM
450	Ego and power trip	4/28/2020 9:35 PM
451	She is a HORRIBLE leader !!	4/28/2020 9:34 PM
452	We should not have shut down our economy. There should have been recommendations for those at risk to take necessary precautions and everyone else should have been able to proceed as usual with appropriate hygiene (as should be normal). What we did instead was violate the Constitutional Rights of NM citizens. And at this point it seems more like a power play as things are significantly less severe as originally anticipated.	4/28/2020 9:33 PM
453	She's killing our economy and our future	4/28/2020 9:30 PM
454	She has been the worst governor I've lived through. Can't wait for her to be out of the position.	4/28/2020 9:30 PM
455	She needs to be impeached!	4/28/2020 9:27 PM
456	Her response seems overkill for NM. It does not appear to be well thought out or complex - a one size fits all and if you do not follow me I will make more restrictions.	4/28/2020 9:27 PM
457	She has done nothing for the citizens except cause them mental and economic hardship.	4/28/2020 9:17 PM
458	She said she would not open sections ... but wait to open the entire state at once. Again, most of New Mexico is rural ... and the same threats are not as high as they may be in the higher populated areas of Albuquerque, Santa Fe and Las Cruces.	4/28/2020 9:13 PM
459	Dear Governor, Thank you for making the worst possible state to live in. We rank lowest in education You have bankrupted the state Oh, I see your hair and nails are done.... Voting STRAIGHT RED!!!??	4/28/2020 9:10 PM
460	I do not think she is handling this situation very well. Especially what is happening in Grants. She should have travelled there and handled it directly rather than having a tantrum during her press conference. IT was not grace under fire.	4/28/2020 9:09 PM
461	She has spent all the surplus that was there when she took office and has jeopardized NM's future. At this rate, we will continue to be at the bottom of all the "lists" we want to be on top of.	4/28/2020 9:08 PM
462	Absolutely horrible! Take away her paycheck and her benefits until the lockdown is lifted AND the economy has fully recovered. If her paycheck was suspended, this lockdown would have never lasted this long in the first place.	4/28/2020 9:06 PM
463	This is not California or New York and her perspective needs to keep New Mexicans first.	4/28/2020 9:05 PM
464	So far, since governor Grisham has been in office, she has neither supported what's best for New Mexicans, nor the US Constitution, which she took an oath to uphold.	4/28/2020 9:04 PM
465	She needs to resign. The economy will never be the same.	4/28/2020 8:54 PM

NMBC Covid-19 Statewide Survey

466	She totally ignored health care needs for majority of New Mexicans. Elective surgeries etc. She had no regard or respect for so called non essential businesses by shutting them down. Pitted citizens against citizens by encouraging snitching. As far as budget she has no economic sense at all.	4/28/2020 8:53 PM
467	She started in this ok but then is late to the game with doing anything worthwhile during the first month plus of lock down. And has been too needed from the feds and playing the blame game. Then to discriminate against local businesses is beyond acceptable.	4/28/2020 8:53 PM

1	Our economy is dying	5/18/2020 9:35 AM
2	We are adults and not children that MLG thinks we are.	5/17/2020 10:37 PM
3	I believe the Governor has made us more vulnerable to poverty and death.	5/17/2020 7:35 PM
4	Not enough understanding and compassion for those out of work	5/17/2020 6:09 PM
5	Yes !!! Hold paychecks, bonus, of elected officials until all Others have been paid and have there rents oaid & cupboards are full.	5/17/2020 11:06 AM
6	Poverty results in morbidity more than any pandemic. Open up for business as usual and let the business owners AND patrons decide what is acceptable risk.	5/17/2020 10:59 AM
7	The only people that have not noticed the hardship of income is government workers and APS they keep their paychecks	5/17/2020 10:46 AM
8	Learn about bio-terrain theory, do not advance radio frequencies as well as mandated vaccines. It will undoubtedly ruin the health of New Mexicans.	5/17/2020 9:06 AM
9	Unlock the state. You are ruining our economy, people's businesses and peoples lives. Financial ruin! Thanks for ruining New Mexico!	5/17/2020 1:40 AM
10	Let it run its course.	5/16/2020 6:37 PM
11	Decisions on "essential" vs. "nonessential" are entirely too arbitrary when made on a state level vs. a local level.	5/16/2020 12:28 PM
12	We are a rural state and have few cases in much of this state and believe the governor could have allowed operations in much of the state with the same outcomes.	5/16/2020 11:09 AM
13	I think you guys did pretty well. The state didn't take care of anybody. Just talking and implementing rules after a myriad of business owner complaints.	5/16/2020 10:02 AM
14	Better that we listen to her instead of Trump.	5/16/2020 9:46 AM
15	Thank you for sharing the "other side" of the story of what is happening in New Mexico. The propaganda coming out of Santa Fe is nauseating. Hopefully this other side to the story will come out. Again, thanks for doing this.	5/16/2020 8:49 AM
16	We are broke as a state already, over 200 restaurants have closed for good :(Everyday we stay closed is much more dangerous for ALL of our state than staying clised is helping the very few at risk. Quarantine them!!	5/16/2020 12:13 AM
17	Cease issuing dictatorial orders	5/15/2020 7:44 PM
18	We elect representatives to do a job they need to do their job. Let's judge them when the smoke settles.	5/15/2020 6:14 PM
19	Fire ML-G, and her staff, and stop using the state police to threaten, cite, and arrest innocent people!	5/15/2020 5:42 PM
20	It is ALL Governor!! Where is the legislature? More businesses will permanently close which will be more people than effected than those who died!!	5/15/2020 5:34 PM
21	Keeping people in a state of panic as new optimistic information unfolds is criminal.	5/15/2020 4:25 PM
22	May 16 for public masks? Where was that april 1st?	5/15/2020 4:18 PM
23	Keep up the woodwork. Thank you.	5/15/2020 4:08 PM
24	Let's impeach the Governor because she is doing some very shady here and go back to work New Mexico.	5/15/2020 3:53 PM
25	Governor has killed the economy in New Mexico. We are poor state which just became poorer with her adminstration.	5/15/2020 2:57 PM
26	This was to flatten the curve and help the hospital pressure not eradicate the disease. Should go forward with people volunteering to self distance. We are not children and do not care to be forced to comply and close my office.	5/15/2020 2:54 PM

30	Very disappointed in the states response to Church gatherings. Only 10% of capacity	5/15/2020 1:45 PM
31	The governor went overboard	5/15/2020 1:42 PM
32	Poor poor!!!	5/15/2020 1:23 PM
33	Should have cracked down harder the 1st few weeks? Shut the state down from outsiders	5/15/2020 1:14 PM
34	It is clearly agenda driven.	5/15/2020 1:02 PM
35	Open up areas with the least infections. Do not treat all counties the same.	5/15/2020 12:49 PM
36	Why were liquor stores and golf courses closed? An outdoor activity like golf is the safest healthiest place to spend time. Sunshine is a disinfectant.	5/15/2020 12:25 PM
37	We are citizens not 2 year olds. The Governor behaves like an HOA President with power gone to her head. She should treat her constituents with respect and believe that they are capable. She is driving business into the ground and is making NM on par with the 3rd world. We are last in everything she is assuring that we stay there.	5/15/2020 11:57 AM
38	Need quick testing machines in our area - rural area.	5/15/2020 10:11 AM
39	Common Sense and equality of businesses to be open large or small. People are able (with a small exception) to determine if their health is compromised and social distance is important for themselves. Open our state and all State Parks, not just a limited few...	5/15/2020 9:45 AM
40	Grisham burned through our surplus within like three months of taking office, now she is running our economy into the ground in hopes of getting a bailout from Washington. She has zero regard for her citizens.	5/15/2020 8:39 AM
41	MLG sole goal is to one up the president She and Tim Keller are in a competition to gain national attention and not to keep the fragile NM economy utmost in their decisions We should be allowed to exercise our own safety protections and not be dictated to by ego mongers	5/15/2020 8:18 AM
42	We need to re-open NM now!	5/15/2020 7:21 AM
43	I think the governor is afraid. Afraid of opening and having people get infected with the virus. She is risk adverse. People will get sick but with less than .1 percent death rate, she cannot keep the whole state closed. She has dropped the ball in school preparedness. No plan at all for public school students.	5/15/2020 6:31 AM
44	Open up the state. You have people that are starving and hurting!!!!	5/15/2020 6:09 AM
45	Government overreach and a violation of my Constitutional rights. They made a bad situation much worse.	5/15/2020 12:08 AM
46	MLG is an idiot!	5/14/2020 9:29 PM
47	It has been pathetic!	5/14/2020 8:58 PM
48	I can't wait for election day	5/14/2020 8:42 PM
49	I'm hearing from several sources that COVID19 is being put on death certificates of people who did not die of COVID.	5/14/2020 8:08 PM
50	Please do what is best for the people of New Mexico without regard to what is best for your political agenda!	5/14/2020 8:01 PM
51	May 13th Press conference should let dealership showrooms open w people all wearing masks. Restaurant dining should of opened with same restrictions as prior to shutdown. Did anyone in government work on tips or commission?	5/14/2020 7:38 PM
52	Our governor is doing an awful job and should be removed from office	5/14/2020 7:15 PM

56	No	5/14/2020 6:46 PM
57	Cloth Masks are worthless and give people a false sense of security. Most don't sanitize them, wear them properly and touch their faces more. They are harmful to the wearer for a number of reasons. There is science and tons of experts that agree with me. The state's opinion and science they listen to is not the only opinion.	5/14/2020 6:45 PM
58	Over done. Especially closing all the liquor stores and gun shops .	5/14/2020 6:43 PM
59	They need to quit inducing fear. For example, they warned people in Las Cruces about going to El Paso to dine because El Paso has more cases than Albuquerque. They didn't mention that El Paso has over 100,000 more people than Albuquerque! We are not dumb and we understand statistics and how they can be manipulated..	5/14/2020 6:26 PM
60	The state's response is trash.	5/14/2020 6:18 PM
61	The state should be offering information, advice and encouragement. Not edicts. Trust the people to be responsible.	5/14/2020 6:06 PM
62	I now know how to make a face mask without sewing it myself!!! Hip hip hurray.	5/14/2020 6:00 PM
63	Democratics only want power and control. They do not care about the people.	5/14/2020 5:49 PM
64	Not at this Time	5/14/2020 5:38 PM
65	Dr. Fauci is a criiminal and should be in prison. The actual deaths are exaggerated, and wearing a mask is like wearing a "petri dish" on your face. Social Distancing is a ploy to condition the public to being controlled and will be used to monitor us all, just as they do in Communist China. Dr Fauci helped the ChiComs destroy the economy of the World.	5/14/2020 5:24 PM
66	Protect our 2nd amendment rights. Turn all illegal aliens in to ICE.	5/14/2020 5:24 PM
67	Discrimination against businesses should not be tolerated.	5/14/2020 5:19 PM
68	Constitutional rights should hold the utmost importance and should not be infringed upon.	5/14/2020 5:04 PM
69	I hope we all do well to recover from the virus. We need to do it from a position of knowledge, not fear.	5/14/2020 5:03 PM
70	I felt like this shutdown chose winners and losers. Sadly many small businesses will close permanently and poverty will only worsen.	5/14/2020 5:02 PM

72	Let us get back to work	5/14/2020 4:44 PM
73	Stop the fear tactics. Give simple concise facts! Show the science behind the decisions	5/14/2020 4:33 PM
74	New Mexico primarily is small business owned and operated. It has been terrible to see the governor take no regard to the families of NM and erred on fear and political gain in such an unprecedented time. More people will die of hunger and suicide than COVID-19.	5/14/2020 4:21 PM
75	This is very sad and did not need to happen if handled differently that it has. We all will pay the price.	5/14/2020 4:21 PM
76	Gov. Grisham has acted in a manner of Political Bias, Control, and Power, giving no concern to our Constitutional Rights, to the Economic Ruins she has created and sustained, nor to the livelihoods of Families to be able to provide for themselves.	5/14/2020 4:18 PM
77	NMBC is hampering the good work of the state.	5/14/2020 4:16 PM
78	I think the governor is doing a horrible job. She is acting like a dictator and does not care about the people in New Mexico.	5/14/2020 3:51 PM
79	Tell the Governor she sucks	5/14/2020 3:37 PM
80	Voluntary house arrest, with unclear ending insight. Copy cat governor... NOT a leader!	5/14/2020 3:21 PM

83	Stay safe	5/14/2020 2:56 PM
84	The governor is killing the economy of the state, wittingly, and hoping that she will be bailed out by the Federal government. Her job is not to make laws, but to faithfully execute the existing laws. She has usurped her authority and the people are not bound to obey her. I for one, will not.	5/14/2020 2:51 PM
85	More programs for businesses that struggling w rent etc. bc not all businesses could stay open.	5/14/2020 2:45 PM

104	The numbers used in the counting of deaths from this china virus are extremely inflated. Apparently there is no other causes of death other than this virus.	5/13/2020 4:30 AM
105	Communication needs to be better. The May 15th opening day is 3 days away and here in SJC we don't even know if we are going to be allowed to open and what "Official" CSP's our businesses are going to be required to implement. The more notice and information that we have the better the response will be and the more control we feel we have over this situation.	5/12/2020 1:26 PM

110	It is time to get serious concerning unqualified politicians and the future of this State and America. NMBC I hope you let the hammer down! The working class pays for everything! Wow who can believe this? They have pushed us against the wall this time! Jake Hottell	5/9/2020 11:45 AM
111	Locking down whole state when vast majority of cases in 3 counties or long term care facilities. Why close mom/pop liquor stores, nurseries, gun stores?!! Looks like a political agenda is in play.	5/9/2020 10:57 AM

121	Nothing else, except...I hope you have a clear picture of how I think Governor Grisham has handled COVID19, period! Have a great day! :-)	5/8/2020 5:11 AM
122	Too many Monday morning quarterbacking with from the religious and business communities in NM. Governor Grisham had NM following prevention before it became epidemic. Can you imagine where this State would be without the steps she took. We will never truly know because she took the virus seriously.	5/7/2020 5:20 PM

130	They are promoting a false narrative they are labeling more deaths as covid even though people are dying of other reasons but symptoms are enough without a test to verify	5/6/2020 6:27 PM
131	My neighbor is sitting at home making \$1000/wk on unemployment. What?!?!? Where is this money coming from? As a small business owner I am concerned about my unemployment rates increasing to cover the cost of so many New Mexicans making \$1000/wk on unemployment. Our economy is in ruin!	5/6/2020 4:19 PM

144	NMBC, as always, is doing a terrific job. Thank you.	5/5/2020 6:28 PM
145	It's complete overkill, the restrictions are forcing people into congested areas and increasing the spread.	5/5/2020 6:12 PM
146	The entire state should not be treated equally. Restrictions very well could have been made on a county by county basis.	5/5/2020 4:44 PM
147	For me, it must be all about the science, the data, and caution--not imaginary target dates and public pressure. Stay the course until it's safe.	5/5/2020 3:51 PM
148	The acceptance of the attacks on our civil rights may be more severe than the pandemic itself.	5/5/2020 2:50 PM

150	Thank you NMBC for the proactive work you do.	5/5/2020 1:10 PM
151	The state has overreacted will scare tactics and threats against the peoples civil liberties and would keep the state lockdown indefinitely if they could. The states controlled by Republicans have a much better outcome and will get back to business a lot sooner.	5/5/2020 1:06 PM

163	NMBC I find your work to be balanced and informative. Thank you. As for NM - there is much more to the state than Santa Fe and Albuquerque. We need to help our rural communities instead of treating them as the villains.	5/5/2020 9:07 AM
164	Remove the stay at home orders. Allow small businesses to open. Stop harassing the business owners and citizens of New Mexico utilizing the state police.	5/5/2020 9:06 AM

174	FAILURE COMPLETE AND UNTTER FAILURE	5/5/2020 8:20 AM
175	This entire thing has been a hoax to control us and destroy small business by destroying us financially.	5/5/2020 8:18 AM
176	I appreciate what NMBC was trying to do, but it appears that the the state was deaf	5/5/2020 8:16 AM
177	She is all about money..that's all she was after when she brought in the Native Americans from AZ to be treated in our hospitals.	5/5/2020 8:11 AM
178	Way over the top for the majority of the state-of course, her liberal constituents live in the high population density areas, which have been most affected.	5/5/2020 8:11 AM
179	The governor talks to us like children. We are not stupid. It's become quite apparent that the numbers don't match all the panic. She is killing business mire everyday that she keeps us locked up.	5/5/2020 8:11 AM
180	NMBC should have been out of the gate faster and much stronger on this. I support organizations that are serious and unrelenting about defending our liberties. We are getting much better leadership from Steve Pearce and the Republican party. Where were the law suits?	5/5/2020 8:11 AM
181	Appreciate NMBC	5/5/2020 8:06 AM
182	It seems the leadership is trying to destroy this economy.	5/5/2020 8:03 AM
183	Common sense is sorely needed.	5/5/2020 8:00 AM
184	As mentioned, it doesn't make sense for us to be "closed" when we are obviously open at our borders allowing other states to come in. Further, NE NM has very little cases (Colfax only has 5 and no new cases in over a month) but we are treated the same as ABQ. Let the cities stay shut if that's Where the problem is, don't punish our small towns and rural areas because the metro has a lot of cases. Lastly, when state parks opened on May 1st, it was only a select few (one being Cimarron Canyon State Park). This was an open invitation for people from Albuquerque/Santa Fe to drive here and into our small mountain towns (with the risk of having potential carriers). The park use should be limited to residents within a 50 mile radius of it until other parks reopen.	5/5/2020 7:57 AM
185	We need to amend the NM emergency act to add oversight by our elected representatives to any future declaration of emergency by a governor similar to Michigan's. Our governor has been allowed, by the emergency act to decree law and to operate without a check or time limit. Never again can we allow a governor to wreck NM businesses in this manner or wield the	5/5/2020 7:52 AM

power to confiscate and fine without a warrant or put into place any restriction that runs counter to Bill of Rights freedoms for any length of time.

186	Absolutely should not extend restrictions on businesses reopening past May 15 unless new coronavirus numbers show an increase day-over-day at that time.	5/5/2020 7:50 AM
187	Shuttering the entire state for what is happening in a few counties is ridiculous.	5/5/2020 7:43 AM
188	I fear this tactic will be used again and again since so many people followed instructions. Our rights have become privileges dictated by the government.	5/5/2020 7:42 AM
189	The Governor and her State Police "Gestapo" are out of control.	5/5/2020 7:32 AM
190	No	5/5/2020 7:30 AM
191	No	5/5/2020 7:29 AM
192	Hospitals are having to furlough workers to get by. That's outrageous! Hospitals need to be able to bring in more money so they can pay their employees so that the facilities can be taken care of. My dad works at San Juan Hospital and has been furloughed along with others who are not medical staff.	5/5/2020 7:24 AM
193	I believe the Republican House members are working very hard to fight for businesses. Causing the Governor's office to respond to them.	5/5/2020 7:00 AM
194	If any elected official wants to declare a shut/ lock down, with the involvement of the NG, it should last for at least 3 weeks. The public should be notified well in advance of the dates and that they need to make sure they have any and all supplies to survive for that period. They should be instructed to purchase ONLY the amount of food and supplies needed for that time period, with stores monitoring and not allowing panic buying. The residents should be given at least 2 week- to 1 month notice of the starting and ending date. Then an actual shut/ lockdown would mean that ALL business, big and small, would be CLOSED, with gas stations pay at pump with card only. The only establishment allowed to stay open would be Hospitals, police, 911, ambulance, fire departments (for emergency), nursing homes with no visitors. The only people on the roads should be OTR truck drivers, people traveling through (no need for them to stop if everything is closed) and these above mentioned employees, who would be required to have the paperwork to prove it. That in my opinion would be an actual shutdown and would do more to control, get rid of this virus than anything that has been done.	5/5/2020 6:57 AM

209	All businesses need to open immediately	5/5/2020 2:46 AM
210	Small business should have the same as the big box stores. They are going down the tubes. I suspect many will never open again. I think adults should be able to make decisions that affect themselves and their family. I don't think the State Police should be used by the Governor as a Gestapo. She has over stepped her authority when it comes to undermining the Constitution and Bill of Rights. I spent 23 years in the USAF and spent all of the Cold War and some of the Vietnam War and I am now 72 years old. I don't need some bureaucrat in Santa Fe telling me how to live my life. I have brains enough to keep myself safe. I have been on lock down in the old folks home I live in for over a month. I have to depend on my daughter to do everything for me. I send her an email with my grocery list. She orders it via computer and she goes and picks it up and brings it to where I live. But she can't come in. We have two guys who gets the groceries and brings it to my room. Same with the mail. They deliver the mail six days a week and it sits for 24 hours and those guys bring the mail to our rooms and if we have mail to go out they come get it and send it off. We are not stupid. The governor who could be my daughter's age, should not treat adults like me as a child. This is the attitude I get from her. She does need to allow some of these mom and pop businesses to open and other business to open. Her closing gun stores is unconstitutional and she should be challenged in court.	5/5/2020 2:31 AM

If you want to get back to life, do so. Americans are smart people allow them to use the brain God gave them. I understand providing stats and information, but do NOT keep me from conducting my life and I need to! The decisions have not been equal across the board. Every political office needs to group to consult with. The group needs to be comprised of 9-10 people, one from each level of income. The very very wealthy (all political figures) does not know what we have to do to pay bills, shop, etc. it would be helpful to provide a wide range of responses to every situation before a decision is made. The government has thrown away so much money, it's crazy. Example: the stimulus \$1200. I usually like what you are doing as an organization, but some of these questions and what I see you doing is being a Republican Pelosi. People are tired of this. If you choose to be divisive, people will not support you. Work for what is right, not to wave your flag.	4/29/2020 6:46 AM
376	If our governor wasn't trying out for Vice President, we probably would have received a different course of action. The state is broke due to her actions, and will get worse with oil prices dropping. Hold on to your wallets...state taxes will go through the roof to cover her spending frenzy of our oil and gas money which is not there anymore. We already depend on the most federal aid than any other state, and that will only get worse	4/29/2020 6:22 AM
377	First it was about not over taxing my the hospitals when they were not it became about a cure or vaccine that will not happen fast enough	4/29/2020 6:11 AM
378	Leave the nmsp out of it.	4/29/2020 6:11 AM
379	Do not make this a "political" move. Our economy must be strong beyond any administration or political future of any politician..	4/29/2020 6:10 AM
380	Business owners always knows how best to operate their own businesses best. NMBC is a vital influence in government but must keep up pressure to make effective change	4/29/2020 6:09 AM
381	The continued closure of small businesses, recreational areas (state parks, golf courses, etc.), and elective care should end immediately. Our greatest threat right now is depression, anger, and rebellion.	4/29/2020 5:44 AM
382	Small business has made a huge sacrifice, while big box stores have made millions. Give small business the same chance we give big box stores.	4/29/2020 5:26 AM
383	I would like to see the elected representatives give up their paychecks like most of the rest of the state had to. And not get them back until they realize they work for the people.	4/29/2020 4:43 AM
384	There is absolutely no reason why counties with less than 10 "cases" should not still be doing business. The state economy is on life support and it need to be getting going	4/29/2020 4:36 AM
385	Can't believe anything you see or hear.	4/29/2020 2:34 AM
386	The legislature needs to be called into session immediately so that they can do their job representing the citizens of NM and finding solutions for the economy and the citizens of the state that the governor is apparently not capable of.	4/29/2020 12:57 AM
387	Just a guise to push forward a radical new world order agenda.	4/29/2020 12:37 AM
388	This State needs a complete comprehensive overhaul of the education system from ground up.	4/29/2020 12:21 AM
389	Our friend tested positive and I was very disappointed in the amount of time it took to reflect his positive test on the Covid 19 tracking update. They added his positive test about 2 or 3 days before he was taken off Quarantine. This made us feel that we could not rely on the numbers that were being reported.	4/28/2020 11:50 PM
390	Open our state back up	4/28/2020 11:49 PM
391	MLG is a failure as a governor and is holding NM back from any sucess.	4/28/2020 11:45 PM
392	Open up our state!! Open up our parks!! Open our businesses!	4/28/2020 11:44 PM
393	Open up with safety restrictions, people who want to stay home, let them, ones who want to get back to work, let them. Make the citizens responsible for their personal well being. We flattened the curve , now get back to normal.	4/28/2020 11:27 PM
394	Get New Mexicans back to work, now!	4/28/2020 11:26 PM
395	The science and the numbers do Not add up to the dramatic closures and orders she has ILLEGALLY Given.	4/28/2020 11:18 PM
396	They can't hold us down next week!	4/28/2020 10:53 PM
397	We should have access to testing, contact tracing and PPEs.	4/28/2020 10:50 PM

398	Small business with no employees or payroll have been left out of the loop. I own a very small business...just me...no employees....and I have not found any place to get financial help!	4/28/2020 10:31 PM
399	Impeach MLG!	4/28/2020 10:11 PM
400	Issues I have with your plan: masks must be required, not just recommended. A sufficient supply of masks must be available, which does not appear to be the case currently. 6 feet of social distancing is not enough according to scientists. How will you keep public restrooms from becoming vectors for spreading the virus, especially since it is present in bodily waste? There should be some tailoring of plans to the needs of specific parts of the state.	4/28/2020 9:56 PM
401	This is the worst possible reaction and decision anyone could make.	4/28/2020 9:56 PM
402	I am happy with the daily updates on the NM website for Covid 19.	4/28/2020 9:55 PM
403	We're doing fairly well in NM. However lack of flexibility and not communicating reasons for continued shutdown are not serving the citizens well.	4/28/2020 9:54 PM
404	The state's response was a scare tactic that has destroyed the public's little faith in our government.	4/28/2020 9:52 PM
405	Our governor is complete joke, and she's only using New Mexico as a stepping stone to Washington!!! Worst Governor Ever!	4/28/2020 9:52 PM
406	I think the response was completely politically motivated. It was not backed by facts or science.	4/28/2020 9:40 PM
407	She, Mlg, is not smart enough to run NM	4/28/2020 9:40 PM
408	Just let small businesses compete.	4/28/2020 9:39 PM
409	MLG sucks.	4/28/2020 9:39 PM
410	The overreach and power grab by the governor is quite evident. Enough is Enough!	4/28/2020 9:36 PM
411	Let them get back to work, they can do so safely and responsible	4/28/2020 9:33 PM
412	Interesting that our Governor is still not concerned about our border but is instead concerned about small businesses opening up Grants, NM. If this was really about safety the border would be a far greater concern.	4/28/2020 9:33 PM
413	The Governor is a dictator and is devastating our state	4/28/2020 9:29 PM
414	At first with no info a strict response may have been warranted - although we do not do the same for other diseases or viruses with a greater lethality . Think for yourself - do not just follow the herd.	4/28/2020 9:27 PM
415	I believe the entire response has been overplayed and the Governor has overplayed her authority.	4/28/2020 9:24 PM
416	Thank you NMBC for preparing a reasonable open NM presentation for the Governor. It's a shame Michelle Lujan Grisham would not even consider the requests of the Citizens of New Mexico.	4/28/2020 9:20 PM
417	Allow non and asymptomatic people to get tested. Offer those with antibodies to be tested more readily and widely available.	4/28/2020 9:09 PM
418	I appreciate that the virus is serious, however, it would have been better to isolate the vulnerable rather than the masses. It has ended up hurting way more people and businesses than was necessary.	4/28/2020 9:08 PM
419	The statistics DO NOT support this level of response, shutdown. The media has put the fear in to the world causing this response.	4/28/2020 9:06 PM
420	Overreaction & government overreach at its best	4/28/2020 9:05 PM
421	We desperately need a new governor	4/28/2020 9:04 PM
422	Big box stores and a lot of small businesses sell the same items so why are only big box stores allowed to remain open? How am I anymore safe going to a big box store thsn a locally owned business? How am I more safe going to a big box store than an empty state park where I'm outside?	4/28/2020 9:01 PM
